This volume examines the role of rhetoric in today's culture of democratic activism. The volume takes on two of the most significant challenges currently facing contemporary rhetorical studies: (1) the contested meanings and practices of democracy and civic engagement in global context, and (2) the central role of rhetoric in democratic activist practices. In presenting a variety of political and rhetorical struggles in their specific contexts, editors Seth Kahn and JongHwa Lee allow contributors to reflect on and elaborate possibilities for both activist approaches to rhetorical studies, and rhetorical approaches to activist projects, facilitating better understanding the socio-political consequences of this work. With contributors from widely known scholars in communication and composition studies, the collection offers practical cases that highlight how rhetoric mediates, constitutes, and/or intervenes in democratic principles and practices. It also considers theoretical questions that acknowledge profound voids in the rhetorical tradition (e.g., Western, neo-Aristotelian, liberal) and expand the horizon of traditional rhetorical perspectives. It advocates new knowledge and practices that further promote civic engagement, social change and democracy in the global context. Activism and Rhetoric will be appropriate for scholars and students across disciplines, including rhetoric, composition, communication studies, political science, cultural studies, and women's studies.

A Managerial Approach The Political Turn in and Beyond the Trump Era Critical Reflections Association of Pennsylvania State College and University Faculties (APSCUF) Records This volume explores a dimension of authorship not given its due in the critical discourse to this point—authorship contested. Much of the existing critical literature begins with a text and the proposition that the text has an author. The debates move from here to questions about who the author is, whether or not the author's identity is even relevant, and what relationship she or he does and does not have to the text. The authors contributing to this collection, however, ask about circumstances surrounding efforts to prevent authors from even being allowed to have these questions asked of them, from even being identified as authors. They ask about the political, cultural, economic and social circumstances that motivate a prospective audience to resist an author's efforts to have a text published, read, and discussed. Particularly noteworthy is the range of everyday rhetorical situations in which contesting authorship occurs—from the production of a corporate document to the publication of fan fiction. Each chapter also focuses on particular instances in which authorship has been contested, demonstrating how theories about various forms of contested authorship play out in a range of events, from the complex issues surrounding peer review to authorship in the age of intelligent machines. Contains the revised text (1975) of Article XII of the Commonwealth of Pennsylvania-Association of Pennsylvania State College and University Faculties Collective Bargaining Agreement, (1974). Writing Democracy: The Political Turn in and Beyond the Trump Era calls on the field of writing studies to take up a necessary agenda of social and economic change in its classrooms, its scholarship, and its communities to challenge the rise of neoliberalism and right-wing nationalism. Grown out of an extended national dialogue among public intellectuals, academic scholars, and writing teachers, collectively known as the Writing Democracy project, the book creates a strategic roadmap for how to reclaim the progressive and political possibilities of our field in response to the "twilight of neoliberalism" (Cox and Nilsen), ascendant right-wing nationalism at home (Trump) and abroad (Le Pen, Golden Dawn, UKIP), and hopeful radical uprisings (Black Lives Matter, Occupy Wall Street, Arab Spring). As such, the book tracks the emergence of a renewed left wing in rhetoric and activism post-2008, suggests how our work as teachers, scholars, and administrators can bring this new progressive framework into our institutions, and then moves outward to our role in activist campaigns that are reshaping public debate. Part history, part theory, this book will be an essential read for faculty, graduate students, and advanced undergraduate students in composition and rhetoric and related fields focused on progressive pedagogy, university-community partnerships, and politics. While professors and administrators pay lip-service to concepts like open-mindedness and robust debate, they try to squash any opinion that doesn't match their radical left world view. World-renowned campus activist David Horowitz wants to bring diversity back to the college campus. Horowitz describes his decades-long campaign against intellectual bigotry, grade discrimination, and the denial of basic rights to any and all whose opinions diverge from the extreme liberal orthodoxy. In his original CyberUnion, the author presented a bold plan for unions to develop a more significant role in the 21st century by adopting four strategic aids - futuristics, innovations, services, and traditions (F-I-S-T) - knit together by cutting-edge Info Tech resources. CyberUnions in Action expands on the F-I-S-T model and looks at gains and setbacks in pioneering efforts to create "CyberUnions". It highlights relevant websites, and features interviews with key CyberUnion advocates (and some critics). Shostak reviews overseas union efforts for transferable lessons, and pays special attention to the AFL-CIO campaign to ensure Labor's advances in the use of computer networks, the Internet, wireless devices, and more. APSCUF Strong Three Days in October Executive Council Proceedings (abridged) Public Bargaining Cases National Public Employment Reporter Pennsylvania Records and Briefs: Supreme Court of Pennsylvania Introduces the reader to the academic union movement and describes the conflicts and challenges inherent in this "professional unionism" among full-time faculty, part-time faculty, and graduate-employees on campuses across the United States and Canada. If You Live by the Sword offers an honest portrayal of the human struggles faced by a university president and it explains how these seldom discussed stresses of the position are intensified by the intrusion of politics. Pettit goes behind the scenes and writes openly about intrigue, betrayal, anxiety, and the contention for power that is faced within the university system. In a career that has mixed academia and politics for over forty years, the author was fired more than once for his politics. And when he ran a gubernatorial campaign, he actually had to fire the candidate's mother. On a more personal level, the author experienced two divorces because of the turbulence of his career, and had to fend off false rumors of sexual impropriety and endure politically inspired audits.
