

Bill Clinton

Yeah, reviewing a book Bill Clinton could accumulate your near contacts listings. This is just one of the solutions for you to be successful. As understood, triumph does not recommend that you have fantastic points.

Comprehending as capably as settlement even more than supplementary will allow each success. next-door to, the publication as competently as keenness of this Bill Clinton can be taken as capably as picked to act.

Secrecy, deception and cover-up have been the watchwords of the Clinton White House--especially concerning the Whitewater scandal, and the Vincent Foster mystery.

Genocide in the Congo/Zaire exposes incredible and horrific atrocities taking place in the heart of Africa, in the Congo/Zaire, a country that is as big as all of Western Europe or the United States East of the Mississippi River. The World, though, is silent over 1.7 million deaths, a number larger than the Rwandan genocide in 1994. Why the silence? How come the American mainstream media has not raised hell or demanded action? Is this a repeat of the 1960 's when the American Government and its CIA engaged in covert operations to kill foreign heads of states and destabilize foreign governments that they did not like? What is happening in the Congo comes close to that. The 1.7 million Congolese have died with the financial, military and political blessings and help of the US Government, Western Europe (The Paris Club), and the mining Conglomerates. Who own the media outlets? Who finance the politicians ' campaigns? This book exposes, both in words and pictures, the genocide and humanitarian misery being directed by President Clinton, Europe and the companies that are enriching themselves over Congo 's mineral wealth. Because President Kabila of the Congo wants a fair deal for the wealth of his country, Clinton and the West don ' t like him. So he must be removed, like it was done to Patrice Lumumba in the 60 's. In this process, already 1.7 million Congolese have died. Would genocide, rape, and mutilations of the Congolese be President Clinton 's Congo Legacy?

Outstanding scholars of political communication examine President Clinton's campaign--his words, texts, and the dynamics of his ability to inspire the public as "the man from Hope."

The presidency of Bill Clinton has an intrinsic historical significance: a marker of generational change, as he was the first 'baby boomer' to reach the White House; the first president whose personal life received no less attention than his policies; and the first elected Democrat President to win re-election since Franklin Roosevelt. This book provides wide-ranging coverage of Clinton's career, addressing the salient aspects of Clinton's life in politics: his governorship; the 1992 presidential campaign; the battle for health care reform; his economic policies; the issue of character, including the Monica Lewinsky scandal; his foreign policy - specifically his role in the peace process in Northern Ireland and in authorizing an aerial war in Kosovo; his handling of the issue of gay rights; and his relationship with the Hollywood film industry. Based on the latest research, this volume provides important new perspectives on Clinton's life in politics. It will be essential reading for anyone interested in American History, Politics and International Relations.

Bill Clinton: A Biography

The Choice

The Clinton presidency is pivotal, occurring at a particularly sensitive time in American and world history. The Cold War has ended; yet Americans face daunting social and economic problems and are increasingly divided about how to address them. In this perceptive psychological portrait of Clinton and his presidency, expert Stanley Renshon investigates whether Clinton has demonstrated the requisite qualities of judgment, vision, character, and skill to meet the challenges he faces, domestically and internationally, and whether he merits another term. Renshon incisively analyzes Clinton's sweeping ambitions, his enormous confidence in himself and his goals, and his success in convincing people that he genuinely cares about them. He reveals a Bill Clinton whose capacity for political success is often undermined by the very traits for which many praise him. His unusually high self-confidence, for instance, leads him to believe that he can accomplish what others have not, that he can, for instance, reconcile polar opposites such as liberal Democrats and conservative Republicans. Remarkably persistent throughout Clinton's career are certain character traits which have defined him to the public--his tendency to make promises he can't keep, his ability to win people over in person, his sudden blind rages. Renshon traces the development of Clinton's character from his early family experiences to his highly successful adolescence and long political career. He illustrates how each step along the way--Clinton's inconsistent experiences as an adored but disregarded child, his attempt to avoid the draft and the consequences of doing so, his marriage to Hillary Rodham whose own psychology has both helped and hurt him, and his tenure as governor during which his character first became a political issue--is crucial to understanding his erratic and controversial presidency. Renshon explores the nature of the Clinton marriage as a political partnership and looks at Hillary Clinton as an associate president. High Hopes gives us a new understanding of why a man with so many talents has become a president whose performance has not measured up to his promise.

"A rich, believable portrait of a master politician out of office: needy, rivalrous, thin-skinned, proud, hot-tempered." —The New York Review of Books Updated in 2017 and hailed as, "engrossing...detailed and intimate" (Publishers Weekly), veteran political journalist Joe Conason's Man of the World brings you along with Bill Clinton, as the forty-second president blazes new paths in his post-presidential career. It is unlike the second career of any other president: "Bill Clinton" is a global brand, rising from the dark days of his White House departure to become one of the most popular names in the world. In his "deeply researched" (The New York Times Book Review) Man of the World, Joe Conason describes how that happened, examining Clinton's achievements, his failures, his motivations, and his civilian life. He explains why Clinton's ambitions for the world continue to inspire (and infuriate). Conason, who has covered Clinton for twenty years, interviewed him many times for this book—as well as Hillary and Chelsea and many of his friends, aides, rivals, and supporters. He has travelled with Clinton to Africa, Haiti, Israel, and across America. Conason's "often absorbing chronicle captures the energy and charisma of the former president as he...finds a mission in his

philanthropic work in Africa, Asia, and elsewhere" (Kirkus Reviews). Man of the World—starring the one and only Bill Clinton—tells the engrossing story of an extraordinary man who is still seeking to do good in the world.

"This book is a fascinating analysis of race and class in the age of President Bill Clinton. It provides much-needed clarity in regards to the myth of the 'First Black President.' It contributes much to our understanding of the history that informs our present moment!" —Cornel West As President Barack Obama was sworn into office on January 20, 2009, the United States was abuzz with talk of the first African American president. At this historic moment, one man standing on the inaugural platform, seemingly a relic of the past, had actually been called by the moniker the "first black president" for years. President William Jefferson Clinton had long enjoyed the support of African Americans during his political career, but the man from Hope also had a complex and tenuous relationship with this faction of his political base. Clinton stood at the nexus of intense political battles between conservatives' demands for a return to the past and African Americans' demands for change and fuller equality. He also struggled with the class dynamics dividing the American electorate, especially African Americans. Those with financial means seized newfound opportunities to go to college, enter the professions, pursue entrepreneurial ambitions, and engage in mainstream politics, while those without financial means were essentially left behind. The former became key to Clinton's political success as he skillfully negotiated the African American class structure while at the same time maintaining the support of white Americans. The results were tremendously positive for some African Americans. For others, the Clinton presidency was devastating. Brother Bill examines President Clinton's political relationship with African Americans and illuminates the nuances of race and class at the end of the twentieth century, an era of technological, political, and social upheaval.

Lt. Col. Robert "Buzz" Patterson exposes the terrifying, behind-the-scenes story of the years when the most irresponsible President in our history had his finger on the nuclear trigger. Dereliction of Duty is the inside story of the damage Bill Clinton did to the U.S. military and how he compromised our national security. From his laughable salutes, to his arrogant, anti-military staffers, the message came through loud and clear: the Clinton Administration had nothing but contempt for America's men and women in uniform. For two years, Patterson was the White House military aide who carried the "nuclear football," which provides the President with remote nuclear strike capabilities. What he witnessed is shocking. Dereliction of Duty is the book every American concerned about our national security has been waiting for—written by a military man who was an eyewitness inside the Clinton White House, and who can no longer in good conscience keep silent.

What makes Bill Clinton tick? William Jefferson Clinton, the 42nd President of the United States is undoubtedly the greatest American enigma of our age -- a dark horse that captured the White House, fell from grace and was resurrected as an elder statesman whose popularity rises and falls based on the day's sound bytes. John Gartner's In Search of Bill Clinton unravels the mystery at the heart of Clinton's complex nature and why so many people fall under his spell. He tells the story we all thought we knew, from the fresh viewpoint of a psychologist, as he questions the well-crafted Clinton life story. Gartner, a therapist with an expertise in treating individuals with hypomanic temperaments, saw in Clinton the energy, creativity and charisma that leads a hypomanic individual to success as well as the problems with impulse control and judgment, which frequently result in disastrous decision-making. He knew, though, that if he wanted to find the real Bill Clinton he couldn't rely on armchair psychology to provide the answer. He knew he had to travel to Arkansas and around the world to talk with those who knew Clinton and his family intimately. With his boots on the ground, Gartner uncovers long-held secrets about Clinton's mother, the ambitious and seductive Virginia Kelley, her wild life in Hot Springs and the ghostly specter of his biological father, Bill Blythe, to uncover the truth surrounding Clinton's rumor-filled birth. He considers the abusive influence of Clinton's alcoholic stepfather, Roger Clinton, to understand the repeated public abuse he invited both by challenging a hostile Republican Congress and engaging in the clandestine affair with Monica Lewinsky that led to his downfall. Of course, there is no marriage more dissected than that of the Clintons, both in the White House and on the Hillary Clinton presidential campaign trail. Instead of going down familiar paths, Gartner looks at that relationship with a new focus and clearly sees, in Hillary's molding of Clinton into a more disciplined politician, the figure of Bill Clinton's stern grandmother, Edith Cassidy, the woman who set limits on him at an early age. Gartner brings Clinton's story up to date as he travels to Ireland, the scene of one of Clinton's greatest diplomatic triumphs, and to Africa, where his work with AIDS victims is unmatched, to understand Clinton's current humanitarian persona and to find out why he is beloved in so much of the world while still scorned by many at home. John Gartner's exhaustive trip around the globe provides the richest portrait of Clinton yet, a man who is one of our national obsessions. In Search of Bill Clinton is a surprising and compelling book about a man we all thought we knew.

A key figure in the Clinton Impeachment proceedings uncovers the lies, corruption, and dirty deals underpinning the trial, arguing that both parties conspired to rig the outcome.

"Just as the necessary qualification for a good liar is a good memory, so the essential equipment of a would-be lie detector is a good timeline, and a decent archive." In *NO ONE LEFT TO LIE TO*, a New York Times bestseller, Christopher Hitchens casts an unflinching eye on the Clinton political machine and offers a searing indictment of a president who sought to hold power at any cost. With blistering wit and meticulous documentation, Hitchens masterfully deconstructs Clinton's abject propensity for pandering to the Left while delivering to the Right, and he argues that the president's personal transgressions were ultimately inseparable from his political corruption. Hitchens questions the president's refusals to deny accusations of rape by reputable women and lambasts, among numerous impostures, his insistence on playing the race card, the shortsightedness of his welfare bill, his ludicrous war on drugs, and his abandonment of homosexuals in the form of the Defense of Marriage Act. Opportunistic statecraft, crony capitalism, "divide and rule" identity politics, and populist manipulations—these are perhaps Clinton's greatest and most enduring legacies.

In this sequel to *Year of the Dog*, Pacy has another big year in store for her. The Year of the Dog was a very lucky year: she met her best friend Melody and discovered her true talents. However, the Year of the Rat brings big changes: Pacy must deal with Melody moving to California, find the courage to forge on with her dream of becoming a writer and illustrator, and learn to face some of her own flaws. Pacy encounters prejudice, struggles with acceptance, and must find the beauty in change. Based on the author's childhood adventures, *Year of the Rat*, features the whimsical black and white illustrations and the hilarious and touching anecdotes that helped *Year of the Dog* earn rave reviews and satisfied readers.

Bill Clinton, forty-second president of the United States, is the quintessential baby boomer: on the one hand blessed with a near-genius IQ, on the other, beset by character flaws that made his presidency a veritable soap opera of high ideals, distressing incompetence, model financial stewardship, and domestic misbehavior. In an era of cultural civil war, the Clinton administration fed the public an almost daily diet of scandal and misfortune. Who is Bill Clinton, though, and how did this baby-boom saga begin? Clinton's upbringing in Arkansas and his student years at Georgetown, Oxford, and Yale universities help us to see his life not only as a personal story but as the story of modern America. Behind the closed doors of the house on the hill above Park Avenue in Hot Springs, the struggle between Clinton's stepfather and mother became ultimately unbearable, causing Virginia to move out and divorce Roger Clinton. Dreading confrontation, Bill Clinton excelled in almost every field save athletics. But the fabled success of the scholarship boy would be marred by the decisions he came to make regarding Vietnam and military service—choices that haunt him to this day. We watch with a mixture of alarm, fascination, and awe as Bill Clinton does so much that is right—and so much that is wrong. He sets his cap for the star student at Yale, young Hillary Rodham, seducing her with his dreams of a better America and an aw-shucks grin. Wherever he goes, he charms and disarms—young and old, men and women...and more women. He becomes a law professor straight out of college; he contests a congressional election in his twenties—and almost wins it. He becomes attorney general of his state and within two years is set to become the youngest-ever governor of Arkansas, at only thirty-two. Yet, always, there is a curse, a drive toward personal self-destruction—and with that the destruction of all those who are helping him on his legendary path. His affair with Gennifer Flowers strains his marriage and later nearly scuttles his bid for the presidency. He is thrown out of the governor's office after only one term and suffers a life-shaking crisis of confidence. Though with the stalwart help of a female chief of staff he regains his crown, it is clear that Bill Clinton's charismatic career is a ceaseless tightrope walk above the forces that threaten to pull him down—the most potent of them residing in his own being. Imbued with sympathy, deep intelligence, and the storyteller's art, this extraordinary biography helps us, at last, to understand the real Bill Clinton as he stumbles and withdraws from the 1988 presidential nomination race but enters it four years later, to make one of the most astonishing bids for the presidency in the twentieth century: the climax of this gripping political, social, and scandalous journey.

The former president looks back on his life and career, discussing his youth and education, his early public service, his years as governor of Arkansas, and his accomplishments during two terms in the White House.

Eyewitness Account of How Bill Clinton Compromised America's National Security

The Inside Story

A Novel

President Clinton and the Politics of Race and Class

Great Expectations

Graphic Planet is bringing the Presidents of the United States to BioGraphics! World-class art presents young readers a pictorial chronology of Bill Clinton's life, background on his campaign to be president, major influences on the country, and his influence on history. A timeline, Fast Facts, the president's cabinet, and a glossary provide report information for young readers. Bring the Oval Office to your classroom!

From best-selling, award-winning biographer Nigel Hamilton, this is an insightful, prodigiously researched, and wonderfully readable account of Bill Clinton's first term in office. It shows how a well-meaning but naïve new president failed to assert true leadership in his first two years, and then illustrates how, in an astonishing act of self-reinvention, the president turned defeat into victory. *Bill Clinton: Mastering the Presidency* is a gripping tale of hubris and redemption—and a chronicle of one of the most dramatic reversals of fortune in modern American politics.

As America's first truly postmodern president, Bill Clinton experienced both great highs and stunning lows in office that will shape the future course of American politics. Clinton will forever be remembered as the first elected president to be impeached, but will his tarnished legacy have lasting effects on America's political system? Including the conflict in Kosovo, the World Trade Organization meeting in Seattle, and new developments in the 2000 presidential campaign, *The Postmodern Presidency* is the most comprehensive and current assessment of Bill Clinton's presidency available in print. The book examines Clinton's role in redefining the institution of the presidency, and his affect on future presidents' economic and foreign policies. The contributors highlight the president's unprecedented courtship of public opinion; how polls affected policy; how the president gained "celebrity" status; how Clinton's "postmodern" style of public presidency helped him survive the 1994 elections and impeachment; and how all of this might impact future presidents. This new text also demonstrates how the Clinton presidency changed party politics in the public and in Congress, with long-term implications and costs to both Republicans and his own Democratic party, while analyzing Clinton's effect on the 1990s "culture wars," the politics and importance of gender, and the politics and policy of race.

NEW YORK TIMES BESTSELLER The definitive account of one of the most

accomplished, controversial, and polarizing figures in American history Bill Clinton is the most arresting leader of his generation. He transformed American politics, and his eight years as president spawned arguments that continue to resonate. For all that has been written about this singular personality—including Clinton's own massive autobiography—there has been no comprehensive, nonpartisan overview of the Clinton presidency. Few writers are as qualified and equipped to tackle this vast subject as the award-winning veteran Washington Post correspondent John F. Harris, who covered Clinton for six of his eight years in office—as long as any reporter for a major newspaper. In *The Survivor*, Harris frames the historical debate about President William Jefferson Clinton, by revealing the inner workings of the Clinton White House and providing the first objective analysis of Clinton's leadership and its consequences. Harris shows Clinton entering the Oval Office in 1993 primed to make history. But with the Cold War recently concluded and the country coming off a nearly uninterrupted generation of Republican presidents, the new president's entry into this maelstrom of events was tumultuous. His troubles were exacerbated by the habits, personal contacts, and the management style, he had developed in his years as governor of Arkansas. Clinton's enthusiasm and temper were legendary, and he and Hillary Rodham Clinton—whose ambitions and ordeals also fill these pages—arrived filled with mistrust about many of the characters who greeted them in the "permanent Washington" that often holds the reins in the nation's capital. Showing surprising doggedness and a deep-set desire to govern from the middle, Clinton repeatedly rose to the challenges; eventually winning over (or running over) political adversaries on both sides of the aisle—sometimes facing as much skepticism from fellow Democrats as from his Republican foes. But as Harris shows in his accounts of political debacles such as the attempted overhaul of health care, Clinton's frustrations in the war against terrorism, and the numerous personal controversies that time and again threatened to consume his presidency, Bill Clinton could never manage to outrun his tendency to favor conciliation over clarity, or his own destructive appetites. *The Survivor* is the best kind of history, a book filled with major revelations—the tense dynamic of the Clinton inner circle and Clinton's professional symbiosis with Al Gore to the imprint of Clinton's immense personality on domestic and foreign affairs—as well as the minor details that leaven all great political narratives. This long-awaited synthesis of the dominant themes, events, and personalities of the Clinton years will stand as the authoritative and lasting work on the Clinton Presidency.

Inside the Presidency of Bill Clinton

42nd U.S. President

The Survivor

For the Arkansas native who would one day hold the most powerful position in the world, giving in to failure was never an option. Starting with the words above, let us take a look at the life of a man who has embodied what it means to fail and, after hard work, to rise again. William "Bill" Clinton, the 42nd president of the United States of America, led one of the most celebrated, candid, and colorful tenures in the White House. Serving the country as its commander-in-chief for two terms from 1993 to 2001, Clinton is a man whose successes and failures were witnessed close-up by the entire world. Best known for governing the country through its longest, most stable economic growth that led to low unemployment rates and budget surpluses, Clinton also focused on improving the quality of public education, upholding family time during times of illness, and promoting equal treatment towards people of different races and sexual preferences. The bright and charismatic leader is truly a history-maker - he is one of the youngest governors to be elected in America, the second Democratic President since Franklin Roosevelt to be elected a second term, and, more infamously, the first ever elected president to be impeached by the House of Representatives.

Don't miss the #1 New York Times bestselling thriller from the world's bestselling author, James Patterson: an "undeniably gripping ride through the hidden passageways of power and politics" that "moves like Air Force One" (Michael Connelly). The President Is Missing confronts a threat so huge that it jeopardizes not just Pennsylvania Avenue and Wall Street, but all of America. Uncertainty and fear grip the nation. There are whispers of cyberterror and espionage and a traitor in the Cabinet. Even the President himself becomes a suspect, and then he disappears from public view . . . Set over the course of three days, The President Is Missing sheds a stunning light upon the inner workings and vulnerabilities of our nation. Filled with information that only a former commander in chief could know, this is the most authentic, terrifying novel to come along in many years. #1 New York Times bestseller #1 USA Today bestseller #1 Wall Street Journal bestseller #1 Indie bestseller "President Duncan for a second term!" -- USA Today "This book's a big one." -- New York Times "Towers above most political thrillers." -- Pittsburgh Post-Gazette "The plotting is immaculate . . . the writing is taut." -- Sunday Times (London) "Ambitious and wildly readable." -- New York Times Book Review

A rocket ride of a thriller—the #1 New York Times bestselling blockbuster by President Bill Clinton and James Patterson, "the dream team" (Lee Child). All Presidents have nightmares. This one is about to come true. Every detail is accurate—because one of the authors is President Bill Clinton. The drama and action never stop—because the other author is James Patterson. Matthew Keating, a one-time Navy SEAL—and a past president—has always defended his family as staunchly as he has his country. Now those defenses are under attack. A madman abducts Keating's teenage daughter, Melanie—turning every parent's deepest fear into a matter of national security. As the world watches in real time, Keating embarks on a one-man special-ops mission that tests his strengths: as a leader, a warrior, and a father. The authors' first collaboration, The President Is Missing, a #1 New York Times bestseller and the #1 bestselling novel of 2018, was praised as "ambitious and wildly readable" (New York Times Book Review) and "a fabulously entertaining thriller" (Pulitzer Prize-winning author Ron Chernow).

The Presidency of Bill Clinton

First In His Class

The Unreported Stories

The Inside Story of President Clinton's Impeachment

The American President is an enthralling account of American presidential actions from the assassination of William McKinley in 1901 to Bill Clinton's last night in office in January 2001. William Leuchtenburg, one of the great presidential historians of the century, portrays each of the

presidents in a chronicle sparkling with anecdote and wit. Leuchtenburg offers a nuanced assessment of their conduct in office, preoccupations, and temperament. His book presents countless moments of high drama: FDR hurling defiance at the "economic royalists" who exploited the poor; ratcheting tension for JFK as Soviet vessels approach an American naval blockade; a grievously wounded Reagan joking with nurses while fighting for his life. This book charts the enormous growth of presidential power from its lowly state in the late nineteenth century to the imperial presidency of the twentieth. That striking change was manifested both at home in periods of progressive reform and abroad, notably in two world wars, Vietnam, and the war on terror. Leuchtenburg sheds light on presidents battling with contradictory forces. Caught between maintaining their reputation and executing their goals, many practiced deceits that shape their image today. But he also reveals how the country's leaders pulled off magnificent achievements worthy of the nation's pride.

Examines the types of charitable work done by individuals and nonprofit organizations to demonstrate how anyone can make a difference in society through the life-changing act of giving.

"An astonishing collection of 171 interviews with Clinton's friends, foes, admirers, and detractors as well as reporters and political analysts."—Booklist (starred review). Though Bill Clinton has been out of office since 2001, public fascination with him continues unabated. Many books about Clinton have been published in recent years, but shockingly, no single-volume biography covers the full scope of Clinton's life from the cradle to the present day, not even Clinton's own account, My Life. More troubling still, books on Clinton have tended to be highly polarized, casting the former president in an overly positive or negative light. In this, the first complete oral history of Clinton's life, historian Michael Takiff presents the first truly balanced book on one of our nation's most controversial and fascinating presidents. Through more than 150 chronologically arranged interviews with key figures—including Bob Dole, James Carville, and Tom Brokaw, among many others—A Complicated Man goes far beyond the well-worn party-line territory to capture the larger-than-life essence of Clinton the man. With the tremendous attention given to the Lewinsky scandal, it is easy to overlook the president's humble upbringing, as well as his many achievements at home and abroad: the longest economic boom in American history, a balanced budget, successful intervention in the Balkans, and a series of landmark, if controversial, free-trade agreements. Through the candid recollections of Takiff's many subjects, A Complicated Man leaves no area unexplored, revealing the most complete and unexpected portrait of our forty-second president published to date. "Packed with fascinating personal perspective and testimony."—Nigel Hamilton, bestselling and award-winning author of American Caesars

Chronicles the life of Bill Clinton from his childhood in Arkansas to his governorship of that state and his first term as president of the United States, including highlights from the 1996 presidential campaign.

How Bill Clinton Reengineered the Reagan Revolution

Bill Clinton: An American Journey

Running in Place

Bill Clinton: 42nd U.S. President

Double Trouble

The President Is Missing

A Thriller

This book uses hundreds of hours of newly opened interviews and other sources to illuminate the life and times of the nation's forty-second president, Bill Clinton. Combining the authoritative perspective of these inside accounts with the analytic powers of some of America's most distinguished presidential scholars, the essays assembled here offer a major advance in our collective understanding of the Clinton White House. Included are path-breaking chapters on the major domestic and foreign policy initiatives of the Clinton years, as well as objective discussions of political success and failure. 42 is the first book to make extensive use of previously closed interviews collected for the Clinton Presidential History Project, conducted by the Presidential Oral History Program of the University of Virginia's Miller Center. These interviews, recorded by teams of scholars working under a veil of strict confidentiality, explored officials' memories of their service with President Clinton and their careers prior to joining the administration. Interviewees also offered political and leadership lessons they had gleaned as eyewitnesses to and shapers of history. Their spoken recollections provide invaluable detail about the inner history of the presidency in an age when personal diaries and discursive letters are seldom written. The authors producing this volume had first access to more than fifty of these cleared interviews, including sessions with White House chiefs of staff Mack McLarty and Leon Panetta, Secretaries of State Warren Christopher and Madeleine Albright, National Security Advisors Anthony Lake and Sandy Berger, and a host of political advisors who guided Clinton into the White House and helped keep him there. This book thus provides a multidimensional portrait of Bill Clinton's administration, drawing largely on the observations of those who knew it best.

Who exactly is Bill Clinton, and why was he, of all the brilliant and ambitious men in his generation, the first in his class to reach the White House? Drawing on hundreds of letters, documents, and interviews, David Maraniss explores the evolution of the personality of our forty-second president from his youth in Arkansas to his 1991 announcement that he would run for the nation's highest office. In this richly textured and balanced biography, Maraniss reveals a complex man full of great flaws and great talents. First in His Class is the definitive book on Bill Clinton.

A British journalist well known to American conservatives offers a meticulously documented expose of corruption in the Clinton administration, revealing its criminal attempts to suppress evidence of other crimes and scandals from the president's

Arkansas years. IP.

Today we see little public outrage about Bill Clinton's misconduct. With enormous skill, the president and his advisors have constructed a defensive wall built of bricks left over from Watergate: diversion, half-truth, equivocation, and sophistry. It is a wall that has remained unbreached. Until now. In *The Death of Outrage: Bill Clinton and the Assault on American Ideals*, former cabinet secretary and bestselling author William J. Bennett dismantles the president's defenses, brick by evasive brick, and analyzes the meaning of the Clinton scandals: why they matter, what the public reaction to them means, and the social and political damage they have already inflicted on America. For, despite Bill Clinton's position in public opinion polls, the most persuasive public arguments made by the president's supporters wither under the clear light of moral reason and common sense. *The Death of Outrage* exposes the fallacious and demeaning logic that argues our economic well-being is the only important measure of presidential performance; torpedoed the deep but wholly unexamined respect for European sophistication about "private matters"; and explains why the president's troubles are not the result of a "vast, right-wing conspiracy," but are the result of his own doings. *The Death of Outrage* shows how the president's actions, far from being irrelevant to the conduct of his affairs, have severely restricted his ability to govern. The unprecedented recklessness of the Clinton administration in everything from influence peddling to sexual misconduct to alarming tactics of intimidation. How the president and his defenders have exploited the natural tolerance of the American people -- and made a mockery of the rule of law. Why the Clinton scandals -- from the Travel Office, to Filegate, to the Rose Law Firm billing records, to the Lewinsky Affair -- are neither a creation of the tabloid press, nor independent of one another. Bill Bennett explains why presidential character matters; why allegations of sexual misconduct need to be taken seriously; why reasoned judgment is the mark of a healthy democracy; and why the ends don't justify the means. Explosive and hard-hitting, powerful in its logic, carefully reasoned in its conclusions, *The Death of Outrage* is directed at a shameful chapter of American history. It is an urgent call for American citizens to repudiate the deep corruption of Bill Clinton, and the corrupting arguments made in his defense.
