This is another narrative about dinosaurs from the Cretaceous period. The context builds upon the fact that triceratops were plant eaters. In this story, they are forced to migrate when drought reduces their food supply.

An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. *Parentology* teaches you everything you need to know about the latest literature on

parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

In the days of the dinosaurs lived a mother crocodile that had laid 40 eggs in a nest. She always tried to protect the eggs from danger so they would hatch.

With a storyteller's narrative, Christina Moore presents this fascinating look at the world's largest reptiles, including information about their physical characteristics, the differences between these scary creatures, and how they live as an endangered species.

This traditional tale is about some crocodiles who become angry when a little mouse-deer plays a trick on them. A sequel to this

story is *The Mouse-deer Escapes*.

Book 4 in a fresh, funny chapter book series, told in a series of emails, about a boy named Eddie and two naughty pet dragons!

Eddie is dragonsitting again, this time on Uncle Morton's island!

As if the dragons weren't enough, there are some strange things

afoot: the local sheep are disappearing, and Eddie swears he sees a

mysterious creature in the lake (could it be the Loch Ness

Monster??). It seems Eddie is in for a beastly surprise! This quirky,

original series is a delight for young readers ready for a high-flying adventure.

Key Stage 2 Comprehension provides a unique collection of stimulating texts that appeal strongly to both boys and girls, together with questions that both build and stretch comprehension skills and widen vocabulary.

once a little boy who was afraid of the dark. There's nothing

unusual about that. Most children are afraid of the dark at one

time of another. But this little boy was a Prince, and he decided

that when he became King, he would do something about the

dark. He would ban it. When the King bans the dark completely,

installing an artificial sun, and enforcing "anti-dark" laws, it seems

like a good idea. The citizens don't need to worry about any of the

scary things that might live in the dark. But what happens when

nobody can sleep, and the citizens revolt? Will the King face his

fears and turn the lights off? *The King Who Banned the Dark* is a

beautiful and thought-provoking story about how we need the

dark in order to enjoy the light.

"Exciting and engaging vocabulary instruction can set students on the path to a lifelong fascination with words. This book provides a research-based framework and practical strategies for vocabulary development with children from the earliest grades through high school. The authors emphasize instruction that offers rich information about words and their uses and enhances students' language comprehension and production. Teachers are guided in selecting words for instruction; developing student-friendly explanations of new words; creating meaningful learning activities; and getting students involved in thinking about, using, and noticing new words both within and outside the classroom. Many concrete examples, sample classroom dialogues, and exercises for teachers bring the material to life. Helpful appendices include suggestions for trade books that help children enlarge their vocabulary and/or have fun with different aspects of words"--

Fully updated to help teachers deal with the new 2016 Grammar Tests, this second edition presents a collection of simple to use, multi-sensory games and activities that will jumpstart pupils' understanding of grammar in action. It includes coverage of the subjunctive and past progressive, selecting which tense is the most definite, identifying when a word is used as a subordinating conjunction/preposition, explaining how a comma can change meaning, and an increased emphasis on the passive. *Jumpstart! Grammar* will prepare children for any grammar tests on the horizon in an engaging way so that they love playing with words and spinning sentences to make ideas dance. And, of course, they will be able to name the parts if that is what is required. Fun games will focus first on helping children hear the difference various types of grammar can make followed by activities to help them understand what different effects you can create with grammar. Technical terms will only be introduced once the children have established what the various features can do, with a particular focus on those terms that really help children discuss what makes language coherent and effective. This indispensable, practical book celebrates the joys of language and coherent expression; of finding just the right words or phrases to express what you want to say.
