Two mountain guides who have climbed extensively in the region share their A-list picks. Coverage includes rock, alpine, and ice routes from the Gunks to Acadia.

Ormai sono molti gli autori che si sono inoltrati nei vasti territori del black metal moderno ma forse nessuno ha osato sviscerare in lungo e in largo le sue origini individuabili nei mitici anni '80. Benvenuti quindi nella lunga parabola della cosiddetta "first wave of black metal", ovvero un movimento musicale che, durato dal 1981 al 1991, cioè dall'uscita del seminale "Welcome to Hell" dei Venom all'apertura del negozio di musica "Helvete" con il quale si sarebbe realmente scatenato l'Inferno, ha messo le radici praticamente ovunque sconvolgendo in maniera totale il modo di suonare heavy metal. Allora, ecco che si va dall'Israele al Canada, dal Singapore alla Norvegia, dai Paesi dell'America Latina fino a quelli appartenenti al blocco sovietico, dove già il solo suonare musica rock costituiva di per sé un'impresa eroica. E' stata quindi analizzata ogni scena nazionale proto-black metal descrivendone le peculiarità e i gruppi rappresentativi andando così oltre ai soliti nomi (Venom, Sodom, Mercyful Fate, Hellhammer...), in una continua ricerca a effetto nei meandri di una musica che all'epoca, più che un genere, era un modo di pensare, di concepire l'heavy metal, esprimendone la versione satanica e blasfema per antonomasia. Comprensivo di interviste ai Necrodeath, agli Schizo e ai brasiliani Holocausto e anche di brevi recensioni delle produzioni dell'epoca, il libro contiene

inoltre una sezione focalizzata sulla scena del rock occulto dagli anni '50 ai '70. Adesso non vi resta altro che cominciare un viaggio in un mondo ostile e senza pace dove i dannati imperversano beati e torturati fra le Fiamme Eterne... e lunga e tortuosa sarà la strada. 666% garantito!

Cultural Challenges to the Authentic, Autonomous Author

Over the past 100 years, climbers have been pushing standards in the Canadian Rockies. From long alpine ridges to steep north faces, the Rockies are synonymous with cutting-edge ascents. Peaks such as Robson, Chephren, Kitchener, the Twins and Alberta elude the many and reward the few. Many of the big faces were climbed between the 1960s and 1990, the golden age of alpinism in the Rockies. The men and women who first were part of that set high standards. Future alpinists read old journals and guidebooks, hoping to experience what the alpine "pioneers" did. For most, the Rockies require a certain edge that comes with age, humiliation and failure. Perhaps the ones who drink the most whisky, dream of the biggest peaks and sleep with snowballs in their hands are the ones rewarded with the momentary triumph of coming to a draw with one of these mountains. This is not a guidebook. Rather, it is a narrative history by the people who risked life and limb to establish these long, difficult and sometimes scary climbs. First published in 1993 and hailed as a classic, Yankee Rock & Ice is now reissued in a new edition with four new chapters covering the 1990s through today to bring the book up to date. This comprehensive and entertaining history of roped rock and ice climbing in the Northeast traces the growth of this popular sport in New England and New York and covers the first trailblazers of the eighteenth century through today's events and personalities. Well-known mountaineers and preservationists, Guy and Laura Waterman have explored every corner of the mountains of New England and New York and done solid historical research on first ascents of classic routes and the climbers who have made them legendary. Climber Michael Wejchert joins Laura for the work on the second edition.

Recompense: Streams, Summits and Reflections is a compilation of essays, some of which have been previously published. Divided into personal, experiential pieces, regional, historical selections and fishing tales, this book is a collection of expositions that exemplify the humbling effect nature and culture can have on the human soul. A story of the loss of one of the world's great alpinists is contrasted by a recollection of a high-profile rescue high on Maines Mount Katahdin and a two-year old boys first rock climb. Cultural lessons learned during expeditions to Bolivia and Patagonia parallel interpretations of climbing and skiings development in New England and the societal uniqueness of rural Washington States trout fishing community. Recounts of intimidation in the intensive care unit and memories of fishing the open waters of Montana highlight the impact of the natural world on interpersonal relationships and their effect on the mind of a doctor in training. Recompense: Streams, Summits and Reflections is a balanced selection of essays that will delight readers.

This volume explores a dimension of authorship not given its due in the critical discourse to this point—authorship contested. Much of the existing critical literature begins with a text and the proposition that the text has an author. The debates move from here to questions about who the author is, whether or not the author's identity is even relevant, and what relationship she or he does and does not have to the text. The authors contributing to this collection, however, ask about circumstances surrounding efforts to prevent authors from even being allowed to have these questions asked of them, from even being identified as authors. They ask about the political, cultural, economic and social circumstances that motivate a prospective audience to resist an author's efforts to have a text published, read, and discussed. Particularly noteworthy is the range of everyday rhetorical situations in which contesting authorship occurs—from the production of a corporate document to the publication of fan fiction. Each chapter also focuses on particular instances in which authorship has been contested, demonstrating how theories about various forms of contested authorship play out in a range of events, from the complex issues surrounding peer review to authorship in the age of intelligent machines. Drawing on archival sources and oral testimony, Keith Gildart examines the ways in which popular music played an important role in reflecting and shaping social identities and working-class cultures and - through a focus on rock 'n' roll, rhythm & blues, punk, mod subculture, and glam rock - created a sense of crisis in English society.

This volume brings together a number of perspectives on the musical landscape of Invercargill, a city at the bottom of Aotearoa/New Zealand. Invercargill is in many ways unique; it is relatively isolated, its access to liquor is controlled by a licensing trust, and it is home to the longest-serving mayor in Aotearoa. The

musicking that occurs within Invercargill is surprisingly diverse and wide-ranging. in rhetoric, composition, political communication, and social justice.

This book acknowledges and explores many of the South ' s musical communities, and in, doing so, illustrates the importance of music in local communities. It highlights the ways in which social connectedness, local identity and individual lives are enriched through musical activities being interwoven through communities.

At over 90,000 words, this is the most comprehensive fan guide yet published to the 2012-2013 season of Doctor Who. After the first part of the season provided an emotional ending to the Doctor's travels with his friends Amy and Rory, Steven Moffat presented an innovative and intriguing new mystery, as the Doctor puzzled over the " woman twice dead " that is Clara Oswald, who had the most spectacular introduction(s) of any companion. This series was the most demanding yet for Moffat; no other Doctor Who showrunner had previously faced an assignment like writing a series finale, an anniversary story, and a combined Christmas Special/Doctor finale in quick succession. We are with Moffat every step of the way as he rises to this unique challenge. The format of this book is the same as our previous Doctor Who guides. Steven Cooper has written excellent detailed analyses of each episode, which Slant Magazine published online in their House Next Door blog soon after each episode was broadcast. In this way, Steven ' s reviews provide an invaluable record of how a long-standing fan reacted to each twist of the plot as it occurred. House Next Door published Steven ' s 2013 episode reviews in abridged form; he then expanded upon his analyses, so this book contains far more of his insights than those published online. Kevin Mahoney then follows Steven ' s analyses with his reviews, which he wrote from the perspective of having watched the entire series. This enabled him to gauge exactly how Steven Moffat had put this season together, and to assess the success of his various hoodwinks and sleights of hand. In this series, Steven Moffat was just as ambitious as ever - perhaps too ambitious at times, when the scripting became uneven or the production team was not able to realize an episode as well as they might have done. Despite this, there were several episodes that rank among the best of the show's achievements, which we applaud in this celebration of Doctor Who's 50th Anniversary.

The second edition of this formative collection offers analysis of the work rhetoric plays in the principles and practices of today ' s culture of democratic activism. Editors JongHwa Lee and Seth Kahn—and their diverse contributors working in communication and composition studies both within and outside academia—provide explicit articulation of how activist rhetoric differs from the kinds of deliberative models that rhetoric has exalted for centuries, contextualized through and by contributors ' everyday lives, work, and interests. New to this edition are attention to Black Lives Matter, the transgender community, social media environments, globalization, and environmental activism. Simultaneously challenging and accessible, *Activism and Rhetoric: Theories and Contexts for Political Engagement* is a must-read for students and scholars who are interested in or actively engaged
