## Review

Jay Shetty, social media superstar and host of the #1 podcast *On Purpose*, distills the timeless wisdom he learned as a monk into practical steps anyone can take every day to live a less anxious, more meaningful life. When you think like a monk, you 'll understand: -How to overcome negativity -How to stop overthinking -Why comparison kills love -How to use your fear -Why you can 't find happiness by looking for it -How to learn from everyone you meet -Why you are not your thoughts -How to find your purpose -Why kindness is crucial to success -And much more... Shetty grew up in a family where you could become one of three things—a doctor, a lawyer, or a failure. His family was convinced he had chosen option three: instead of attending his college graduation ceremony, he headed to India to become a monk, to meditate every day for four to eight hours, and devote his life to helping others. After three years, one of his teachers told him that he would have more impact on the world if he left the monk 's path to share his experience and wisdom with others. Heavily in debt, and with no recognizable skills on his resume, he moved back home in north London with his parents. Shetty reconnected with old school friends—many working for some of the world 's largest corporations—who were experiencing tremendous stress, pressure, and unhappiness, and they invited Shetty to coach them on well-being, purpose, and mindfulness. Since then, Shetty has become one of the world 's most popular influencers. In 2017, he was named in the *Forbes* magazine 30-under-30 for being a game-changer in the world of media. In 2018, he had the #1 video on Facebook with over 360 million views. His social media following totals over 38 million, he has produced over 400 viral videos which have amassed more than 8 billion views, and his podcast, *On Purpose*, is consistently ranked the world 's #1 Health and Wellness podcast. In this inspiring, empowering book, Shetty draws on his time as a monk to show us how we can clear the roadblocks to our potential and power. Combining ancient wisdom and his own rich experiences in the ashram, *Think Like a Monk* reveals how to overcome negative thoughts and habits, and access the calm and purpose that lie within all of us. He transforms abstract lessons into advice and exercises we can all apply to reduce stress, improve relationships, and give the gifts we find in ourselves to the world. Shetty

proves that everyone can—and should—think like a monk.

The special anniversary edition of *The Little Engine That Could™* contains the entire text and original artwork. Young readers, as well as parents and grandparents, will treasure the story of the blue locomotive who exemplifies the power of positive thinking.

“ If Tina Fey and David Sedaris had a daughter, she would be Maeve Higgins. ” —*Glamour* A startlingly hilarious essay collection about one woman ' s messy path to finding her footing in New York City, from breakout comedy star and podcaster Maeve Higgins Maeve Higgins was a bestselling author and comedian in her native Ireland when, at the grand old age of thirty-one, she left the only home she ' d ever known in search of something more and found herself in New York City. Together, the essays in *Maeve in America* create a smart, funny, and revealing portrait of a woman who aims for the stars but sometimes hits the ceiling and the inimitable city that helped make her who she is. Here are stories of not being able to afford a dress for the ball, of learning to live with yourself while you ' re still figuring out how to love yourself, of the true significance of realizing what sort of shelter dog you would be. Self-aware and laugh-out-loud funny, this collection is also a fearless exploration of the awkward questions in life, such as: Is clapping too loudly at a gig a good enough reason to break up with somebody? Is it ever really possible to leave home? “ Maeve Higgins is hilarious, poignant, conversational, and my favorite Irish import since U2. You ' re in for a treat. ” —Phoebe Robinson

Shoot straight from the hip. Tell it like it is. Keep it real. We love these commands, especially in America, because they invoke what we love to believe: that there is an authentic self to which we can be true. But while we mock Tricky Dick and Slick Willie, we are inventing identities on Facebook, paying thousands for plastic surgeries, tuning into news that simply verifies our opinions. This is frontier forthrightness gone dreamy: reality bites, after all, and faith-based initiatives trump reality-based ones, and becoming disillusioned is a downer. In his new book, part memoir, part cultural analysis, *Keep It Fake: Inventing an Authentic Life*, Eric G. Wilson clarifies this confusion. He draws on neuroscience, psychology, sociology, philosophy, art, film, literature, and his own life to explore the possibility that there's no such thing as unwavering reality. Whether our left brains are shaping the raw data of our right into fabulous stories, or we are so saturated by society's conventions that we're always acting out prefab scripts, we can't help but be phony. But are some fakes more real than others? Are certain lies true? In lively prose—honest, provocative, erudite, witty, wide-ranging (as likely to riff on Bill Murray as to contemplate Plato)—*Keep It Fake* answers these questions, uncovering bracing truths about what it means to be human and helping us turn our necessary lying into artful living.

After a decade apart, childhood sweethearts reconnect by chance in New York Times bestselling author Christina Lauren's touching, romantic novel *Love and Other Words*. . . how many words will it take for them to figure out where it all went wrong? The story of the heart can never be unwritten. Americans are addicted to happiness. When we're not popping pills, we

leaf through scientific studies that take for granted our quest for happiness, or read self-help books by everyone from armchair philosophers and clinical psychologists to the Dalai Lama on how to achieve a trouble-free life: *Stumbling on Happiness*; *Authentic Happiness: Using the New Positive Psychology to Realize Your Potential for Lasting Fulfillment*; *The Art of Happiness: A Handbook for Living*. The titles themselves draw a stark portrait of the war on melancholy. More than any other generation, Americans of today believe in the transformative power of positive thinking. But who says we're supposed to be happy? Where does it say that in the Bible, or in the Constitution? In *Against Happiness*, the scholar Eric G. Wilson argues that melancholia is necessary to any thriving culture, that it is the muse of great literature, painting, music, and innovation—and that it is the force underlying original insights. Francisco Goya, Emily Dickinson, Marcel Proust, and Abraham Lincoln were all confirmed melancholics. So enough Prozac-ing of our brains. Let's embrace our depressive sides as the wellspring of creativity. What most people take for contentment, Wilson argues, is living death, and what the majority takes for depression is a vital force. In *Against Happiness: In Praise of Melancholy*, Wilson suggests it would be better to relish the blues that make humans people.

Why do grown men play with trains? Is it a primal attachment to childhood, nostalgia for the lost age of rail travel, or the stuff of flat-out obsession? In this delightful and unprecedented book, Grand Prix legend Sam Posey tracks those who share his “passion beyond scale” and discovers a wonderfully strange and vital culture. Posey’s first layout, wired by his mother in the years just after the Second World War, was, as he writes in his Introduction, “a miniature universe which I could operate on my own. Speed and control: I was fascinated by both, as well as by the way they were inextricably bound together.” Eventually, when Posey’s son was born, he was convinced that building him a basement layout would be the highest expression of fatherhood. Sixteen years and thousands of hours later, this project, “the outgrowth of chance meetings, unexpected friendships, mistakes, illness, latent ambitions, and sheer luck” was completed. But for Posey, the creation of his HO-scale masterpiece based on the historic Colorado Midland, was just the beginning. In *Playing with Trains*, Sam Posey ventures well beyond the borders of his layout in northwestern Connecticut, to find out what makes the top modelers tick. He expects to find men “engaged in a genial hobby, happy to spend a few hours a week escaping the pressures of contemporary life.” Instead he uncovers a world of extremes – extreme commitment, extreme passion, and extreme differences of approach. For instance, Malcolm Furlow, holed up on his ranch in the wilderness of New Mexico, insists that model railroading is defined by scenery and artistic self-expression. On the other hand, Tony Koester, a New Jersey modeler, believes his “mission” is to replicate, with fanatical precision and authenticity, the way a real railroad operates. Going to extremes himself, Posey actually “test drives” a real steam engine in Strasburg, Pennsylvania, in an attempt to understand the great machines that inspired the models and connect us to a time when “the railroad was inventing America.” Timeless and original, *Playing with Trains* reveals a classic, questing American world.

All aboard for a fun and fascinating exploration of the many kinds of trains and what they do. There are also clear definitions and “cool things about trains” that new readers will enjoy discovering.

Playing with Trains

Deeply funny, moving, and urgent writing about a country that can feel broken into pieces and the light that shines through the cracks, from Irish comedian Maeve Higgins, author of *Maeve in America*. As an eternally curious outsider, Maeve Higgins can see that the United States is still an experiment. Some parts work well and others really don't, but that doesn't stop her from loving the place and the people that make it. With piercing political commentary in a sweet and salty tone, these essays unearth answers to the questions we all have about this country we call home; the beauty of it all and the dark parts too. Maeve attends the 2020 Border Security Expo to better understand the future of our borders, and finds herself at The Alamo surrounded by queso and homemade rifles. A chance encounter with a statue of a teenage horseback rider causes her to interrogate the purpose of monuments, this sends her hurtling through the past, connecting Ireland's revolutionary history with the struggles of Black Americans today. And after mistaking edibles for innocent candies, Maeve gets way too high at Paper Source. Most of all, Maeve wants to leave this country and this planet better than she found it. That may well be impossible, but it certainly means showing love. Lots of it, even when it's difficult to do so. Threaded through these pieces is love for strangers, love for friends who show up right on time, love for trees, love for Tom Hardy, love for those with differing opinions, love for the glamorous older women of Brighton Beach with tattooed eyeliner and gold jewelry, love for everybody on this train.

In his harrowing yet ultimately hopeful memoir, *The Mercy of Eternity*, the author turns an unsparing eye on his own continuing struggle with bipolar depression and finds, within the very illness that causes so much suffering, the resources for hope, forgiveness, and love. --from publisher description.

From the New York Times bestselling author of *Red, White & Royal Blue* comes a new romantic comedy that will stop readers in their tracks... For cynical twenty-three-year-old August, moving to New York City is supposed to prove her right: that things like magic and cinematic love stories don't exist, and the only smart way to go through life is alone. She can't imagine how waiting tables at a 24-hour pancake diner and moving in with too many weird roommates could possibly change that. And there's certainly no chance of her subway commute being anything more than a daily trudge through boredom and electrical failures. But then, there's this gorgeous girl on the train. Jane. Dazzling, charming, mysterious, impossible Jane. Jane with her rough edges and swoopy hair and soft smile, showing up in a leather jacket to save August's day when she needed it most. August's subway crush becomes the best part of her day, but pretty soon, she discovers there's one big problem: Jane doesn't just look like an old school punk rocker. She's literally displaced in time from the 1970s, and August is going to have to use everything she tried to leave in her own past to help her.

Maybe it's time to start believing in some things, after all. Casey McQuiston's *One Last Stop* is a magical, sexy, big-hearted romance where the impossible becomes possible as August does everything in her power to save the girl lost in time. "A dazzling romance, filled with plenty of humor and heart." - Time Magazine, "The 21 Most Anticipated Books of 2021" "Dreamy, otherworldly, smart, swoony, thoughtful, hilarious - all in all, exactly what you'd expect from Casey McQuiston!" - Jasmine Guillory, New York Times bestselling author of *The Proposal* and *Party for Two*

"Kick bad mental habits and toughen yourself up."—Inc. Master your mental strength—revolutionary new strategies that work for everyone from homemakers to soldiers and teachers to CEOs. Everyone knows that regular exercise and weight training lead to physical strength. But how do we strengthen ourselves mentally for the truly tough times? And what should we do when we face these challenges? Or as psychotherapist Amy Morin asks, what should we avoid when we encounter adversity? Through her years counseling others and her own experiences navigating personal loss, Morin realized it is often the habits we cannot break that are holding us back from true success and happiness. Indulging in self-pity, agonizing over things beyond our control, obsessing over past events, resenting the achievements of others, or expecting immediate positive results holds us back. This list of things mentally strong people don't do resonated so much with readers that when it was picked up by Forbes.com it received ten million views. Now, for the first time, Morin expands upon the thirteen things from her viral post and shares her tried-and-true practices for increasing mental strength. Morin writes with searing honesty, incorporating anecdotes from her work as a college psychology instructor and psychotherapist as well

as personal stories about how she bolstered her own mental strength when tragedy threatened to consume her. Increasing your mental strength can change your entire attitude. It takes practice and hard work, but with Morin's specific tips, exercises, and troubleshooting advice, it is possible to not only fortify your mental muscle but also drastically improve the quality of your life.

At the end of the eighteenth century, scientists for the first time demonstrated what medieval and renaissance alchemists had long suspected; ice is not lifeless but vital, a crystalline revelation of vigorous powers. Studied in esoteric and exoteric representations of frozen phenomena, several Romantic figures - including Coleridge and Poe, Percy and Mary Shelley, Emerson and Thoreau - challenged traditional notions of ice as waste and instead celebrated crystals, glaciers, and the poles as special disclosures of a holistic principle of being. *The Spiritual History of Ice* explores this ecology of frozen shapes in fascinating detail, revealing not only a neglected current of the Romantic age but also a secret history and psychology of ice. Why can't we look away? Whether we admit it or not, we're fascinated by evil. Dark fantasies, morbid curiosities, Schadenfreude: As conventional wisdom has it, these are the symptoms of our wicked side, and we succumb to them at our own peril. But we're still compelled to look whenever we pass a grisly accident on the highway, and there's no slaking our thirst for gory entertainments like horror movies and police procedurals. What makes these spectacles so irresistible? In *Everyone Loves a Good Train Wreck*, the scholar Eric G. Wilson sets out to discover the source of our attraction to the caustic, drawing on the findings of biologists, sociologists, psychologists, anthropologists, philosophers, theologians, and artists. A professor of English literature and a lifelong student of the macabre, Wilson believes there's something nourishing in darkness. "To repress death is to lose the feeling of life," he writes. "A closeness to death discloses our most fertile energies." His examples are legion, and startling in their diversity. Citing everything from elephant graveyards and Susan Sontag's *On Photography* to the Tiger Woods sex scandal and *Steel Magnolias*, Wilson finds heartening truths wherever he confronts death. In *Everyone Loves a Good Train Wreck*, the perverse is never far from the sublime. The result is a powerful and delightfully provocative defense of what it means to be human—for better and for worse.

A Lopsided Look at Life, Marriage and Family

A New York Times Notable Book for 2011 One of The Economist's 2011 Books of the Year One of NPR's 10 Best Novels of 2011 Denis Johnson's *Train Dreams* is an epic in miniature, one of his most evocative and poignant fictions. Robert Grainer is a day laborer in the American West at the start of the twentieth century—an ordinary man in extraordinary times. Buffeted by the loss of his family, Grainer struggles to make sense of this strange new world. As his story unfolds, we witness both his shocking personal defeats and the radical changes that transform America in his lifetime. Suffused with the history and landscapes of the American West—its otherworldly flora and fauna, its rugged loggers and bridge builders—the new novella by the National Book Award-winning author of *Tree of Smoke* captures the disappearance of a distinctly American way of life.
