TRUE GRANDEUR is the tale of Conrad Arlington, a young man who moves to Los Angeles to pursue his lifelong dream of becoming a great artist. Within a few short years of his arrival, Conrad ' s success as a writer brings him to the attention of Gracie Garrison, a beautiful and alluring socialite whose glamorous lifestyle is just as mysterious as the rumors that surround her. After spending a spirited and adventurous night on the town together – one fueled by an excess of beautiful people, extravagant parties, gallery openings, and the madness of

a fallen director – Conrad ultimately falls in love with her, believing them to be destined. However, when he awakens the next morning to find that Gracie is gone, he is distraught, and thus embarks on his relentless journey to find her, resulting in a tumultuous down spiral of passion, art, and romance as he searches his soul to try and uncover the greatest mystery of all – true love. At its core, True Grandeur is not just a love story, but rather an in-depth study on contemporary romanticism, of how ideals shape one ' s need for individuality and importance, and of how sociological factors such as fame, wealth, and social class contribute to one ' s ability to receive – or not receive – true love. It ' s a story of what it means to feel deeply, and attempts to accurately illustrate the internal progression that is the artist ' s journey. What would happen if the Unthinkable blindsided you, requiring everything be put on hold to become a full time caregiver for a loved one? at the very least, it would

reshape your life. Without a survival guide, it could even destroy it. Barb Owen delivers precisely that survival guide in *NORMAL Doesn't Live Here Anymore: An Inspiring Story of Hope for Caregivers*. She weaves a story, through the first two parts of the book, based on her life-changing experience as primary caregiver for her elderly parents. Following each chapter a bit of wisdom gained from Barb's experience is summarized as a Reflection. The third part of *NORMAL Doesn't Live Here Anymore* addresses the critical need for self-care for the new and seasoned caregiver alike. Specific suggestions abound for Me Time—how to find it—what to do with it—and how very important it is for sustaining oneself throughout the often arduous caregiving-marathon. This truly inspiring book is one part parable, one part autobiography and all survival guide, illuminating a path for the more than 65 million caregiving Americans. "Everything hinges on your ability to care for both yourself and your loved one," says Owen. "This maxim is of great consequence—heed it, and you will endure. Dismiss it, and you will have trouble surviving. Take care of yourself, your loved one and keep the faith, because you're not alone." — — — REFLECTION; Difficult subjects sometimes need to be discussed. You might be asked by others to deliver bad news—news of someone's death, a life-altering diagnosis, or even the necessity for a change in residence. Each conversation carries the potential for unleashed emotions. My advice? No matter how difficult or emotional, don't leave words left unsaid. People, if capable of understanding, deserve information. Often, they are much stronger than we realize. Words are powerful. They carry courage, condemnation, reassurance or permission. Choose them wisely as your words may be the ones that bring freedom from pain or suffering. It's tough, but I know you can do it and if you listen to that voice inside, you will know exactly the right time and the right words. Be Strong!

Part Falstaff, part King Lear, but all American, Howard Elman was a fifty-something workingman when he burst onto the literary scene in *The Dogs of March*, the first novel of the *Darby Chronicles*. Now in this, its seventh installment, the *Darby* constable is an eighty-something widower who wants to do "a great thing" before he motors off into the sunset. Maybe Howard achieves this goal, but he manages it in strange, wonderful, and dangerous ways. On his quest he's aided, abetted, hindered, and befuddled by his middle-aged children, his hundred-year-old hermit friend Cooty Patterson, a voice in his head, and the person he loves most, his grandson, Birch Latour. At 24, Birch has returned to *Darby* with his friends to take over the stewardship of the Salmon Trust and to launch a video game, *Darby Doomsday*. At stake is the fate of *Darby*. And the world? Maybe. Howard Elman's *Farewell* begins as a coming of (old) age story, morphs into a murder mystery, expands into a family saga, and in the end might just follow Howard Elman into the spirit world. This is a novel for people who like New England fiction with humor, pathos, and just a touch of magical realism.

Susan Perabo's short-story collection, *Who I Was Supposed to Be*, was named a Best Book of 1999 by the *Los Angeles Times*, *The Miami Herald*, and the *St. Louis*

Post-Dispatch. The Boston Globe proclaimed the debut "a stunning introduction to a fresh new literary talent." Now Susan Perabo returns with *The Broken Places*, her eagerly anticipated novel about love and honor and how the aftermath of one terrifying night -- and one heroic act -- affects a close-knit family. Twelve-year-old Paul Tucker knows his family is something akin to royalty in small-town Casey, Pennsylvania. His father, Sonny, is a dedicated career fireman, in line for the position of chief, long held by Paul's late grandfather, a local legend whose heroics continue to occupy the hearts and minds of all who knew and worked with him. Paul's mother, Laura, is a math teacher at the high school; Paul is sometimes annoyed by her worries over him (and her apparent lack of worry over his father), but his life is generally untroubled, his future bright, his time measured by sport seasons. But on a windy October day, the collapse of an abandoned farmhouse forever alters the fates and perceptions of Paul, his family, and those closest to them. Sonny and the other Casey firemen attempt a dangerous rescue to reach a teenager buried under the rubble, and when Sonny himself is trapped by a secondary collapse, Paul, his mother, and the crowd of onlookers believe the worst. The wait is excruciating; it's baby Jessica all over again, but this time the "innocent victim" is sixteen-year-old Ian Finch, a swastika-tattooed hoodlum who may have brought the house down on himself while building bombs. Still, when Sonny emerges from the rubble hours later, the maimed teenager in his arms, the rescue becomes a minor miracle and a major public relations event, a validation of

all things American and true. Sonny is immediately hailed as a national hero. And Paul's life is suddenly, and irrevocably, changed. Beyond the limelight, the parades, and the intrusion of the national media into a quiet and predictable life, the Tucker household balance is upset. And Ian Finch's curious and continued involvement in Sonny's life creates a new and troubling set of hurdles for Paul to overcome. Somehow, though his father has been saved, he continues to slip through Paul's fingers. Secrets, lies, and changing alliances threaten Paul's relationship with his father and his mother and his understanding of what holds a family -- and a town -- together. *The Broken Places* is a brilliant meditation on the psychology of heroism, the definition of family, and the true meaning of honor. With pitch-perfect dialogue, subtle but stunning insights, and a dazzling ability to uncork the quiet power of each character, Susan Perabo's *The Broken Places* uncovers and celebrates the unsettling truths of human nature.

Hailed by the critics and lauded by readers for its riotously funny and scathing portrayal of America in an age of trial by media, materialism, and violence, Vernon God Little was an international sensation when it was first published in 2003 and awarded the prestigious Man Booker Prize. The memorable portrait of America is seen through the eyes of a wry, young, protagonist. Fifteen-year-old Vernon narrates the story with a cynical twang and a four-letter barb for each of his townsfolk, a medley of characters. With a plot involving a school shooting and death-row reality TV shows, Pierre's effortless prose and dialogue combine to form a novel of postmodern gamesmanship.

Behind every successful person, is a road surrounded by thorns, frustrating positions, and heart-rending words, so don't care about anything anymore; because we all live in the same circumstances in some manner. Behind every successful project in life, are honest people with all their senses and emotions, give some peace, even the marriage shall be considered as a project so what about you, are you a party to peace in this project? I recommend that you put a cup of tea, coffee or your favorite drink nearby and listen to your favorite music while you are reading with all your senses. There is a treasure in your hands, a story of success, love, adventure and ambition of a young woman who chose not to keep her distinctive abilities behind the scenes. You have to take a closer look at the positions you have been subjected to, the way in which these situations were handled, and the conflicts that accompanied them. There are serious risks and adventures that will move your spirit of seeking initiation. Do not leave even one single line, because events are sequent creating magnetic waves of energy and emotions. After

finishing that book, go toward your goals. If you didn't have a goal, create it and then renew your list of goals whenever you achieve one of them. We live once, so do not live in misery because of an obstacle that you have gone through it somehow, and continue to achieve what you are seeking for. It is OK to change your attitude toward new things, perhaps this will leave you with a greater impact. All you have to do is to appreciate your value, then the value of life, and the value of love in your life.

'Buy it for yourself, your husband or partner. Most importantly, buy it for your children' Sunday Express Essential reading from Catherine Mayer, recently named one of the Top 100 Most Influential People in Global Policy on Gender Equality.

SHE FALLS INTO THE DEPTHS OF SILENTNESS She wrote her love story and finally let it go. She set it in the hands of fate; which is something one does not often do. No words need to be followed, for those words will not mean anything in a realm of time that just stands still. Living and learning from the blindness of the unknown, she followed and trusted the spirits to bring the guidance of teachings into her reality. She remembers coming to a place many years ago, finding the strength within after all the pain and suffering that occurred. Letting go of all internally and externally, to do what she came here to do. She listened to and believed in her guidance to have a conversation with one-which changed the person she used to be into the person she needed

to be. The words that follow are only the words she feels and knows in her heart. She learned from the one the most powerful lessons in reality: basing happiness on another, attachment, letting go, ego desires, and being in the present moment of now. The love that stood strong for one, showed the love was eternally true INTERTWINING TWO VIEWS OF LOVE TO FIND ONE. It's amazing what your heart tells you when you think you are not listening.

This volume presents three works by Kathy Acker, renowned for works that combine graphic eroticism with detailed politics and what the author calls 'pop content' including expositions of anti-social values and attacks on religion, education, and government.

WE DON'T BLUSH ANYMORE God asks a very pointed question and answers it in Jeremiah 6:15 and 8:12. He asks: "Were they ashamed when they committed abominations? No, they were not ashamed, they did not know how to BLUSH". We can ask that very same question about the people we meet daily who exhibit the characteristics of rudeness, ill-manners, impoliteness and even abominations. We will probably get the same answer. They don't know how to blush, never were taught and never will be sorry for their uncivil words or actions. This book reveals how civility, manners, respect, and Christian attributes within the American culture have been cast aside and replaced by self-centered, immoral, disgraceful, and demeaning living standards within all categories of human society. It further reveals how children were taught manners and biblical attributes when our nation was founded. Their education was centered on the Holy Bible for nearly two hundred years along with Christian principles taught in The New England Primer and The McGuffey's Reader as the primary source of education in the schoolhouse. You will learn how that changed, who changed it, why it happened, and best of all you will be encouraged to learn how it can be

turned around. This is a book for parents, teachers, counselors, overseers, and especially boys and girls so that everyone working together can make all of us a more loving, polite, and mannerly people and make America a better place in which to live. This is the first and probably the only book I will ever write. It's taken four years to complete and at ninety years of age time would most assuredly give out before I could produce another book. The first three and one-half years of writing this book was painstakingly slow. Then the words of Jeremiah 6:15 and 8:12 were discovered and the Holy Spirit supplied words, energy, and discipline to bring this book to completion. It may not become a New York Times best seller, but it is a clarion call to people of all ages in the United States and throughout the world to repent of their abominations and return to civility.

Diarmaid O Muirithe's column Words We Use was a feature of The Irish Times over many years and has formed a critically acclaimed book of the same name. Words We Don't Use (much anymore) is a highly entertaining compendium of words which are either on the brink of extinction or have already been deemed obsolete by the great dictionaries. O' Muirithe's gentle and witty style reveals his vast knowledge and scholarship in an accessible way. Inside you will find words

such as manable, meaning a girl of marriageable age, and adamite, a person who appears nude in public, among many others that you might want to casually drop into your everyday conversation! Words We Don't Use is a wordsmith's delight "I don't love you anymore." These simple words have the power to send the listener into shock, denial, and desperation. The obvious response is to ask oneself, "What can I do to win my partner back?" In I Don't Love You Anymore, Dr. David Clarke provides just the battle plan needed. Contrary to what many relationship "experts" recommend-weak, passive plans that involve begging or romancing a spouse back-Clarke offers an approach that he calls guerilla love, which essentially turns the tables on the wandering spouse. He outlines the biblical view of marriage and instructs readers on: Drawing healthy boundaries. Five things he really means when he says, "I don't love you anymore." The most popular "exit lies" and how to see through them. Classic symptoms of a person who is having an affair. Most important, Clarke empowers and equips readers to make the best, most God-honoring, attempt at saving a marriage. Bob Plumose is a life coach whose own life is out of control. After teaching his clients all day about how to solve their short-term crises, Bob comes home to one he can't fix: a shoplifting daughter, a hip hop thug son, and Jo, a wife who thinks of him as added income and not much else. One day Jo lays it on the line that Bob isn't pulling his weight anymore. She demands that he attend a seminar at The Arena, an EST-clone for losers who crave empowerment. A female instructor invites Bob to a special after-party "for the elite." Feeling a strong sexual vibe, Bob stumbles into an enticement with Charisma Curry, an artist/seductress who quickly takes him to bed. But he doesn't have sex as he knows it. What Charisma does literally takes his breath away – she introduces Bob to "Breath Play," a game of denying oxygen for sexual pleasure. Frightened, guilty, but almost immediately addicted to this game, Bob suddenly has a secret life in a secret world of other players. It's not depravity that obsesses him but the discovery of being suspended between worlds, truth and lies, life and death. Bob's secret turns sinister when members of the elite of The Arena start dying off. Bob tries to blow the whistle, but the police won't listen. Bob has no one to turn to and nowhere to go – a dangerous predicament once he discovers that he's about to be the next casualty.

This is my story of years of unaddressed, devastating emotional abuse, why I believed I could not leave the relationship, the elusive hope I continued to hold on to and the resulting psychological damage. The book describes my personal feelings and thoughts captured in my journals and the words of other women with similar experiences. I discuss warning signs and guidelines to help the abused and the abuser before it's too late. Most importantly, I describe how remarkably I was able to recover and how my life eventually changed. There is hope for the emotionally abused woman.

"The book first describes the significant cultural changes experienced by Inuit since the Canadian government took over their lives in the 1950s. The government moved Inuit from their family camps to crowded settlements run by White government officers, took their children away to residential/boarding and day schools, and began a wage economy that created poverty. The greatest change took place in the Inuit family. This is a family-based collectivist culture, so when the family is dramatically changed everything will go wrong. Generations were segregated where family life meant being very close across generations, parenting changed, children became much more independent. The generation that was placed in the boarding and day schools developed problems with alcohol, domestic violence, and romantic relationships. Their children beginning in the 1980s started killing themselves. Suicide among youth has become an epidemic, with Inuit having among the highest suicide rates in the world. I trace suicide and other social problems to the imperialism/colonialism of the government. But then the book turns to how Inuit are preventing suicide by developing and running their own programs and activities. Government suicide prevention has not worked, but when Inuit are in control it does appear to work quite well. The actions by a group of youth in one community are detailed, showing how they organized

themselves and started a youth center that seems to have stopped many suicides. The aspirations and challenges of Inuit youth are described, and their futures are outlined."--Provided by publisher.

Jake Colsen, an overworked and disillusioned pastor, happens into a stranger who bears an uncanny resemblance (in manner) to the apostle John. A number of encounters with John as well as a family crisis lead Jake to a new understanding of what his life should be like: one filled with faith bolstered by a steady, close relationship with the God of the universe. Facing his own disappointment with Christianity, Jake must forsake the habits that have made his faith rote and rediscover the love that captured his heart when he first believed. Compelling and intensely personal, **SO YOU DON'T WANT TO GO TO CHURCH ANYMORE** relates a man's rebirth from performance-based Christianity to a loving friendship with Christ that affects all he does, thinks, and says. As John tells Jake, "There is nothing the Father desires for you more than that you fall squarely in the lap of his love and never move from that place for the rest of your life."

Does anyone ever stop and think what they're about to do? How their action can affect people's lives? I heard once or twice that your decisions are like a domino effect, one decision can affect many. Why make choices that you know you will regret? Why put people through pain? Can you actually say that you ever thought about how many people you hurt? Explain in so many words why we treat people like they don't mean anything. Many of us are the victims in cases like these. Maybe you are the victimizer, in that case describe why you felt that treating someone so bad would make you feel better? Well, did it? Maybe you should look in the mirror and ask if you are truly happy with being yourself? Or maybe you feel the need to take out all the pain you bottle up on someone who doesn't deserve it. Maybe it's just me but I am done with thinking of all the reasons why people get involved in situations they can't dig themselves out of, well here is my story...

Two school sweethearts meet again and begin to see each other in a different light after years had gone by. The two continue to share a friendship that would help them experience personally the challenges of a financially stressed economy, failing health conditions, deaths of loved ones, and job security. The qualities that they long admired in each other as children would shine through and be their basis for drawing closer. The changing of time pulls on these two young people and they discover what true love can germinate into. Those that are strong enough to pull through, win. It can be done and it has been done, as you will see in this story. The only way two people can stick together is by working together in love.

This is a crazy free verse ramble in three parts. I don't know why I do anything anymore, but I felt compelled to write this. The versions on Lulu and Amazon have color photographs-- nothing big-- and a couple of pictures of my dick. It's more expensive, by far, but not because of the dick, which may not make it past the censors anyway--that's no biggie half the population have em. Mine isn't even that big and I'm kinda fat. But the next two books, this one being the first, are essentially "close enough" to the closeness of my immediate experience with some stylistic flair that I've come in recording my life-- which, after the next book-- a full length confessional style book called The Wisdom of Losing-- though the cathartic writing of flophouse takes place after it in time, this poetry is a good prelude to the verbal (mayhem/vomit) I was going for. So have some soup and prepare to like one line, then not the next, offended by this, but this says something else. It's a trip, our own minds, especially mine because I'm

crazy, literally, so I don't know why I write but I'm going to do it until I die or I just have no more ideas. But I think I am done writing the details of my life and being almost exhibitionistic, but there was some method to it. I sought an almost total exposure of my inner life, which I almost wasn't able to access for a long time. All of my books have been experiments, and I have been the specimen, though I worked in a little fiction too.

"We're just friends. Well... we used to be." For as long as I can remember, Archer Reyes has been by my side. My closest confidant. My truest ally. My best friend. That is, until the summer we turned eighteen, when I started picturing him as something else entirely. The love of my life. I knew confessing my feelings wasn't going to be easy; I had no idea he'd reject me so cruelly... or that he was only breaking my heart to save my life... _____
