~~Documentary photography - UK Essays | UK Essays~~

Despite Alfred Stieglitz's early interest in candid or snapshot-style street photography seen in The Terminal of 1893 and The Steerage of 1907, he attempted to turn the page on the natural development of the documentary tradition in photography with his successful 1910 retrospective of Pictorialism at the Albright Art Gallery in Buffalo, New York. If the age of electricity, the automobile ...

If we were to define documentary photography, this statement might just be the right description, because in its essence, it is a form of image-making aiming to chronicle the events and the environments in order to tell a story and send a message. Through their powerful narration and visual impact, documentary photographs draw our attention to real-life socio-political situations of a certain moment, from which photographers extract an important moment and capture it with their camera.

The Life Library's Documentary Photography (1972) defined it as 'a depiction of the real world by a photographer whose intent is to communicate something of importance—to make a comment—that will be understood by the viewer'. Get Help With Your Essay
