

Getting the books 2015 now is not type of inspiring means. You could not solitary going similar to ebook collection or library or borrowing from your connections to right of entry them. This is an agreed easy means to specifically get lead by on-line. This online statement 2015 can be one of the options to accompany you behind having other time.

It will not waste your time. acknowledge me, the e-book will categorically space you extra concern to read. Just invest tiny era to gain access to this on-line pronouncement 2015 as skillfully as evaluation them wherever you are now.

In their history of Cornell since 1940, Glenn C. Altschuler and Isaac Kramnick examine the institution in the context of the emergence of the modern research university. The book examines Cornell during the Cold War, the civil rights movement, Vietnam, antiapartheid protests, the ups and downs of varsity athletics, the women's movement, the opening of relations with China, and the creation of Cornell NYC Tech. It relates profound, fascinating, and little-known incidents involving the faculty, administration, and student life, connecting them to the "Cornell idea" of freedom and responsibility. The authors had access to all existing papers of the presidents of Cornell, which deeply informs their respectful but unvarnished portrait of the university. Institutions, like individuals, develop narratives about themselves. Cornell constructed its sense of self, of how it was special and different, on the eve of World War II, when America defended democracy from fascist dictatorship. Cornell's fifth president, Edmund Ezra Day, and Carl Becker, its preeminent historian, discerned what they called a Cornell "soul," a Cornell "character," a Cornell "personality," a Cornell "tradition"—and they called it "freedom." "The Cornell idea" was tested and contested in Cornell's second seventy-five years. Cornellians used the ideals of freedom and responsibility as weapons for change—and justifications for retaining the status quo; to protect academic freedom—and to rein in radical professors; to end in loco parentis and parietal rules, to preempt panty raids, pornography, and pot parties, and to reintroduce regulations to protect and promote the physical and emotional well-being of students; to add nanofabrication, entrepreneurship, and genomics to the curriculum—and to require language courses, freshmen writing, and physical education. In the name of freedom (and responsibility), black students occupied Willard Straight Hall, the anti-Vietnam War SDS took over the Engineering Library, proponents of divestment from South Africa built campus shantytowns, and Latinos seized Day Hall. In the name of responsibility (and freedom), the university reclaimed them. The history of Cornell since World War II, Altschuler and Kramnick believe, is in large part a set of variations on the narrative of freedom and its partner, responsibility, the obligation to others and to one's self to do what is right and useful, with a principled commitment to the Cornell community—and to the world outside the Eddy Street gate.

Mazierska presents a cultural history of popular Viennese electronic music from 1990 to 2015, from the perspectives of production, scene and national and international reception. To illustrate this history in depth, a number of case studies of the most successful and distinguished musicians are explored, such as Kruder and Dorfmeister, Patrick Pulsinger, Tosca, Electric Indigo and Sofa Surfers. The author draws on research about electronic music, the relationship between music and the urban environment, the history of Austria and Vienna, music scenes and fandom, the digital shift, stardom in popular music (especially electronic music), as well as theories of postmodernism.

FY 2015 net income is now projected at SDR 1.5 billion. Lending continues to be the main source of income, although advance repurchases have

lowered projected lending income in FY 2015 by SDR 0.3 billion. Investment income remains constrained in the low interest environment but the returns were somewhat stronger than projected. A revaluation of pension obligations, required under accounting standard IAS 19 and stemming from a further fall in the discount rate, is projected to entail an adjustment to FY 2015 net income of about SDR 0.8 billion. The paper proposes that GRA net income of SDR 1.3 billion, which excludes the retained earnings of the gold endowment, be placed to the special reserve.* After the placement to reserves, precautionary balances are projected at SDR 14.0 billion at the end of FY 2015. The paper further proposes to retain currencies available for transfer to the Investment Account in the GRA, pending completion later this year of the Board's review of the mandate for the Fixed-Income Subaccount

18th International Conference, Genoa, Italy, September 7-11, 2015, Proceedings

The Millennium Development Goals (MDGs) were launched at the UN General Assembly in 2001, and have had great influence on the field of international development. The Goals cover areas such as extreme poverty (i.e. living on less than US\$1.25 per day), primary education, child and maternal mortality, and HIV/AIDS; each Goal is supported by underlying targets, most of which have a target date of 2015. In July 2012, the UN Secretary-General established a High-level Panel, tasked with making recommendations as to what should replace the MDGs after 2015. Under the MDGs, some of the targets are phrased in universal terms, but others are relative - on extreme poverty, for example, the target is not to eliminate it but to reduce it by half. The Prime Minister has argued that the post-2015 framework should aim for the elimination of extreme poverty, and the Committee agrees. Another key debate is whether the post-2015 framework should incorporate issues of environmental sustainability, again supported by the Committee. The MDGs undoubtedly had great resonance around the world. The simplicity and measurability of the MDGs, and the level of responsibility countries have taken for meeting them, have been crucial factors in their success. For those involved in developing the post-2015 framework, the most critical task is to ensure that these strengths are retained.

If you purchase The Unofficial Guide to Walt Disney World in ebook format, receive free monthly updates via your device so you'll be in the know about important changes, making your vacation planning better than ever! March-April 2015 Updates Available! Your Kindle update includes important changes to the Magic Kingdom and Epcot monorail schedules through July 2015; ticket prices, dates, and times for the Magic Kingdom's Night of Joy celebration in September; and updates to Fastpass+ locations for the Magic Kingdom's parades. Compiled and written by a team of experienced researchers whose work has been cited by such diverse sources as USA Today and Operations Research Forum, The Unofficial Guide to Walt Disney World digs deeper and offers more than any other guide. Sales@ChineseStandard.net] This Part of NB/T 47013 specifies the X-ray digital radiographic testing technology and quality grading requirements of fusion welded joints for metal pressure parts of pressure equipment.

In this stimulating and provocative book the editors have drawn together a diverse and international range of respected authors, each of whom has taken a critical approach to the contentious question of how you define and achieve quality early childhood services. It is a book designed to provoke and promote critical dialogue and discourse amongst practitioners and students through critical engagement with the position of the authors within the text. I believe anyone who reads this book will be inspired and motivated to challenge and extend their thinking and professional practice, adopting the critical stance which lies at the heart of quality services for children and families. Professor Chris Pascal, Director of Centre for Research in Early Childhood (CREC) Early childhood is a complex and important area of study where it is important to develop your critical thinking and reflect upon key issues. This book will help do both. It explores interrelated topics such as: Child development Play Safeguarding Professionalism Curriculum and Policy Each chapter will not only engage with what you need to know but help you develop your academic skills. The book also comes with lots of online resources which can be found at <https://study.sagepub.com/reedandwalker> and include: Podcasts from the authors of each chapter so you can better understand the key concepts PowerPoints to help you revise the essential information Journal articles related to each chapter provide further reading Michael Reed and Rosie Walker are both Senior Lecturers in Early Childhood at the Institute of Education, University of Worcester.

Now is the time to make money! As the market continues to grow and reaches record highs in late 2014, you'll need to know where to put your money in order to create the largest profit. With The 100 Best Stocks to Buy in 2015, you can reap high earnings with stock picks that have consistently beaten the market average. Inside, you'll find an evaluation of the current state of the market as well as information on: Protecting your profits from the risk of a significant market correction Investing in significant opportunities, including exchange-traded funds Balancing a portfolio between aggressive and safety stocks Developing strong investment habits An essential guide for anyone investing in today's market. The 100 Best Stocks to Buy in 2015 gives you solid and dependable advice you can take to the bank.

Conservative Government Penal Policy 2015-2021

The 2015 INTERNATIONAL FUEL GAS CODE SOFT COVER sets forth requirements that address the design and installation of fuel gas systems and gas-fired appliances, based on the most current information and technology available. The requirements are performance-driven, making this an effective tool and valuable addition to a user's code products. In this updated code, the section on protection of piping has been completely rewritten, and readers are informed that line regulators installed in rigid piping must have a union installed to allow removal of the regulator.

Growth in sub-Saharan Africa has weakened after more than a decade of solid growth, although this overall outlook masks considerable variation across the region. Some countries have been negatively affected by falling prices of their main commodity exports. Oil-exporting countries, including Nigeria and Angola, have been hit hard by falling revenues and the resulting fiscal adjustments, while middle-income countries such as Ghana, South Africa, and Zambia are also facing unfavorable conditions. This October 2015 report discusses the fiscal and monetary policy adjustments necessary for these countries to adapt to the new environment. Chapter 2 looks at competitiveness in the region, analyzing the substantial trade integration that accompanied the recent period of high growth, and policy actions to nurture new sources of growth. Chapter 3 looks at the implications for the region of persistently high income and gender inequality and ways to reduce them.

The two-volume set LNCS 9279 and 9280 constitutes the refereed proceedings of the 18th International Conference on Image Analysis and Processing, ICIAP 2015, held in Genoa, Italy, in September 2015. The 129 papers presented were carefully reviewed and selected from 231 submissions. The papers are organized in the following seven topical sections: video analysis and understanding, multiview geometry and 3D computer vision, pattern recognition and machine learning, image analysis, detection and recognition, shape analysis and modeling, multimedia, and biomedical applications.

The three-volume set LNCS 9349, 9350, and 9351 constitutes the refereed proceedings of the 18th International Conference on Medical Image Computing and Computer-Assisted Intervention, MICCAI 2015, held in Munich, Germany, in October 2015. Based on rigorous peer reviews, the program committee carefully selected 263 revised papers from 810 submissions for presentation in three volumes. The papers have been organized in the following topical sections: quantitative image analysis I: segmentation and measurement; computer-aided diagnosis: machine learning; computer-aided diagnosis: automation; quantitative image analysis II: classification, detection, features, and morphology; advanced MRI: diffusion, fMRI, DCE; quantitative image analysis III: motion, deformation, development and degeneration; quantitative image analysis IV: microscopy, fluorescence and histological imagery; registration: method and advanced applications; reconstruction, image formation, advanced acquisition - computational imaging; modelling and simulation for diagnosis and interventional planning; computer-assisted and image-guided interventions.

NAV 2015 is a complete ERP system, which also contains a robust set of development tools to support customization and enhancement. These include an object designer for each of seven application object types, a business application-oriented programming language with .NET interface capability, a compiler, a debugger, and programming testing language support. This book is designed to take you from an introduction to the product and its integrated development tools to being a productive developer in the NAV 2015 environment. It will serve as a comprehensive reference guide, complementing NAV's Help files. You will find this book really useful if you want to evaluate the product's development capabilities or need to manage NAV 2015 based projects. Additionally, you will also learn about the NAV application structure, the C/SIDE development environment, the C/AL language, the construction and uses of each object type, and how it all fits together.

Wiley Elan Guides Level I CFA 2015 Eleventh Hour Guide is a highly effective and efficient CFA Level I exam preparation course that will meet your complete study needs. A condensed review book covering all important concepts and formulas to reinforce the learnings and instruction, the Eleventh Hour Guide is an essential component of your final review. As it becomes very difficult to go over so many books in the last few weeks before the exam, we have condensed the material for you and added comments and tips from our instructors that will help you optimize your performance.

This book interrogates Conservative government penal policy for adult and young adult offenders in England and Wales between 2015 and 2021. Government penal policy is shown to have been often ineffective and costly, and to have revived efforts to push the system towards a disastrous combination of austerity, outsourcing and punishment that has exacerbated the penal crisis. This investigation has meant touching on topical debates dealing with the impact of resource scarcity on offenders' experiences of the penal system, the impact of an increasing emphasis on punishment on offenders' sense of justice and fairness, the balance struck between infection control and offender welfare during the government handling of the SARS-CoV-2 pandemic and why successive Conservative governments have intransigently pursued a penal policy that has proved crisis-exacerbating. The overall conclusion reached is that penal policy is too important to be left to governments alone and needs to be recalibrated by a one-off inquiry, complemented by an on-going advisory body capable of requiring governments to 'explain or change'. The book is distinctive in that it provides a critical review of penal policy change, whilst combining this with insights derived from the sociological analysis of penal trends.

The new European Union member states are on their way to achieving nationally adapted Millennium Development Goals, although some CIS countries suffer from the same levels of poverty found in Africa and need the same level of assistance from the world community. This report says that renewed commitment from governments and the international community is critical if Eastern Europe and CIS countries (Albania; Armenia; Azerbaijan; Belarus; Bulgaria; Croatia; Cyprus; Czech Republic; Estonia; Georgia; Hungary; Kazakhstan; Kosovo; Kyrgyzstan; Latvia; Lithuania; Malta; Montenegro; Macedonia; Moldova; Poland; Romania; Russian Federation; Serbia; Slovakia; Slovenia; Tajikistan; Turkey; Turkmenistan; Ukraine; Uzbekistan), particularly in Central Asia, are to achieve the MDGs by the global target of 2015. The report is intended to serve as a platform for integrating the nationally adapted Millennium Development Goals into country-level poverty alleviation frameworks.--Publisher's description.

A provocative and important study of the different ideas Easterners and Westerners have about the self and society and what this means for current debates in art, education, geopolitics, and business. Never have East and West come as close as they are today, yet we are still baffled by one another. Is our mantra "To thine own self be true"? Or do we believe we belong to something larger than ourselves--a family, a religion, a troop--that claims our first allegiance? Gish Jen--drawing on a treasure trove of stories and personal anecdotes, as well as cutting-edge research in cultural psychology--reveals how this difference shapes what we perceive and remember, what we say and do and make--how it shapes everything from our ideas about copying and talking in class to the difference between Apple and Alibaba. As engaging as it is illuminating, this is a book that stands to profoundly enrich our understanding of ourselves and of our world.

Dietary Guidelines for Americans 2015-2020 provides the government's most up-to-date information on diet and health in order to help all children and their families consume a healthy, nutritionally adequate diet. Previous editions of the Dietary Guidelines focused primarily on individual dietary components of the food pyramid, such as dairy, meats, fruits, and vegetables. However, a growing body of new research has examined the relationship between overall eating patterns, health, and risk of chronic disease, and findings on these relationships are sufficiently well established to support dietary guidance. As a result, eating patterns and their food and nutrient characteristics are a focus of the recommendations in the 2015-2020 Dietary Guidelines . This edition provides guidelines for the seven million Americans who follow vegetarian diets—a number that has tripled in the last ten years. The information in the Dietary Guidelines is used in developing Federal food, nutrition, and health policies, educational materials, and programs. These guidelines are a necessary reference for policymakers and nutrition and health professionals, and a great resource for parents who strive to create a healthy lifestyle for their families. Additional audiences who may use Dietary Guidelines information to develop programs, policies, and communication for the general public include businesses, schools, community groups, media, the food industry, and State and local governments. Report Together with Minority and Additional Views (to Accompany H.R. 1806) (including Cost Estimate of the Congressional Budget Office).

It is organized by the German ACM specialty section of the UPA (Usability Professionals Association). The volume presents the latest research findings through case studies and practice reports along with in-depth discussions.

Hospitals and health systems are facing many challenges, including shrinking reimbursements and the need to improve patient safety and quality. A growing number of healthcare organizations are turning to the Lean management system as an alternative to

traditional cost cutting and layoffs. "Kaizen," which is translated from Japanese as "good change" or "change for the better," is a core pillar of the Lean strategy for today's best healthcare organizations. Kaizen is a powerful approach for creating a continuously learning and continuously improving organizations. A Kaizen culture leads to everyday actions that improve patient care and create better workplaces, while improving the organization's long-term bottom line. The Executive Guide to Healthcare Kaizen is the perfect introduction to executives and leaders who want to create and support this culture of continuous improvement. The Executive Guide to Healthcare Kaizen is an introduction to kaizen principles and an overview of the leadership behaviors and mindsets required to create a kaizen culture or a culture of continuous improvement. The book is specifically written for busy C-level executives, vice presidents, directors, and managers who need to understand the power of this methodology. The Executive Guide to Healthcare Kaizen shares real and practical examples and stories from leading healthcare organizations, including Franciscan St. Francis Health System, located in Indiana. Franciscan St. Francis' employees and physicians have implemented and documented 4,000 Kaizen improvements each of the last three years, resulting in millions of dollars in hard savings and softer benefits for patients and staff. Chapters cover topics such as the need for Kaizen, different types of Kaizen (including Rapid Improvement Events and daily Kaizen), creating a Kaizen culture, practical methods for facilitating Kaizen improvements, the role of senior leaders and other leaders in Kaizen, and creating an organization-wide Kaizen program. The book contains a new introduction by Gary Kaplan, MD, CEO of Virginia Mason Medical Center in Seattle, Washington, which was named "Hospital of the Decade" in 2012. The Executive Guide to Healthcare Kaizen is a companion book to the larger book Healthcare Kaizen: Engaging Front-Line Staff in Sustainable Continuous Improvements (2012). Healthcare Kaizen is a longer, more complete "how to" guide that includes over 200 full color images, including over 100 real kaizen examples from various health systems around the world. Healthcare Kaizen was named a recipient of the prestigious Shingo Professional Publication and Research Award. Check out what the experts at the Franciscan St. Francis Health System have to say about Healthcare Kaizen. <http://www.youtube.com/watch?v=XcGmP5gLEPo&feature=c4-overview&list=UU7jiTxn4nkMzOE5eTbf0Upw>

The current political standoffs of the 'War on Terror' illustrate that the interaction within and between the so-called Western and Middle Eastern civilizations is constantly in flux. A recurring theme however is how Islam and Muslims signify the 'Enemy' in the Western socio-cultural imagination and have become the 'Other' against which the West identifies itself. In a unique and insightful blend of critical race, feminist and post-colonial theory, Sunera Thobani examines how Islam is foundational to the formation of Western identity at critical points in its history, including the Crusades, the Reconquista and the colonial period. More specifically, she explores how masculinity and femininity are formed at such pivotal junctures and what role feminism has played in the wars against 'radical' Islam. Exposing these symbiotic relationships, Thobani explores how the return of 'religion' is reworking the racial, gender and sexual politics by which Western society defines itself, and more specifically, defines itself against Islam. Contesting Islam, Constructing Race and Sexuality unpacks conventional as well as unconventional orthodoxies to open up new spaces in how we think about sexual and racial identity in the West and the crucial role that Islam has had and continues to have in its development.

This publication is based on highlights of the discussion held during the 12th Session of the UN Committee of Experts on Public Administration (CEPA), in 2013, on "The Role of Responsive and Accountable Public Governance in achieving the MDGs and the Post-2015 Development Agenda," which observed that responsive and accountable governance, including effective, responsive and accountable public administration, is key in accelerating the progress on the MDGs and in the implementation of the post-2015 development agenda. It also encompasses research and analysis of the United Nations Public Administration Country Studies (UNPACS) on themes such as codes of conduct, citizen engagement (in terms of its oversight role), ICTs in the work of e-government, and citizen engagement for public policy definition and development management planning.
