It's 1984, and after an unexpected pregnancy, assistant professor Sophia Shulder learns that her newborn baby has Down syndrome and life-threatening anomalies that require immediate risky surgeries. Under pressure to give consent, Sophia is not sure whether that is best for her baby, or for herself. The hospital, threatened by the Reagan administration's new "Baby Doe" laws, launches legal proceedings to force surgery. Is a severely disabled baby's death ever preferable to life? Who decides?

A shoe-in read for fans of Ellery Adams and Kate Carlisle, *On Borrowed Crime* is the first in Kate Young's new Georgia-set, sweet tea filled, Jane Doe Book Club mysteries. The Jane Doe book club enjoys guessing whodunit, but when murder happens in their midst, they discover solving crimes isn't fun and games... Lyla Moody loves her sleepy little town of Sweet Mountain, Georgia. She likes her job as receptionist for her uncle's private investigative firm, her fellow true crime obsessed Jane Doe members are the friends she's always wanted, and her parents just celebrated their fiftieth wedding anniversary. But recently, with her best friend Melanie on vacation, and her ex-boyfriend and horrible cousin becoming an item and moving in next door to her, her idyllic life is on the fritz. The cherry on top of it all is finding Carol, a member of the club, dead and shoved into a suitcase, left at Lyla's front door. Unusual circumstances notwithstanding, with Carol's heart condition, the coroner rules Carol's death undetermined. But when they discover the suitcase belongs to Melanie, who had returned from her vacation the following morning, Sweet Mountain police begin to suspect Lyla's best friend. Determined that police are following the wrong trail, to clear her friend's name, and to not allow Carol become one of the club's studied cold cases, Lyla begins to seek out the real killer. That is, until she becomes the one sought after. Now, finding the truth could turn her into the killer's next plot twist, unless she wins the game of cat and mouse.

My Name Is Jane Doe

This sequel to Grammy-nominated bestseller *Under the Big Black Sun* continues the up-close and personal account of the L.A. punk scene—and includes fifty rare photos. Picking up where *Under the Big Black Sun* left off, *More Fun in the New World* explores the years 1982 to 1987, covering the dizzying pinnacle of L.A.'s punk rock movement as its stars took to the national—and often international—stage. Detailing the eventual splintering of punk into various sub-genres, the second volume of John Doe and Tom DeSavia's west coast punk history portrays the rich cultural diversity of the movement and its characters, the legacy of the scene, how it affected other art forms, and ultimately influenced mainstream pop culture. The book also pays tribute to many of the fallen soldiers of punk rock, the pioneers who left the world much too early but whose influence hasn't faded. As with *Under the Big Black Sun*, the book features stories of triumph, failure, stardom, addiction, recovery, and

loss as told by the people who were influential in the scene, with a cohesive narrative from authors Doe and DeSavia. Along with many returning voices, *More Fun in the New World* weaves in the perspectives of musicians Henry Rollins, Fishbone, Billy Zoom, Mike Ness, Jane Weidlin, Keith Morris, Dave Alvin, Louis Pérez, Charlotte Caffey, Peter Case, Chip Kinman, Maria McKee, and Jack Grisham, among others. And renowned artist/illustrator Shepard Fairey, filmmaker Allison Anders, actor Tim Robbins, and pro-skater Tony Hawk each contribute chapters on punk's indelible influence on the artistic spirit. In addition to stories of success, the book also offers a cautionary tale of an art movement that directly inspired commercially diverse acts such as Green Day, Rancid, Red Hot Chili Peppers, Wilco, and Neko Case. Readers will find themselves rooting for the purists of punk juxtaposed with the MTV-dominating rock superstars of the time who flaunted a "born to do this, it couldn't be easier" attitude that continued to fuel the flames of new music. *More Fun in the New World* follows the progression of the first decade of L.A. punk, its conclusion, and its cultural rebirth.

This book was written to aid quality technicians and engineers. It is a result of 30 years of quality-related work experience. To that end, the intent of this book is to provide the quality professional working in virtually any industry a quick, convenient, and comprehensive guide to properly conducting design of experiments (DOE) for the purpose of process optimization. This is a practical introduction to the basics of DOE, intended for people who have never been exposed to design of experiments, been intimidated in their attempts to learn about DOE, or have not appreciated the potential of this family of tools in their process improvement and optimization efforts. In addition, this book is a useful reference when preparing for and taking many of the ASQ quality certification examinations, including the Certified Quality Technician (CQT), Certified Six Sigma Green Belt (CSSGB), Certified Quality Engineer (CQE), Certified Six Sigma Black Belt (CSSBB), and Certified Reliability Engineer (CRE).

Benefits and Costs Should Be Better Understood Before Doe Commits to a Separate Repository for Defense Waste

The History of Jane Doe

Nuclear Waste

Under the Big Black Sun

A Novel

DOE/FERC.

In her pulchritudinous prime Baby Doe was called the Silver Queen of Colorado by journalists and "that shameless hussy" by the proper wives of the men who eyed her. Flirtatious, adventurous, ambitious, Elizabeth McCourt Doe gave everyone a lot to talk about when she met Horace Tabor, the Silver King of Leadville, in 1880. Three years later they were free to legalize their passion. Although thirty years separated them, they were well matched in romantic recklessness. If *The Legend of Baby Doe* is the lowdown on the high jinks of two public lives, it is also the story of a love that survived spectacularly good times and bad. Before bad times came, Baby and Horace went on a spending spree. They built an opulent opera house in Denver and bought an Italian-ate villa. Baby Doe went out bejeweled and ermined, and sat at home alone, snubbed by the social dragons. John Burke has written about the giddy rise of a bonanza king who dreamed of entering the White House with Baby Doe on his arm and about the disastrous fall they took together. Wiped out by unwise investments and the Panic of 1893, Tabor soon died, leaving Baby Doe and their two daughters penniless. Reportedly, his deathbed order was to "hang on to the Matchless," a played-out mine filled with water. She managed to do that for almost four decades, struggling heroically against loneliness, poverty, and heartbreak, and becoming one of the great legends of the American West.

Doe began as author Aimée Baker's attempt to understand and process the news coverage of a single unidentified woman whose body was thrown from a car leaving Phoenix, Arizona. It soon grew into a seven-year-long project with the goal to document, mourn, and witness the stories of missing and unidentified women in the United States.

The Unmaking and Legacy of L.A. Punk

Book Two

Waste cleanup status and implications of DOE's compliance agreements.

A double life with a single purpose: revenge. Jane's days at a Midwest insurance company are perfectly ordinary. She blends in well, unremarkably pretty in her floral-print dresses and extra efficient at her low-level job. She's just the kind of woman middle manager Steven Hepsworth likes--meek, insecure, and willing to defer to a man. No one has any idea who Jane really is. Least of all Steven. But plain Jane is hiding something. And Steven's bringing out the worst in her. Nothing can distract Jane from going straight for his heart: allowing herself to be seduced into Steven's bed, to insinuate herself into his career and his family, and to expose all his dirty secrets. It's time for Jane to dig out everything that matters to Steven. So she can take it all away. Just as he did to her.

Lionel and Anisa are the best of friends and have seen each other through some pretty tough times--Anisa's dad died and Lionel's dad left, which is like a death for Lionel. They stick together no matter what. So when Lionel suggests a detour through a local construction site on their way home, Anisa doesn't say no. And that's where Lionel and Anisa make a startling discovery--a baby abandoned in a port-o-potty. Anisa and Lionel spring into action. And in saving Baby Doe, they end up saving so much more. Danette Vigilante crafts an accessible, heartfelt and much needed story for the middle grade market featuring Latino characters.

Baby Doe

The White Doe; The Fate of Virginia Dare; An Indian Legend

John Doe and his infant daughter, Jane, appeared on the steps of the Manor the night the earthquakes started and the gateway to the Otherworlds closed. The people on the remote island of Bluehaven have despised them ever since, blaming Jane and her father for their exile. Fourteen years after that night, the largest earthquake yet strikes. The Manor awakens, dragging John into its labyrinth. Accompanied by a pyromaniac named Violet and a trickster named Hickory, Jane must rescue her father and defeat an immortal villain who is trying to harness the mythical power of the Manor.

DOE had long planned to store defense and commercial nuclear waste in a single repository at Yucca Mountain, Nevada, funded largely from commercial power fees. In 2010, DOE terminated this plan, and then considered developing separate defense and commercial repositories. This approach requires a Presidential finding under the NWP. In 2015, DOE provided information to the President supporting separate repositories and cited several benefits, including cost efficiencies. On the basis of this information, the President in 2015 reversed a 1985 presidential finding and determined that a separate repository for defense waste was required, setting DOE down the path of developing separate repositories.

Taxpayers would likely fund a defense waste repository rather than industry fees. GAO reviewed DOE's efforts to develop a separate defense waste repository. This report assesses (1) the information on benefits DOE provided to the President; (2) the reliability of DOE's cost and schedule estimates; and (3) DOE's efforts to site a defense HLW repository. GAO reviewed DOE documents and interviewed more than 50 experts.

The Legend of Baby Doe

Energy and Water Development Appropriations for 1999: Department of Energy, Environmental management and commercial waste management

A Personal History of L.A. Punk

Nuclear Nonproliferation

Review of DOE's Compliance with Environmental Laws in Managing Its Hazardous and Mixed Radioactive-hazardous Wastes

In response to a request from Congress, the U.S. Department of Energy (DOE) asked the National Academies to evaluate its plans for managing radioactive wastes from spent nuclear fuel at sites in Idaho, South Carolina, and Washington. This interim report evaluates storage facilities at the Savannah River Site in South Carolina, with a particular focus on plans to seal the tanks with grouting. The report finds that tanks at the site do not necessarily need to be sealed shut as soon as the bulk of the waste has been removed.

Postponing permanent closure buys more time for the development and application of emerging technologies to remove and better immobilize residual waste, without increasing risks to the environment or delaying final closure of the "tank farms." The report also recommends alternatives to address the lack of tank space at the site, as well as the need for focused R&D activities to reduce the amount and improve the immobilization of residual waste in the tanks and to test some of the assumptions used in evaluating long-term risks at the site.

Renewable energy DOE's funding and markets for wind energy and solar cell technologies : report to Congressional requesters

Startling, incisive and surprisingly funny, this is the true story of a woman who challenged stereotypes, the justice system, the police -- and won. On an August night in 1986, Jane Doe became the fifth reported woman raped by a sexual serial predator dubbed the Balcony Rapist. Even though the police had full knowledge of the rapist ' s modus operandi, they made a conscious decision not to issue a warning to women in her neighbourhood. Jane Doe quickly realized that women were being used by the police as bait. The rapist was captured as a result of a tip received after she and a group of women distributed 2,000 posters alerting the community. During the criminal proceedings, Jane Doe became the first raped woman in Ontario to secure her own legal representation -- allowing her to sit in on the hearings instead of out in the hall where victim-witnesses are usually cloistered. As a result, Jane heard details of the police investigation normally withheld from women in her position, which revealed a shocking degree of police negligence and gender discrimination. When the rapist was convicted, the comfort was cold. In 1987, Jane Doe sued the Metropolitan Police Force for negligence and charter violation. It took eleven long years before her civil case finally came to trial -- the rest is history. This extraordinary book asks the difficult question: Who benefits from rape? Popular ideas about rape still inform the way police and society behave around raped women. Despite decades of trying to rewrite the myths, the myths still exist, and they tell us that women lie about rape, that women enjoy it, that women file false rape reports to seek revenge and money. They tell us rape can be non-violent. They tell us that women can make good or bad rape victims or that women cannot be raped at all. They tell us nonsense -- and Jane Doe gives us a unique view on why. This is a book about rape that is not about being a " victim. " It ' s about a woman who wanted to ensure that she, the person most involved, directed her case and the course of her life. It ' s about external elements colliding to provide a small window of redress for women who experience crimes of violence. Jane Doe was a test case -- the right woman in the wrong place at the right time -- and she made legal history. In The Story of Jane Doe, she asks us to challenge our own assumptions about rape and, in the process, surprises us with a story that is by turns sweet, tragic and fantastical. But most of all, this book celebrates what is most common in human nature -- our ability to overcome. " Rape stories are not new stories. They are as old as war, as old as man. Many bookstores have sections devoted to them, and I read them. I read them " before, " too. I have found most rape stories to be either chronicles of fear and horror, victim tales that make me want to run screaming from the page (although I do not). Or they are dry, academic or legal treatises on why rape is bad, written in language I must work to understand. Both are valid. But both somehow limit me from reaching a broader understanding . . . No book has ever reflected my lived experience of the crime. " -- Jane Doe

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Nuclear Safety : Safety Analysis Reviews for DOE's Defense Facilities Can be Improved

An Anniversary Tribute in Memory of Harriet Louise Doe Sackett. March Twenty-seventh, 1893

Saving Baby Doe

Nuclear Materials

Perfect for fans of Ellery Adams and Kate Carlisle, the members of the Jane Doe Book Club are on the case as Kate Young's peachy-keen Georgia-set mystery series comes back for seconds. What better time than Halloween to dig into a bracing discussion of a diabolical murder mystery? And what better choice for the Jane Doe Book Club than Agatha Christie's Crooked House? Lyla Moody and her friends are soon embroiled in debate over whether the heroine's actions are particularly believable. But not long after the meeting, sleepy Sweet Mountain, Georgia, is rocked by a murder that uncannily echoes the novel in question. When Lyla and her grandmother arrive at the charity event that Lyla's mother is hosting, they barely have time to hang up their fall jackets before they stumble upon a body in the library. Leonard Richardson, it seems, was robbed and then hit over the head with a brass candlestick--which throws suspicion on Harper Richardson, his young widow and a friend of the Jane Does. Lyla and the rest of the Jane Does pool their prodigious intellects to clear Harper's name. Peculiarly, all of the clues seem to have been lifted directly from the plot of Crooked House. But as Lyla probes the pages of Christie's classic whodunnit for hints on catching the killer, she uncovers secrets from her mother's past--secrets that suggest that Lyla's own house may be crooked as well.

A poignant, deeply funny coming-of-age story about first love, first loss, and the power of history to give life meaning. * "[An] impressive debut...John Green fans will gobble this one up." -- Kirkus, starred review History buff Ray knows everything about the peculiar legends and lore of his rural Connecticut hometown. Burgerville's past is riddled with green cow sightings and human groundhogs, but the most interesting thing about the present is the new girl--we'll call her Jane Doe. Inscrutable, cool, and above all mysterious, Jane seems as determined to hide her past as Ray is to uncover it. As fascination turns to friendship and then to something more, Ray is certain he knows Jane's darkest, most painful secrets and Jane herself--from past to present. But when the unthinkable happens, Ray is forced to acknowledge that perhaps history can only tell us so much. Mixing humor with heartache, this is an unmissable coming-of-age story from an exciting new voice in YA.
