"The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

It saw the decimation of the ruling Congress party, a spectacular victory for the BJP and a new style of campaigning that broke every rule in the political game. But how and why? In his riveting book, Rajdeep Sardesai tracks the story of this pivotal election through all the key players and the big news stories. Beginning with 2012, when Narendra Modi won the state elections in Gujarat for a third time but set his sights on a bigger prize, to the scandals that crippled Manmohan Singh and UPA-II, and moving to the back-room strategies of Team Modi, the extraordinary missteps of Rahul Gandhi and the political dramas of election year, he draws a panoramic picture of the year that changed India.

Hillary Rodham Clinton ' s inside account of the crises, choices, and challenges she faced during her four years as America ' s 67th Secretary of State, and how those experiences drive her view of the future. " All of us face hard choices in our lives, " Hillary Rodham Clinton writes at the start of this personal chronicle of years at the center of world events. " Life is about making such choices. Our choices and how we handle them shape the people we become. " In the aftermath of her 2008 presidential run, she expected to return to representing New York in the United States Senate. To her surprise, her former rival for the Democratic Party nomination, newly elected President Barack Obama, asked her to serve in his administration as Secretary of State. This memoir is the story of the four extraordinary and historic years that followed, and the hard choices that she and her colleagues confronted. Secretary Clinton and President Obama had to decide how to repair fractured alliances, wind down two wars, and address a global financial crisis. They faced a rising competitor in China, growing threats from Iran and North Korea, and revolutions across the Middle East. Along the way, they grappled with some of the toughest dilemmas of US foreign policy, especially the decision to send Americans into harm ' s way, from Afghanistan to Libya to the hunt for Osama bin Laden. By the end of her tenure, Secretary Clinton had visited 112 countries, traveled nearly one million miles, and gained a truly global perspective on many of the major trends reshaping the landscape of the twenty-first century, from economic inequality to climate change to revolutions in energy, communications, and health. Drawing on conversations with numerous leaders and experts, Secretary Clinton offers her views on what it will take for the United States to compete and thrive in an interdependent world. She makes a passionate case for human rights and the full participation in society of women, youth, and LGBT people. An astute eyewitness to decades of social change, she distinguishes the trendlines from the headlines and describes the progress occurring throughout the world, day after day. Secretary Clinton ' s descriptions of diplomatic conversations at the highest levels offer readers a master class in international relations, as does her analysis of how we can best use " smart power " to deliver security and prosperity in a rapidly changing world—one in which America remains the indispensable nation.

From being a fringe political party in 2013 to sweeping nearly half of the state's forty-two Lok Sabha seats in 2019, the BJP has gained ground in West Bengal, aided partly by the RSS's exponential growth during Mamata Banerjee's chief ministerial tenure (2011 onwards). With a consistent and concerted criticism of the TMC, the saffron camp managed to create a strong wave of anti-incumbency. So much so that the BJP's prospects of forming the next government in Bengal in 2021 seemed to have brightened considerably, while the Left, which had ruled Bengal for over three decades, appears to have been reduced to a fringe political entity. However, the controversy over the Citizenship Amendment Act and the National Register of Citizens, combined with Banerjee's course-correction drive, designed by strategist Prashant Kishor, indicate that she might yet script a turnaround, with Bengal turning into the laboratory of a unique political experiment. Mission Bengal documents the BJP's extraordinary rise in the state and attempts to look at these developments in the historical context of Bengal -- from the rise of Hindu nationalism and Muslim separatism in the nineteenth century, the Partition and its fallout, the impact of developments in Bangladesh, the influence of leftist ideals on the psyche of the Bengali people, to the demographic changes in the state over the past few decades.

Why India Votes? offers a fascinating account of the Indian electorate through a series of comprehensive ethnographic explorations conducted across the country — Delhi, Uttar Pradesh, Bihar, West Bengal, Chhattisgarh, Madhya Pradesh, Tamil Nadu, Kerala, Maharashtra, Gujarat, and Rajasthan. It probes the motivations of ordinary voters, what they think about politicians, the electoral process, democracy and their own role within it. This book will be useful to scholars and students of political science, anthropology and sociology, those in media and politics, and those interested in elections and democracy as also the informed general reader. On 26 December 2012, Narendra Modi was sworn in as the Chief Minister of Gujarat for the fourth time to extend his record tenure in office. "Mass Murderer" or "Development Man"? It

depends on which side of the spectrum he is viewed from, because Narendra Modi is one of those politicians whose name prompts extremes of hate-filled anger or outright adulation. Despite polarizing Gujarat and India in more ways than one, Modi brilliantly does what it takes to survive in a democracy: win elections. Written by veteran journalist and writer, Nilanjan after several in-depth interviews, meticulous research and extensive travel through Gujarat, this book reveals hitherto unknown aspects of Narendra Modi's psyche: as a six year- old boy selling tea to help out his father and distributing badges and raising slogans at the behest of a local political leader; abandoning his family and wife in search of his definition of truth; initiation into the RSS as a fledgling who ran errands for his seniors; his idea of Gujarati pride and Indian-ness; and finally, his meteoric rise which gave him a distinct identity post the 2002 Godhra riots. Narendra Modi: The Man, The Times is a definitive biography of a man who may have challenged the basic principles of a sovereign secular nation but emerged at its destination as an undisputed and larger-than-life leader.

Since its Independence in 1971, Bangladesh has made remarkable progress in terms of reducing poverty levels, achieving high levels of economic growth over a sustained period of time, and meeting its Millennium Development Goals (MDG) targets set by the United Nations. With some justification, Bangladesh is considered an international development success story, and the country appears to be well on track to meet its policy target of becoming a middle-income country by 2021, the same year the country will celebrate 50 years of Independence. This book explores the central issue of Bangladeshi politics: the weakness of governance. The coexistence of a poor governance track record and a relatively strong socioeconomic performance makes Bangladesh an intriguing case which throws up exciting and relevant conceptual and policy challenges. Structured in four sections - Political Settlement, Elites and Deep Structures; Democracy, Citizenship and Values; Civil Society, Local Context and Political Change; Informality and Accountability – the book identifies and engages with these challenges. Chapters by experts in the field share a number of conceptual and epistemological principles and offer a combination of theoretical and empirical insights, and cover a good range of contemporary issues and debate. Employing a structurally determinist perspective, this book explains politics and society in Bangladesh from a novel perspective. Academics in the field of governance and politics in developing countries, with a focus on South Asia and Bangladesh will welcome its publication. Conducting elections in India is a mammoth task, compounded by the sheer scale, size, and diversities in this country. Millions of people are involved in ensuring that this exercise is conducted smoothly. This anthology presents stories of gift, sacrifice, hope, creativity, enthusiasm, and the diversity of experiences that showcase the picture of the story of elections in India.

The first thorough study of the co-existence of crime and democratic processes in Indian politics In India, the world's largest democracy, the symbiotic relationship between crime and politics raises complex questions. For instance, how can free and fair democratic processes exist alongside rampant criminality? Why do political parties recruit candidates with reputations for wrongdoing? Why are one-third of state and national legislators elected--and often re-elected--in spite of criminal charges pending against them? In this eye-opening study, political scientist Milan Vaishnav mines a rich array of sources, including fieldwork on political campaigns and interviews with candidates, party workers, and voters, large surveys, and an original database on politicians' backgrounds to offer the first comprehensive study of an issue that has implications for the study of democracy both within and beyond India's borders.

A heated debate is raging over our nation's public schools and how they should be reformed, with proposals ranging from imposing national standards to replacing public education altogether with a voucher system for private schools. Combining decades of

experience in education, the authors propose an innovative approach to solving the problems of our school system and find a middle ground between these extremes. Reinventing Public Education shows how contracting would radically change the way we operate our schools, while keeping them public and accessible to all, and making them better able to meet standards of achievement and equity. Using public funds, local school boards would select private providers to operate individual schools under formal contracts specifying the type and quality of instruction. In a hands-on, concrete fashion, the authors provide a thorough explanation of the pros and cons of school contracting and how it would work in practice. They show how contracting would free local school boards from operating schools so they can focus on improving educational policy; how it would allow parents to choose the best school for their children; and, finally, how it would ensure that schools are held accountable and academic standards are met. While retaining a strong public role in education, contracting enables schools to be more imaginative, adaptable, and suited to the needs of children and families. In presenting an alternative vision for America's schools, Reinventing Public Education is too important to be ignored. The World Factbook provides information on the history, people, government, economy, geography, communications, transportation, military, and transnational issues for 267 world entities. This annual edition also covers information about country profiles and country comparisons. It would make an excellent and useful resource for world geography research papers and international relations classes that may study the people, history, and communication patterns of other countries.

This Brief reviews the past, present, and future use of school corporal punishment in the United States, a practice that remains legal in 19 states as it is constitutionally permitted according to the U.S. Supreme Court. As a result of school corporal punishment, nearly 200,000 children are paddled in schools each year. Most Americans are unaware of this fact or the physical injuries sustained by countless school children who are hit with objects by school personnel in the name of discipline. Therefore, Corporal Punishment in U.S. Public Schools begins by summarizing the legal basis for school corporal punishment and trends in Americans' attitudes about it. It then presents trends in the use of school corporal punishment in the United States over time to establish its past and current prevalence. It then discusses what is known about the effects of school corporal punishment on children, though with so little research on this topic, much of the relevant literature is focused on parents' use of corporal punishment with their children. It also provides results from a policy analysis that examines the effect of state-level school corporal punishment bans on trends in juvenile crime. It concludes by discussing potential legal, policy, and advocacy avenues for abolition of school corporal punishment at the state and federal levels as well as summarizing how school corporal punishment is being used and what its potential implications are for thousands of individual students and for the society at large. As school corporal punishment becomes more and more regulated at the state level, Corporal Punishment in U.S. Public Schools serves an essential guide for policymakers and advocates across the country as well as for researchers, scientist-practitioners, and graduate students.

The politics of West Bengal was long known for the uninterrupted rule of the Left Front from 1977 to 2011. For a long period, the politics of the state was marked by overt absence of caste-, religion- and ethnicity-based contestations and this made West Bengal an exceptional case. Adopting a historical and comparative approach, the book traces the changing nature of politics of West Bengal since the late 1990s. It documents how economic and social degeneration in the state led to increasing caste and identity assertions and left-wing extremist politics. It chronicles the history of the social movements at Singur and Nandigram that ultimately challenged the Left hegemony and initiated the much talked-about poriborton (change) in West Bengal politics. With the help of the unique data sets of National Election Studies, the book closely analyses the shifting nature of state-level political dynamics under the rule of the All India Trinamool Congress (AITC) in the context of broader socio-economic changes. The book presents emerging party competition in the state marked by the eclipse of both the Left and the Congress and the arrival of the BJP.

Despite recent advances in important aspects of the lives of girls and women, pervasive challenges remain. These challenges reflect widespread deprivations and constraints and include epidemic levels of gender-based violence and discriminatory laws and norms that prevent women from owning property, being educated, and making meaningful decisions about their own lives--such as whether and when to marry or have children. These often violate their most basic rights and are magnified and multiplied by poverty and lack of education. This groundbreaking book distills vast data and hundreds of studies to shed new light on deprivations and constraints facing the voice and agency of women and girls worldwide, and on the associated costs for individuals, families, communities, and global development. The volume presents major new findings about the patterns of constraints and overlapping deprivations and focuses on several areas key to women's empowerment: freedom from violence, sexual and reproductive health and rights, ownership of land and housing, and voice and collective action. It highlights promising reforms and interventions from around the world and lays out an urgent agenda for governments, civil society, development agencies, and other stakeholders, including a call for greater investment in data and knowledge to benchmark progress.

Hindutva Regime in Assam: Saffron in the Rainbow analyses the Bharatiya Janata Party's (BJP) strategy of appropriating cultural resources in Assam while pursuing the Hindutva agenda. In Assam, where numerous ethnic and regional political outfits have registered their electoral presence, the 'Rainbow Alliance' emerged as the dominant strategic tool for BJP in its electoral battles. The book studies how BJP has capitalized on people's attachment to their ethno-regional cultures and has successfully co-opted and 'saffronized' the 'Rainbow' by bringing together diverse ethnic groups into its fold. Scrutinizing electoral strategies, BJP's victories in 2014, 2016 and 2019, and the efforts towards dismantling consensus around the National Register of Citizens (NRC) by enacting the Citizenship Amendment Act (CAA), the book provides a holistic view of this steady 'saffronization'. It also critically investigates BJP's populist development agenda. From the Rashtriya Swayamsevak Sangh's (RSS) grassroots work to the government's policy initiatives, the book analyses the regime's performance and ideological pursuits in depth. It highlights how BJP's strategies in Assam are unique in some ways and how similar strategies can be seen elsewhere in India.

About the Book Every success story has its price to pay. So did Shatrughan Sinha (SS) who achieved the impossible twice over. The youngest and the most pampered in a family of academics and doctors where four sons were named after the four brothers of the Ramayan, SS stood out defiantly different. He was born for applause and the limelight; he was besotted with Raj Kapoor and cinema. In the face of stiff opposition from disciplinarian father Bhuvaneshwar Prasad Sinha, mother Shyama Devi's chhutki bauwa (little darling) set out for the Film Institute of India (now FTII) in Poona. Bombay was the next logical destination. Without Kapoorian good looks or any connection with the Hindi film industry, the unknown scarface from Patna went on to create history on celluloid. In politics too, with no known surname or family to power his entry, he set a record as the first film star from India to be sworn-in as a Cabinet Minister. Quotes Anything But Khamosh: The Shatrughan Sinha Biography, is a rivetingly honest read that retraces the hurrahs and heartaches of India's most popular Bihari Babu. "Do not attempt to change him.
