A concise and accessible guide to techniques for detecting doctored and fake images in photographs and digital media. Stalin, Mao, Hitler, Mussolini, and other dictators routinely doctored photographs so that the images aligned with their messages. They erased people who were there, added people who were not, and manipulated backgrounds. They knew if they changed the visual record, they could change history. Once, altering images required hours in the darkroom; today, it can be done with a keyboard and mouse. Because photographs are so easily faked, fake photos are everywhere—supermarket tabloids, fashion magazines, political ads, and social media.

How can we tell if an image is real or false? In this volume in the MIT Press Essential Knowledge series, Hany Farid offers a concise and accessible guide to techniques for detecting doctored and fake images in photographs and digital media. Farid, an expert in photo forensics, has spent two decades developing techniques for authenticating digital images. These techniques model the entire image-creation process in order to find the digital disruption introduced by manipulation of the image. Each section of the book describes a different technique for analyzing an image, beginning with those requiring minimal technical expertise and advancing to those at intermediate and higher levels. There are techniques for, among other things, reverse image searches, metadata analysis, finding image imperfections introduced by JPEG compression, image

cloning, tracing pixel patterns, and detecting images that are computer generated. In each section, Farid describes the techniques, explains when they should be applied, and offers examples of image analysis.

Steve McCurry's iconic images have made him one of the world's most popular photographers working today. Now, for the first time, he shares the stories behind stunning images taken from around the world throughout his extensive career. In the finest documentary tradition, Untold: The Stories Behind the Photographs delves into McCurry's personal archive to reveal never-before-seen ephemera, including journals, portraits, maps, and beautifully reproduced snapshots from various assignments. The book is organized into 14 photo stories, each brought to life by narrative text and over 100 lavish, full-color

photo plates. Together, these fascinating documents create a living biography of one of photography's greatest legends. For decades, the Gabor dynasty was the epitome of glamour and fairy tale success. But as biographer, film historian, and Gabor family friend Sam Staggs reveals, behind the headlines is a true story more dramatic, fabulous, and surprising than their self-styled legend would have you believe . . . In 1945, after barely escaping Hitler ' s invasion of Hungary followed by " liberation " of the country by the Red Army, three members of the Gabor family—Jolie, her ex-husband Vilmos, and their daughter Magda—arrived in New York City. In Hollywood, their other daughters, Zsa Zsa and Eva, had worked feverishly throughout the war years to secure their rescue from the Nazis ' plan to exterminate the Jews. Stepping off the boat, Jolie, the iron-willed matriarch, already had a golden future mapped out for her sharp-witted, cosmopolitan beauties. Over the next six decades, with twenty-three husbands between them (suave All About Eve star George Sanders would wed both Zsa Zsa and Magda), scores of lovers, and roller-coaster rides in film, television, theater, and business, the elegant yet gloriously bawdy, addictively watchable Gabors carved a niche in the entertainment industry that made them world-famous pop-culture icons. But beneath the artifice of Dior and diamonds was another side to the story they never revealed: the whole truth. This first verifiable history of the Gabors casts a startling new light on these extraordinary women. Finding Zsa Zsa reveals the tumultuous and often unforgiven battles between mother and daughter, sister and sister, wife and husband; Eva ' s " bearded " romance with Merv Griffin that allowed them both to seek same-sex lovers; Zsa Zsa's involuntary confinement in a mental hospital; her life-long struggle with bipolar disorder; and her last—unconsummated—marriage to the manipulating faux prince Frederic von Anhalt. Here too is the untold story of Zsa Zsa ' s daughter, Francesca Hilton, a gifted photographer who eschewed the Gabor lifestyle and paid a sad price for her independence. The story of family patriarch Vilmos Gabor, who returned to Hungary only to be trapped behind the Iron Curtain, reads like a Cold War spy thriller. Culled from new interviews with family, colleagues, and confidantes, and the unpublished memoirs of the author's friend Francesca Hilton, Finding Zsa Zsa finally introduces fans to the Gabor family they never knew,

including many never-before-seen photos. It ' s a riveting, outrageously funny, bittersweet, and affectionately honest read of four women who were vulnerable, tough, charitable, endlessly fascinating, and always glamorous to a fault. In this precious and delightful book, Felice Beato and his outstanding photos transport the reader to the world of fascination and mystery of 19th-century Japan. An extraordinary collection of eighty pictures from the Alinari Archives located in Florence, Italy makes up a never-before-published sequence of images including portraits, landscapes, and rituals providing a rare entry into traditional 19th-century Japan. Felice Beato was one of the first Western photographers to enter Japan when the country first opened its borders (1853); he revealed to the Western world a country preserved in time and never seen before. In 1863 he moved to Yokohama and opened a photography school, the School of Yokohama. The photos of the book preserve the original photographic prints, manually colored black-and-white prints, that truly embody the spirit of that period. Images feature fascinating portraits of women in kimonos, geishas, samurai warriors, and interiors of Japanese homes and gardens as well as scenes of everyday life including tea ceremonies or the theater. Each photo is accompanied by text providing historical, anthropological, and artistic context. This is a charming volume which comes with a Japanese-inspired design, with decorative patterns and colors recalling Japanese paper tradition and kimono fashion.

The pandemic of our lifetime, the era of Covid-19, was a time of mystery, death, and fear as never before seen. It revealed the nurse ' s face imprinted red as she cried behind her mask and the EMT loading soon-to-be-dead onto the ambulance. Amidst the Food Bank ' s love and sustenance was news of Captain Crozier ' s termination, fired for trying to save his men from Covid ' s annihilation. Even Governor Cuomo acted as the surrogate president as New Yorkers clapped from their windows to thank first responders for their magic, and people stayed home, always to celebrate alone. It was just the time when nothing made sense and everything reeked of false pretense. It was a time when working for gratuity changed to delivery, when jobs were all gone and bills piled overwhelmingly high! Stocks plummeted radically. Another Depression was nigh. Drugs became the crutch for each hour, and abuse of all sorts ruled rampant with power. There is no escape when one ' s quarantined; children learned a way of life not meant to be. Nursing homes hid the dead bodies of their residents, while all people of color died disproportionately. The meat-packers were forced to work against their own will; Native Americans once again, by a virus, were killed. The homeless had to endure even more suffering, but for the first time, from Coronavirus, our air became clean. George Floyd started his own pandemic for the BLACK LIVES MATTER task as the president gassed peaceful protestors to clear a path, never wearing a mask, his followers to never dare ask. The virus continued to baffle and control as Americans writhed from its pain. The world had changed. All had changed. Yet graduates, though masked, pretended all was the same. Wearing masks, they flung hats up with glee, while uncaring asymptomatics spread the virus epidemically. Monuments of hate and slavery came toppling down, and the sound of protest continued to erupt. A child ' s birthday was celebrated by her black daddy being gunned down, where he only awkwardly slept. The bounty of our soldiers rages with this virus today. It is no surprise that innocent children are being caged. " Live and let die " dictated the day that we all blindly march in Corona ' s parade. Viral Spiral is a book that details the various dramatic aspects of the coronavirus pandemic and the Black Lives Matter movement. Each poem is accompanied by real-life photos of Covid-19 and Black Lives Matter content. The marriage of these photos with each jaw-dropping poem will overwhelm the reader. As construction begins on the largest marine amusement park in the world, the abuse of killer whales continues, both during capture and in captivity. As the parks head biologist, Mark Tillsdale, and eight crew members head

into the waters that surround Santa Catalina Island to hunt orcas during their migration season, one whale fails to escape their net. After a three-year-old orca is captured and torn from his family, the young male is quickly deemed unsuitable for training, killed, and thrown back into the sea. When the mother orca and her pod find her offsprings carcass, they vow revenge. Soon, ocean justice begins as the pod brutally attacks and kills humans along the California coast. After a mature male orca escapes from a marine amusement park and joins the pod, the killing continues, even as marine biologists, land-based law enforcement, the Coast Guard, and others attempt to fight back. Unfortunately they are all about to discover that what human cruelty unleashed, no man can stop. In this gripping tale, a mother whale and her pod become bloodthirsty murders after her offspring is brutally killed by staff from a marine amusement park.

Becoming Barbra presents a never-before-seen look at a star in the making by an award-winning photographer with full access. From the humble beginnings of Barbra Streisand's career in 1963 to full-fledged stardom in 1966, renowned Life magazine photographer Bill Eppridge had full access to the young singer. He photographed Streisand shopping in a thrift shop; trying on outfits in her apartment; and there's an appearance on the The Tonight Show with Johnny Carson—then live from New York. Eppridge documented Streisand meeting with producer David Merrick, who wanted her for the starring role in Broadway's Funny Girl, which catapulted her to celebrity status. By the time Eppridge caught up with Streisand in 1966, she was a star in full orbit. Funny Girl had just wrapped, CBS had signed her to star in three television specials, five of her albums had gone gold and one platinum, and she had received three Grammys and an Emmy. Eppridge photographed Streisand throughout her CBS rehearsals and recording sessions, then went to Paris where he covered her at fashion shows with Marlene Dietrich and Coco Chanel, and captured a Richard Avedon shoot of her for French Vogue. Eppridge's photographs are vivid, candid, and a truly intriguing and unprecedented look at the beginnings of Streisand's career—an intimate photo album by a master photographer of one of the most talented performers of our time. Undiscovered, unpublished shots of The Beatles are revealed in this treasure trove of never-before-seen original photos of the Fab Four. 108 photos.

Untold: The Stories Behind the Photographs PICTURING PRINCE sees the late icon's former art director, STEVE PARKE, revealing stunning intimate photographs of the singer from his time working at Paisley Park. At least half of the images in the book are exclusively published here for the first time; most other images in the book are rare to the public eye. Alongside these remarkable images are fifty engaging, poignant and often funny written vignettes by Parke, which reveal the very human man behind the reclusive superstar: from shooting hoops to renting out movie theatres at 4am; from midnight requests for camels to meaningful conversations that shed light on Prince as a man and artist. STEVE PARKE started working with Prince in 1988, after a mutual friend showed Prince some of Steve's photorealistic paintings. He designed everything from album covers and merchandise to sets for Prince's tours and

videos. Somewhere in all of this, he became Paisley Park's official art director. He began photographing Prince at the request of the star himself, and continued to do so for the next several years. The images in this book are the arresting result of this collaboration.
