

When people should go to the books stores, search establishment by shop, shelf by shelf, it is in fact problematic. This is why we provide the books compilations in this website. It will utterly ease you to see guide Bacon as you such as.

By searching the title, publisher, or authors of guide you in point of fact want, you can discover them rapidly. In the house, workplace, or perhaps in your method can be every best area within net connections. If you direct to download and install the Bacon, it is totally easy then, previously currently we extend the connect to purchase and create bargains to download and install Bacon in view of that simple!

There are also essays on Bacon's theory of rhetoric and history as well as on his moral and political philosophy and on his legacy. Throughout the contributors aim to place Bacon in his historical context.

A celebration—with recipes—of one of America's most flavorful and versatile foods. Bacon has long been one of the most popular and prominent components of American table fare.

"Bacon and eggs" just rolls off your tongue long before the waitress at your local diner can get your cup of coffee set before you. The BLT celebrates all that's right with one of the summer's simplest sandwiches. And burgers? Well, why have a cheeseburger when you can have a bacon cheeseburger? Building on those red-white-and-blue foundations, author Jennifer L.S. Pearsall has taken all the savory, smoky-sweet goodness that is bacon and elevated its status. Working this succulent cured meat into dishes ranging from comfort to extraordinary, basic to complex, and across the spectrum of breakfast, lunch, appetizers, dinners, and desserts—yes, desserts!—Pearsall has taken the uses of bacon to new heights. As she puts it, "I can't think of anything bacon doesn't work with." There's just something about it that seems to complement every other food it comes in contact with and across the range of sensations we normally associate with taste—salty, sweet, sour, and bitter. But, during Pearsall's time in the kitchen putting together this book, she found that bacon also qualifies as umami, that fifth taste sensation that, roughly translated, simply means "good flavor." Sure, bacon can be a dominant feature in something like a well-topped burger, a place where you really want to taste the bacon as a whole. But dice it fine and work it into a dessert crust, a bread dough, pulled pork, anything, and now you've got a dish that just has something. Something more than it did without this wonderful meat!

Francis Bacon flung open the twentieth-century closet. By day he exposed the secrets of a dark century, and by night he swashbuckled through Soho, never concealing his homosexuality. Francis Bacon: Revelations, a decade in the making, is the first biography of this seminal artist to appear in twenty-five years. Based on hundreds of interviews and extensive new material from Ireland, Tangier, Spain, England, and France, Mark Stevens and Annalyn Swan have written a startlingly original portrait—rich, complex, and subtle—of a commanding modern figure. Bacon concealed many important aspects of his life. He described himself as an asthmatic child in Ireland, with foxhunting parents and a tyrannical father, but he was also rescued by a series of formidable women, beginning with a practical nanny and an eccentric grandmother: the women in this biography emerge as important characters in their own right. He was never just a dissolute young man, but was also a passionate reader who—largely self-taught—developed an abiding fascination with Nietzsche and Aeschylus. Early on, influenced by the work of Eileen Gray, he became a hard-working and ambitious designer, a brief career explored here in detail for the first time. He dreamed of remaking the modern room. Bacon worked no less hard and ambitiously as a painter—at first with little success. Throughout the 1930s and early '40s he suffered ongoing failures, growing isolated and often ill: his health issues throughout his life were far more significant than he revealed. Then came his astonishing breakthrough in 1944, with Three Studies for Figures at the Base of a Crucifixion. In the following decades, he emerged as one of the great iconoclasts and bon vivants of his time, a Wildean figure whom one friend called "a terrific grandee." Bacon was typically celebrated as a sexual adventurer who like rough trade, but he never stopped longing for a serious committed relationship—however painful. He continued to make disturbing images of the strangeness within, but developed into a more varied artist than has been recognized, creating in particular an extraordinary series of self-portraits. He was an artist who believed in chance and paradox: the iconoclast eventually became an icon. This is a story, deeply researched and masterfully told, of a sickly boy who became one of the great figures of his time. The twentieth century does not know itself without Bacon. --

The Book No One Wants to Read is a highly visual full-color chapter book that uses humor, interactivity, and meta-storytelling to help even the most reluctant reader breeze through reading time, feel successful at reading, and even laugh! You'll read a book . . . without really reading! A lonely book makes a deal with its reader: "You keep turning my pages, and I'll make it FUN!" If you think reading is boring, then you can pretend to read this book! All you have to do is sit here and turn the pages. Everyone will think you're reading. Are you ready? Let's get started... The ability to read by third grade is critical to a child's success in school and beyond. But learning to read can be frustrating. The Book No One Wants to Read by Beth Bacon validates the experience of reluctant readers and rewards them with laughter.

This authoritative edition was originally published in the acclaimed Oxford Authors series under the general editorship of Frank Kermode. It brings together an extensive collection of Bacon's writing - the major prose in full, together with sixteen other pieces not otherwise available - to give the essence of his work and thinking. Although he had a distinguished career as a lawyer and statesman, Francis Bacon's lifelong goal was to improve and extend human knowledge. In The Advancement of Learning (1605) he made a brilliant critique of the deficiencies of previous systems of thought and proposed improvements to knowledge in every area of human life. He conceived the Essays (1597, much enlarged in 1625) as a study of the formative influences on human behaviour, psychological and social. In The New Atlantis (1626) he outlined his plan for a scientific research institute in the form of a Utopian fable. In addition to these major English works this edition includes 'Of Tribute', an important early work here printed complete for the first time, and a revealing selection of his legal and political writings, together with his poetry. A special feature of the edition is its extensive annotation which identifies Bacon's sources and allusions, and glosses his vocabulary.

An ambitious and radically original reading of philosopher Francis Bacon. Comprehensive in its ambitions and meticulous in its approach, The Political Philosophy of Francis Bacon is a new and unique interpretation of one of early modernity's more

important thinkers. Whereas recent works on Bacon tend to confine themselves either to interpreting his historical context or to considering the founder of Baconianism from the perspective of one work in particular or the history of science in general, Tom van Malssen argues, through detailed and provocative interpretations of a number of Baconian writings, that the unity of Bacon's thought can only be revealed if these writings are read in historical and philosophical conjunction as well as on the assumption that they are all somehow part of the whole of Bacon's political philosophy. In addition to restoring Bacon to the pantheon of great philosophers, Van Malssen demonstrates that a proper understanding of Bacon's political philosophy contributes significantly to our understanding of the nature of philanthropic science, the modern project, and ultimately ourselves. Tom van Malssen holds a master's in law and a PhD in political philosophy. He currently works as a lawyer in the Netherlands.

Beyond Bacon pays homage to the humble hog by teaching you how to make more than a hundred recipes featuring cuts from the entire animal. While bacon might be the most popular part of the pig for those following the paleo diet, there is a plethora of other delicious and nutrient dense cuts to enjoy. Pastured pork is rich in Omega 3 fatty acids and conjugated linoleic acid (CLA), the "good fats" our doctors want us to eat. Beyond Bacon breaks the myths behind this often eschewed meat and shows you how to create delectable dishes that are grain-, legume-, dairy-, and refined sugar-free. Beyond Bacon allows you to improve your health and the environment by focusing on sustainable swine. Don't let the dried out pork of your youth scare you away. All the recipes in Beyond Bacon are elegant yet approachable, making it the ultimate cookbook for the foodie in you. You'll find: Grain-free Pie Crust, made with lard, Perfect Pork Chops, better than most restaurant steaks, Swedish Meatballs with liver gravy, Pho Soup with chitterling "noodles", instructions on how to properly BBQ and make your own sauces, and a guide to rendering your own CLA-rich lard and how to cook with it. Beyond Bacon delivers mouth-watering photos for each delicious recipe. With a rustic aesthetic and appreciation for tradition, Beyond Bacon recreates the rich and wonderful food perfected generations ago in a healthful way.

The guys who together form the popular comedy duo The Skit Guys, take their distinct brand of humor and apply it to a guide on how to make and keep friends and why it matters for a life of faith and laughs. Since their high-school days, they've been writing and performing hilarious and poignant skits live around the world and on camera, as well as on their site, SkitGuys.com. Everywhere they go, the question people always ask them is, "How did you guys get to be and figure out how to stay friends?" Now, this offbeat duo is coming together to present Smells Like Bacon: The Skit Guys Guide to Lifelong Friendships, a book about the power of friendships and how to build the kind of friendships that last. Written in the signature hilarity of a Skit Guys dialogue—with well-placed banter or two sprinkled in for good measure—Smells Like Bacon explores: - Who needs friends? - How to be a good friend - Awkward things not to say to potential friends - How to handle difficult situations in friendship - And many fun quizzes, random stories, and references to bacon along the way

Francis Bacon and the Loss of Self
a Savor the South® cookbook
101 Things To Do With Bacon

Bacon Nation
Revelations
Labor Wars on the U.S./Mexico Border

From the earliest days of European settlement in the South, as in many rural economies around the globe, cured pork became a main source of sustenance, and the cheaper, lower-on-the-hog cuts—notably, bacon—became some of the most important traditional southern foodstuffs. In this cookbook, Fred Thompson captures a humble ingredient's regional culinary history and outsized contributions to the table. Delicious, of course, straight out of the skillet, bacon is also special in its ability to lend a unique savory smokiness to an enormous range of other foods. Today, for regular eaters and high-flying southern chefs alike, bacon has achieved a culinary profile so popular as to approach baconmania. But Thompson sagely notes that bacon will survive the silliness. Describing the many kinds of bacon that are available, Thompson provides key choices for cooking and seasoning appropriately. The book's fifty-six recipes invariably highlight and maximize that beloved bacon factor, so appreciated throughout the South and beyond (by Thompson's count, fifty different styles of bacon exist worldwide). Dishes range from southern regional to international, from appetizers to main courses, and even to a very southern beverage. Also included are Thompson's do-it-yourself recipes for making bacon from fresh pork belly in five different styles.

The founder of L.A.'s hottest wellness boutique, Amanda Chantal Bacon offers the ultimate resource for foodies looking to restore their health the natural way, using functional foods to create seriously healing drinks, snacks, and sweet treats. Since Amanda Chantal Bacon founded Moon Juice in 2011, it has evolved into one of the nation's fastest growing wellness brands, and in The Moon Juice Cookbook, she artfully distills her powerful approach to healthy living, sharing over 75 recipes for the brand's most popular healing beverages and provisions. Amanda's recipes harness the healing properties of adaptogenic herbs, raw foods, and alkalizing ingredients to create potent drinks, snacks, and sweets that deliver a multitude of benefits, including sparked libido, glowing skin, and boosted immunity. She begins by guiding readers through the fundamentals of the Moon Juice kitchen, teaching them how to stock the larder with milks, juices, cultured foods, and "unbakery" doughs and crèmes—all of which can be mixed and matched to create nutritionally turbo-charged meals with minimal effort—and the essential time- and money-saving strategies they'll need to make their new kitchen practices stick. With recipes for healthful, delectable indulgences like Strawberry Rose Geranium Bars, Hot Sex Milk, Savory Tart with Cheese and Tomato Filling, Pulp Brownies with Salted Caramel Sauce, Yam Julius Milk, and Chocolate Chaga Donuts, The Moon Juice Cookbook is the stylish yet pragmatic roadmap readers need to achieve optimal wellness in a natural and delicious way.

Bacon-its the fifth food group. And no one can resist the allure of its smoky, savory flavor. Author Sara Perry has created 70 delicious recipes using bacon in a variety of intriguing ways, from classic breakfast dishes like fluffy scrambled eggs and bacon and Sweetie-Pie Pancakes to unique and oddly addictive bacon brittle. Sara also reveals the skinny about bacon with some surprising facts about bacons fat content (seems those tasty little strips arent sobad for the hips after all). Theres plenty of practical advice for buying, storing, handling, and cooking every type of bacon imaginable, from Canadian to pancetta. Theres even a handy resource list perfect for locating hard-to-find artisanal bacons. Any way you slice it, everything tastes better with bacon!

The letters of Jane Lady Cornwallis Bacon offer the story of a loving mother and devoted friend. Cumulatively, they provide an unfolding, sometimes self-dramatizing narrative, one which details the expansive life of a privileged woman and her family throughout the turbulent years of the early to mid-seventeenth century. The correspondents vary from close relations and friends, such as Lucy, Countess of Bedford, to distant cousins and to associates at the London court and in Europe. The letters enable us to share in the pleasures and disappointments that form a natural part of daily life, and we find, along with insights into social customs and attitudes to death, references to important personalities and the major political events of the time. The readiness of families such as this to write directly, rather than to dictate through secretaries, makes the literary outcome more personal and intimate, more expressive of inner feelings and shared sensibility. In consequence, the letters carry their own truth across the ages. The correspondence was first transcribed and edited by Richard, third Lord Braybrooke, of Audley End, Essex. In 1842 he brought out a private edition limited to fifty copies, with just two hundred letters from over six hundred manuscript items found among family archives in the 1820s. This second edition, with a new comprehensive introduction, augments the original through the addition of forty-eight unpublished letters, and with hitherto unpublished poems in an appendix. It includes a proper balance of family and friends, with a representative sample from all correspondents and with women writers given a stronger presence. Apart from certain archaisms to preserve some flavor of contemporary style, these letters are modernized throughout. Biographical details are provided for the many people mentioned, and there is a full bibliography. Complemented by extensive notes and sixteen illustrations, *The Private Correspondence of Jane Lady Cornwallis Bacon, 1613-1644* constitutes a unique collection. It brings to life the interests and concerns of a family living in England before the Civil War, and gives insight into the complex yet recognizable relationships of an extended kinship network. These letters are made available to a wider readership for the first time, and thereby form a major contribution to our knowledge of Jacobean and Stuart family life.

The Political Philosophy of Francis Bacon

Bacon

The Moon Juice Cookbook

This is a journalistic chronicle of contemporary labor wars and organizing on the United States/Mexican border.

Based on gripping firsthand reports, this book investigates the impact of the North American Free Trade Agreement on those who labor in the agricultural fields and maquiladora factories on the border.

This richly annotated second edition of the now-classic pairing of Bacon's masterpieces, *New Atlantis* and *The Great Instauration* features the addition of other works by Bacon, including "The Idols of the Mind," "Of Unity in Religion" and "Of the True Greatness of Kingdoms and Estates," as well a Summary of the each work and Questions for the reader. S Includes works new to the second edition, including "The Idols of the Mind," "Of Unity in Religion," and "Of the True Greatness of Kingdoms and Estates" Updates the layout of the previous edition with a more generous interior design, making this work more student-friendly and easier to navigate in the classroom Each work is introduced and subsequently discussed, revealing the importance of Bacon's work to his contemporaries as well as to modern readers Includes a comprehensive introduction and annotations throughout the text; as well as an appendix of Principal Dates in the Life of Sir Francis Bacon; a selected bibliography; and synopses and questions to accompany each work

Cooked to Crispy Perfection! It's a fact of life: Bacon makes everything better. And while others may dream of eating this smoky meat at every meal, this book makes it a reality with fifty recipes for any time of day. From twists on savory breakfast favorites to incredibly indulgent desserts, this irresistible collection will show you just how easy it is to incorporate your beloved meat into every plate with succulent bacon recipes like: Bacon breakfast sausage Jalapeno bacon cornbread Bacon-wrapped chicken Bacon mac and cheese Bacon butterscotch cupcakes Bursting with mouthwatering four-color photos and juicy bacon trivia, this gut-expanding cookbook packs a flavorful punch!

Francis Bacon is considered one of the most important painters of the 20th century. A major exhibition of his paintings at the Royal Academy of Arts in 2020 explores the role of animals in his work - not least the human animal. Having often painted dogs and horses, in 1969 Bacon first depicted bullfights. In this powerful series of works, the interaction between man and beast is dangerous and cruel, but also disturbingly intimate. Both are contorted in their anguished struggle and the erotic lurks not far away: "Bullfighting is like boxing," Bacon once said. "A marvellous aperitif to sex." 0Twenty-two years later, a lone bull was to be the subject of his final painting. In this fascinating publication - a significant addition to the literature on Bacon - expert authors discuss Bacon's approach to animals and identify his varied sources of inspiration, which included surrealist literature and the photographs of Eadweard Muybridge. They contend that, by depicting animals in states of vulnerability, anger and unease, Bacon sought to delve into the human condition.00Exhibition: Royal Academy of Arts, London, UK (22.01-12.04.2021).

Bacon: Selected Philosophical Works

A major updating of scholarship on the philosophy and thought of Roger Bacon. In particular, it treats his philosophy of language, science and mathematics, moral philosophy, medicine, physics and metaphysics, and his history and sociology of religion.

In this landmark text by one of the most influential philosophers of the twentieth century, Gilles Deleuze takes the paintings of Francis Bacon as his object of his study. The book presents a deep engagement with Bacon's work and the nature of art. Deleuze analyzes the distinctive innovations that came to mark Bacon's style: the isolation of the figure, the violation and deformations of the flesh, the complex use of color, the method of chance, and the use of the triptych form. Here Deleuze creates a number of his well-known concepts, such as the 'body without organs' and contrasts his own approach to painting with that of both the phenomenological and the art historical traditions. Deleuze links Bacon's work to Cezanne's notion of a 'logic' of sensation and, investigating this logic, explores Bacon's crucial relation to past painters such as Cezanne, Velasquez, and Soutine.

The most comprehensive collection available in paperback of Bacon 's philosophical and scientific writings, this volume offers Bacon's major works in their entirety, or in substantive selections, revised from the classic 19th century editions of Spedding, Ellis, and Heath. Selections from some of Bacon's natural histories round out this edition by showing the types of compilations that he believed would most contribute to the third part of his *Great Instauration*. Each work has a separate brief introduction

indicating the major themes developed. In her general Introduction, Sargent gives a biographical sketch of Bacon's early life, education, and legal career, discusses the major components of his philosophical project, and traces his influence on subsequent natural philosophy. In addition, she looks at the primarily negative evaluations of Bacon's methodological writings by philosophers of science in the first half of the twentieth century, the reassessments of his works that took place as the influence of logical empiricism declined, and the current revival of interest in Bacon that coincides with the focus on experimental practice today. A bibliography and index complete the text.

Griefland. It 's a place no one wants to visit—a place without borders where language is inadequate and pain is constant. It 's a place where every morning one awakens to the stark reality that a loved one will never be seen, heard—or embraced—again. This is a place that Armen Bacon and Nancy Miller know all too well, for when they met, both of them had lost a child—a son, Alex, and a daughter, Rachel.

Griefland provides an intimate portrait of what tragedy does to the human soul, how it changes one 's life, and most important, how it can be survived. With achingly beautiful language, this book explores the acute moment-to-moment experience of grief. But it also transcends that and speaks to the redemptive power of friendship, trust, intimacy, and love. Together they discover a will and desire to move forward, recognizing that life is the ultimate prize for those who survive this excruciating journey.

"Everyone loves Bacon, but letting his fame go to his head may prove more dangerous than he thought"--

Bacon is Peter Sherman 's North Star. In 2014, he opened BarBacon, a bacon-themed gastropub in New York City, to immediate critical and financial success, and he has become the go-to bacon guru for the world. Sherman has a nearly religious devotion to bacon, and in his tome, *The Bacon Bible*, he shares more than 200 recipes that show you how to incorporate bacon into nearly any meal you can imagine. There are the classics, like BLTs, wedge salads, and mac and cheese, but the book really encourages you to cook with bacon in unexpected ways with recipes like Bacon Ramen, Chipotle Bacon Tacos, and Bacon Bourbon Oatmeal Pancakes. Peter also teaches you the basics, like how to cure simple bacon from scratch. He has a mad-scientist approach to bacon and is a firm believer that it should be a part of every meal. With this cookbook, you 'll never think of bacon the same way.

Fans of Maynard will be delighted to read his further adventures in bacon curing. The last of the traditionally-apprenticed bacon curers, the author regales and inspires his readers with tales of * visits from the health inspectors * his colourful customers and work colleagues * his tips on curing, smoking and selling * the burglaries, bungled deals and triumphs * his growing reputation in the field * travels to learn how to make parma ham and much more. This book is the same addictive concoction of humour, tragedy and plain common sense, told in Maynard's disarmingly frank manner.

Everything tastes better with bacon. One of those flavor-packed, umami-rich, secret-weapon ingredients, it has the power to elevate just about any dish, from soups to soufflé s, braises to bread pudding. Peter Kaminsky and Marie Rama know just how to employ it. Peter is the author of both *Pig Perfect*—a paean to the noble swine—and, most recently, *Culinary Intelligence*, which argues that the healthiest way to eat is to eat less but really well. He and Marie know that adding irresistible bacon transforms an ordinary dish into an extraordinary one. *Bacon Nation* is a bacon-lover 's dream, a collection of 125 smoky, savory, crispy, meaty, salty, and sweetly sensuous recipes that go right through the menu. Starters like *Spiced Nuts with Bacon*; *Bacon and Butternut Squash Galette*; *Bacon, Pear, and Humboldt Fog Salad*. Main courses featuring meats—*Brawny Bacon Beef Bourguignon*, *Saltimbakon*; poultry—*Paella with Chicken and Bacon*; fish—*Flaky Cod Fillets with Bacon and Wine-Braised Fennel*; and pasta, including an update of the classic Roman dish *Bucatini all ' Amatriciana*. Even dessert: *Rum Ice Cream with Candied Bacon Chips and Chocolate-Peanut-Bacon Toffee*. Or, as Homer Simpson would say, Mmmm, bacon.

According to most of the critical commentary on Francis Bacon, the paintings by this crucially important artist are about violence, torment, fragmentation and loss. However, Ernst van Alphen argues that it is the violence done to the viewer that needs to be addressed if we are to understand how these works function. In this provocative and highly original interpretation of Bacon's art, the author offers close readings of significant works, discussing them in relationship to theories of schizophrenia, masculinity and contemporary literature, as well as issues of representation and visibility. By looking at the paintings in intricate detail and exploring their connections within cultural theory, van Alphen brings Bacon into the context of the contemporary critical debate. "This examination of critical reactions to Bacon is very welcome"—*The Art Newspaper*

For Joshua Dread, middle school is proving to be, well, awkward. Not only do bullies pick on him, but do you see those supervillains over there trying to flood the world? The ones that everyone, including his best friend Milton, are rooting for Captain Justice to take down? They're the Dread Duo, and they just happen to be his parents. As if trying to hide his identity wasn't hard enough, Joshua has started leaving a trail of exploding pencils and scorched handprints in

his wake, and only Sophie, the new girl in town with a mysterious past, seems unsurprised. When a violent attack at the Vile Fair makes it clear someone is abducting supervillains, and that his parents may very well be next, Joshua must enlist both Sophie and Milton's help to save them. Well-written, fast-paced, and remarkably funny, Joshua Dread is the first in a series that will appeal far beyond its target audience. " Joshua Dread is funny, action-packed, and a total page-turner. You ' ll want to read to the bitter end—unless Joshua ' s parents destroy the world first. Which is a distinct possibility. " —Adam Gidwitz, author of A Tale Dark & Grimm "Villainy! Mayhem! Family! From supervillains to killer houseplants, Joshua Dread has it all. I couldn't put it down and I didn't dare, not until I'd devoured every last page!" -C. Alexander London, author of the Accidental Adventure series

Forget the Ryder Cup, forget Rory McIlroy, forget keeping your head still and correcting your putting stance. Forget eagles and albatrosses and definitely forget holes-in-one. David Godwin has a dream, the same dream held by millions of amateur golfers. He's not aiming to break on to the pro circuit, he's not aiming to break par. David Godwin is going to break 80. Or it's going to break him. Written with humour and charm, Breaking 80 is a book for those who recognise all too well the pleasure of a sweetly struck seven iron to within a few feet of the pin, followed by the agonizing fury of a three-putt back and forth across the cup.

In the spring of 1676, Nathaniel Bacon, a hotheaded young newcomer to Virginia, led a revolt against the colony's Indian policies. Bacon's Rebellion turned into a civil war within Virginia--and a war of extermination against the colony's Indian allies--that lasted into the following winter, sending shock waves throughout the British colonies and into England itself. James Rice offers a colorfully detailed account of the rebellion, revealing how Piscataways, English planters, slave traders, Susquehannocks, colonial officials, plunderers and intriguers were all pulled into an escalating conflict whose outcome, month by month, remained uncertain. In Rice's rich narrative, the lead characters come to life: the powerful, charismatic Governor Berkeley, the sorrowful Susquehannock warrior Monges, the wiley Indian trader and tobacco planter William Byrd, the regal Pamunkey chieftain Cockacoeske, and the rebel leader himself, Nathaniel Bacon. The dark, slender Bacon, born into a prominent family, soon earned a reputation in America as imperious, ambitious, and arrogant. But the colonial leaders did not foresee how rash and headstrong Nathaniel Bacon could be, nor how adept he would prove to be at both inciting colonists and alienating Indians. As the tense drama unfolds, it becomes apparent that the struggle between Governor Berkeley and the impetuous Bacon is nothing less than a battle over the soul of America. Bacon died in the midst of the uprising and Governor Berkeley shortly afterwards, but the profoundly important issues at the heart of the rebellion took another generation to resolve. The late seventeenth century was a pivotal moment in American history, full of upheavals and far-flung conspiracies. Tales From a Revolution brilliantly captures the swirling rumors and central events of Bacon's Rebellion and its aftermath, weaving them into a dramatic tale that is part of the founding story of America.

If you love bacon, you'll delight in these 23 colorful stickers. Lively little strips of bacon high-five a fried egg, surf on a potato-chip board, and perform other sizzling stunts.

The story of a boy and his imaginary friend—told by the imaginary friend Zach should ' ve outgrown his imaginary friend by now. He knows this. He ' s 11, long past the days when kids are supposed to go on epic make-believe adventures with their invisible friends. But after the death of his father five years ago, all Zach wanted was an escape from the real world. So his imaginary friend, Shovel, hasn ' t faded away like the other kids ' have. Their imaginary friendship grew stronger. But now Zach ' s in middle school, and things are getting awkward. His best friend ditched him for a cooler crowd. His classmates tease him in the hallways. He still misses his dad. Reality is the worst. Which is why Zach makes regular visits to a fantasy world with Shovel. But is Zach ' s overactive imagination helping him deal with loss or just pushing people away? Poignant, humorous, and breathtaking, Imaginary is an inventive story of friendship, loss, and growing up . . . as only an imaginary friend could tell it.

Cook Cosmically for Body, Beauty, and Consciousness

Humans went extinct thirty years ago. Now the world is ruled by machines. And twelve-year-old robot XR_935 is just fine with that. Without humans around, there is no war, no pollution, no crime. Every member of society has a purpose. Everything runs smoothly and efficiently. Until the day XR discovers something impossible: a human girl named Emma. Now, Emma, XR, and two other robots must embark on a dangerous voyage in search of a mysterious point on a map. But how will they survive in a place where rules are never broken and humans aren ' t even supposed to exist? And what will they find at the end of their journey? Narrated in the first person (first robot?) by XR, The Last Human blends humor and action with moments of poignancy to tell a story about friendship, technology, and challenging the status quo no matter the consequences. It ' s not just about what it means to be a robot. It ' s about what it means to be a human.
