Marry Me is subtitled "A Romance" because, in the author's words, "people don't act like that anymore." The time is 1962, and the place is a fiefdom of Camelot called Greenwood, Connecticut. Jerry Conant and Sally Mathias are in love and want to get married, though they already are married to others. A diadem of five symmetrical chapters describes the course of their affair as it flickers off and on, and as their spouses react, in a tentative late-summer atmosphere of almost-

last chances. For this is, as Jerry observes, "the twilight of the old morality, and there's just enough to torment us, and not enough to hold us in."

Lauded as a "compelling" (The New Yorker) and "eye-opening tour of a process that many Americans never see" (Washington Post), David Daley's *Ratf\*\*ked* documents the effort of Republican legislators and political operatives to hack American democracy through an audacious redistricting plan called REDMAP. Since the revolutionary election of Barack Obama, a group of GOP strategists has devised a way to flood state races with a gold rush of dark money, made possible by Citizens United, in order to completely reshape Congress--and our democracy itself. "Sobering and convincing" (New York Review of Books), *Ratf\*\*ked* shows how this program has radically altered America's electoral map and created a firewall in the House, insulating the Republican party and its wealthy donors from popular democracy. While exhausted voters recover from a grueling presidential election, a new Afterword from the author explores the latest intense efforts by both parties, who are already preparing for the next redistricting cycle in 2020.

The Constitutional Change We Need to Protect Our Priceless Natural Resources For decades, activists have relied on federal and state legislation to fight for a cleaner environment. And for decades, they've been fighting a losing battle. The sad truth is, our laws are designed to accommodate pollution rather than prevent it. It's no wonder people feel powerless when it comes to preserving the quality of their water, air, public parks, and special natural spaces. But there is a solution, argues veteran environmentalist Maya K. van Rossum: bypass the laws and turn to the ultimate authority--our state and federal constitutions. In 2013, van Rossum and her team won a watershed legal victory that not only protected Pennsylvania communities from ruthless frackers but affirmed the constitutional right of people in the state to a clean and healthy environment. Following this victory, van Rossum inaugurated the Green Amendment movement, dedicated to empowering every American community to mobilize for constitutional change. Now, with *The Green Amendment*, van Rossum lays out an inspiring new agenda for environmental advocacy, one that will finally empower people, level the playing field, and provide real hope for communities everywhere. Readers will discover: - how legislative environmentalism has failed communities across America, - the transformational difference environmental constitutionalism can make, - the economic imperative of environmental constitutionalism, and - how to take action in their communities. We all have the right to pure water, clean air, and a healthy environment. It's time to claim that right--for our

own sake and that of future generations.

Over the years, America's national elections have become focused almost exclusively on Democrats and Republicans; other parties exist but rarely rise to prominence. Elections at the state level, on the other hand, offer a livelier history, with successful candidates from political parties of all stripe, including Free Soil, Abolitionist, Anti-Monopoly, Farmers Alliance, War Democrat, Anti-Masonic, Socialist, and many more. This book lists the party affiliation of state legislatures beginning in 1796 through the elections of 2006.

Information on each state includes a summary of how its electoral process developed, including the origins and stipulations of each state's constitution, the terms and size of the legislature, and other details pertaining to the history of the state's legislative branch. Each state's chapter closes with a list of sources. In all, the book documents over 100 different party affiliations.

The underdog story of Will Haskell, who became a Democratic state Senator in 2018 at age twenty-two—taking on an incumbent who had been undefeated for Haskell's entire life and earning an endorsement from President Obama—and is determined to pave the way for his peers to transform government from the bottom up. President Obama left office with these parting words for Americans:

“ If you're disappointed by your elected officials, grab a clipboard, get some signatures, and run for office yourself. ”

Twenty-two-year-old Will Haskell decided to do just that. If he ran for office and won, he would become the youngest state Senator in Connecticut history. For years, Haskell's hometown had reelected the same politician who opposed passing paid family leave, fought increases in the minimum wage, and voted down expansions of voting rights. Haskell's own vision for Connecticut's future

couldn't be more different, and he couldn't stand the idea of an uncontested election.

In 2018, he would be a college grad looking for his first job. Why not state Senator? When Haskell kicks off his campaign in the spring of his senior year, he's an unknown college kid facing a popular incumbent who's been in office for over two decades—as long as Haskell's been alive. Haskell's campaign manager is his roommate and his treasurer is his girlfriend's mom. He doesn't have any professional experience. But he does have a powerful message: there's no minimum age to being on the right side of history. Six months later, Haskell's shocking upset victory gives him a historic seat in the state Senate and the responsibility to serve the 100,000 constituents in his district. Like any first job, his first term as a legislator is filled with trial and error. Creating a program that funds free tuition at Connecticut's community colleges—nice work. Falling asleep on the senate floor—needs improvement. In the tradition of Pete Buttigieg's Shortest Way Home and Greta Thunberg's No One Is Too Small to Make a Difference, 100,000 First Bosses is the story of how one twentysomething candidate waged the campaign of his young life, fought for change at the state capitol, and proved that his generation is ready to claim a seat at the table.

The Tax Reform Act of 1986 was the single most sweeping change in the history of America's income tax. It was also the best political and economic story of its time. Here, in the anecdotal style of The Making of the President, two Wall Street Journal reporters provide the first complete picture of how this tax revolution went from an improbable dream to a widely hailed reality.

As downward mobility continues to be an international issue, Robin Brooks offers a timely intervention between the humanities and social sciences by examining how Black women's cultural production engages debates about the growth in income and wealth gaps in global society during the late twentieth and early twenty-first centuries. Using an interdisciplinary approach, this innovative book employs major contemporary texts by both African American and Caribbean writers—Toni Morrison, Gloria Naylor, Dawn Turner, Olive Senior, Oonya Kempadoo, Merle Hodge, and Diana McCaulay—to demonstrate how neoliberalism, within the broader framework of racial capitalism, reframes structural inequalities as personal failures, thus obscuring how to improve unjust conditions. Through interviews with authors, textual analyses of the fiction, and a diagramming of cross-class relationships, Brooks offers compelling new insight on literary portrayals of class inequalities and division. She expands the scope of how the Black women's literary tradition, since the 1970s, has been conceptualized by repositioning the importance of class and explores why the imagination matters as we think about novel ways to

address long-standing and simultaneously evolving issues.

Wall Street Journal Bestseller USA Today Bestseller Publisher's Weekly Bestseller Conservative Book Club Bestseller "One of the best reads of 2018." — Sean Hannity "The book is well worth your time." — Megyn Kelly "A story told with both heart and knowledge. Really good, go get it!" — President Donald J. Trump No job is more of a pressure cooker than being a White House press secretary...especially in this White House. For more than two decades, Sean Spicer had been a respected political insider, working as a campaign and communications strategist. But in December 2016, he got the call of a lifetime. President-elect Donald J. Trump had chosen him to be the White House press secretary. And life hasn't been the same since. When he accepted the job, Spicer was far from a household name. But then he walked into the bright lights of the briefing room, and the cameras started rolling. His every word was scrutinized. Every movement was parodied. Every detail became a meme. And that's just the public side. Behind the scenes, things were almost as difficult in an administration plagued by leaks that frustrated and angered both Spicer and the president. Not to mention the extraordinary pressures on Spicer's family and his faith. Now, in his provocative and enlightening political memoir, *The Briefing*, Spicer reveals the truth behind some of the biggest news stories of our time, and he offers a glimpse into what it's like to stand at the press secretary's podium—and how he got there. *The Briefing* is the first insider account written by someone who worked on the Trump campaign, with the Trump transition team, and in the Trump White House—and has seen Donald Trump rallying voters, building an administration, and making crucial policy decisions. Spicer's riveting and personal account makes *The Briefing* the must-read political memoir of the year.

How to Become Politically Active--and Why  
Under Our Roof

I Alone Can Fix It

A congresswoman and her son reveal how he survived a ten-year battle with opioid abuse—and what their family’s journey to recovery can teach us about finding hope amid the unspeakable. “Beautiful and inspiring.”—Maria Shriver’s Sunday Paper (Book of the Week) When Madeleine Dean discovered that her son Harry was stealing from the family to feed a painkiller addiction, she was days away from taking the biggest risk of her life: running for statewide office in Pennsylvania. For years, she had sensed something was wrong. Harry was losing weight and losing friends. He had lost the brightness in his eyes and voice, changing from a young boy with boundless enthusiasm to a shadow of himself, chasing something she could not see. Now her worst fears had come to light. Under Our Roof is the story of a national crisis suffered in the intimacy of so many homes, told with incredible candor through the dual perspectives of a mother rising in politics and a son living a double life, afraid of what might happen if his secret is exposed. In this honest, bracing, yet ultimately uplifting memoir, they discuss the patterns of a family dealing with an unspoken disease, the fear that keeps addicts hiding in shame, and the moments of honesty, faith, and personal insight that led to Harry’s recovery. In a country searching for answers to the devastating effects of opioids and drug abuse, Under Our Roof is a ray of hope in the darkness. It is not only a love story between mother and son but also an honest account of a pressing national crisis by a family poised to

make a difference.

The National Book Award–winning author of The Women of Brewster Place explores the secrets of an affluent black community. For its wealthy African American residents, the exclusive neighborhood of Linden Hills is a symbol of “making it.” The ultimate achievement: a home on prestigious Tupelo Drive. Making your way downhill to Tupelo is irrefutable proof of your worth. But the farther down the hill you go, the emptier you become . . . Using the descent of Dante’s Inferno as a model, this bold, haunting novel follows two young men as they attempt to find work amid the circles of the well-off community.

Exploring a microcosm of race and social class, author Gloria Naylor reveals the true cost of success for the lost souls of Linden Hills—an existence trapped in a nightmare of their own making.

A Romance

A revealing memoir of how Washington is changing---and not for the better During a storied thirty-year career in the U.S. Senate, Arlen Specter rose to Judiciary Committee chairman, saved and defeated Supreme Court nominees, championed NIH funding, wrote watershed crime laws, always staying defiantly independent, "The Contrarian," as Time magazine billed him in a package of the nation's ten-best Senators. It all ended with one vote, for President Obama's stimulus, when Specter broke with Republicans to provide the margin of victory to prevent another Depression.

---

Shunned by the GOP faithful, Specter changed parties, giving Democrats a sixty-vote supermajority and throwing Washington into a tailspin. He kept charging, taking the first bursts of Tea Party fire at public meetings on Obama's health care--reform plan. Undaunted, Specter cast the key vote for the health plan. In *Life Among the Cannibals*, Specter candidly describes the battles that led to his party switch, his tough transition, the unexpected struggles and duplicity that he faced, and his tumultuous campaign and eventual defeat in the 2010 Pennsylvania Democratic primary. Taking us behind the scenes in the Capitol, the White House, and on the campaign trail, he shows how the rise of extremists---in both parties---has displaced tolerance with purity tests, purging centrists, and precluding moderate, bipartisan consensus. For students interested in a career in politics and public service, *Washington Internships* is an indispensable guide to landing that crucial first position in the internship capital of the United States and being a successful intern.

Over the last thirty years, the Federal Society for Law and Public Policy Studies has grown from a small group of disaffected conservative law students into an organization with extraordinary influence over American law and politics. Although the organization is unknown to the average citizen, this group of intellectuals has managed to monopolize the selection of federal judges, take over the Department of Justice, and control legal policy in the White House. Today the Society claims that 45,000 conservative lawyers and law students are involved in its activities. Four Supreme Court Justices--Antonin Scalia, Clarence Thomas, John Roberts, and Samuel Alito--are current or former members. Every single federal judge appointed in the two Bush presidencies was either a Society member or approved by members. During the Bush years, young Federalist Society lawyers dominated the legal staffs of the

Justice Department and other important government agencies. The Society has lawyer chapters in every major city in the United States and student chapters in every accredited law school. Its membership includes economic conservatives, social conservatives, Christian conservatives, and libertarians, who differ with each other on significant issues, but who cooperate in advancing a broad conservative agenda. How did this happen? How did this group of conservatives succeed in moving their theories into the mainstream of legal thought? What is the range of positions of those associated with the Federalist Society in areas of legal and political controversy? The authors survey these stances in separate chapters on regulation of business and private property; race and gender discrimination and affirmative action; personal sexual autonomy, including abortion and gay rights; and American exceptionalism and international law.

This is the full Mueller Report, as released on April 18, 2019, by the U.S. Department of Justice. A reprint of the report exactly as

it was issued by the government, it is without analysis or commentary from any other source and with nothing subtracted except for the material redacted by the Department of Justice. The mission of the Mueller investigation was to examine Russian interference in the 2016 Presidential election, consisting of possible links, or "collusion," between the Donald Trump campaign and the Russian government of Vladimir Putin as well as any allegations of obstruction of justice in this regard. It was also intended to detect and prosecute, where warranted, any other crimes that surfaced during the course of the investigation. The report consists of a detailed summary of the various investigations and inquiries that the Special Counsel and colleagues carried out in these areas. The investigation was initiated in the aftermath of the firing of FBI Director James Comey by Donald Trump on May 9, 2017. The FBI, under Director Comey, had already been investigating links between Russia and the Trump campaign. Mueller submitted his report to Attorney General William Barr on March 22, 2019, and the Department of Justice released the redacted report one month later.
