Please note that the content of this book primarily consists of articles available from Wikipedia or other free sources online. Pages: 191. Chapters: Mitt Romney, Ronald Reagan, Hillary Rodham Clinton, Thomas Jefferson, George S. Patton, Douglas MacArthur, Clint Eastwood, Ulysses S. Grant, Michael Phelps, Woodrow Wilson, Marilyn Monroe, Eminem, Newt Gingrich. Excerpt: Willard Mitt Romney (born March 12, 1947) is an American businessman who served as the 70th Governor of Massachusetts from 2003 to 2007. He was the Republican Party's nominee for President of the United States in the 2012 election. Raised in Bloomfield Hills, Michigan, by his parents Lenore and George W. Romney, Mitt Romney spent two and a half years in France as a Mormon missionary starting in 1966. He married Ann Davies in 1969, with whom he has had five children. By 1971, Romney had participated in the political campaigns of both his parents. In that year, he earned a Bachelor of Arts at Brigham Young and in 1975, a joint Juris Doctor and Master of Business Administration at Harvard. Romney then entered the management consulting industry and in 1977 he secured a position at Bain & Company. Later serving as its chief executive officer, he helped lead the company out of financial crisis. In 1984, he

cofounded and led the spin-off company Bain Capital, a highly profitable private equity investment firm that became one of the largest of its kind in the nation. His considerable net worth, estimated in 2012 at \$190-250 million, helped finance his prior political campaigns. Active in The Church of Jesus Christ of Latter-day Saints, Romney served during his business career as the bishop of his ward (head of his local congregation) and then stake president in his home area near Boston. After stepping down from Bain Capital and his local leadership role in the church, he ran as the Republican candidate in the 1994 Massachusetts election for U.S. Senate. Upon losing to longtime incumbent Ted Kennedy, he... Mitt Romney is smart, principled and he knows how to crunch numbers which is why the Republican party sees him as the Great White Hope in the 2012 presidential election. How Mitt Romney got to frontrunner status on the political right is the subject of Bluewater Productions Political Power: Mitt Romney.

Thanks to Citizens United, campaign finance is drastically different in the the current electoral climate. 2012 will mark the first election since 1972 in which presidential candidates do not accept matching government funds. Both parties' candidates will be able to raise and spend as much money as they possibly can. Candidate Mitt Romney's staggering wealth and the record campaign expenditures predicted for this election makes him an influential player in this new era.

Mitt Romney A Short Unauthorized Biography

An Insider's Account

Crisis, Leadership, and the Olympic Games

Evaluates how the Mormon faith has shaped the political beliefs of the former Massachusetts governor and prospective Republican presidential candidate, identifying the ways in which his faith may be used to discredit his fitness for the presidency.

The funniest political satire in the universe - or at least for election 2012. Mitt Romney really is too weird to be President. This quick read takes a hilarious, satirical and informative romp through the mind of this Presidential wanna-be. There is something afoul with Mitt when Hitler ends up in heaven, Afro-American's are thought to be cursed by Cain (and really how many minority members does Mitt Romney have? I can count them on one hand even if four fingers are cut off); Women give men power with God by having kids; and a half dozen kooky ideas that form the vows of this HIGH PRIEST of MORMONISM Mitt "High Priest" Romney...sigh Sacred Magic Underwear? Yeah, I'm not making that one up. Its real if your Mormon, and Mitt wears it night and day if he's a good Mormon. This is just the beginning of the weird. This outlandish book is merely a faint reflection that is the weirdness of this candidate. Enjoy a laugh. Consider your voting options carefully. And know that Mitt Romney really is a weirdo. If your are weighing your options as an independent voter, this really is the book for you. Its short, fast and entertaining look under the skull-cap of Mitt Romney.

Randy Johnson's *Forced Reckoning* delves into politics, labor issues, family struggles, and wealth inequity. The resounding message proved throughout the book is: You can achieve great things through commitment, change and a drive to do better things with your life. Johnson details his link to Mitt Romney, and discusses Romney's mega-bucks business dealings during a time when Johnson's co-workers and their families felt the stinging burden of crippling job losses brought on by corporate greed. Inspired by his initial successes during this time, Johnson went on to fight for these families for more than two decades, becoming one of Mitt Romney's most vocal opponents. Johnson became involved with Senator Ted Kennedy's re-election campaign in 1994, and went on to be a part of the greatest Presidential campaign of our time, which ended with President Barack Obama's re-election in 2012. From humble beginnings, Johnson went on to become a family man, political campaigner, union leader, author and speaker. Today, Randy Johnson considers himself blessed and wishes to pass along what he's learned to the next generation through his new career as a motivational speaker and consultant.

The 2012 race for the White House is racing along at full tilt. Mitt Romney is widely assumed to be the front-runner for the Republican nominee. Question is, can he hold the lead? Ron Scott provides the first independent (unauthorized) biographical profile of the possible Republican nominee. Mitt

Romney takes a frank and revealing look at what makes Mitt the man tic, more human than he often appears to be on the stump: his character, convictions, his words and actions, yes his flips and his flops too, and, his triumphs and setbacks. It will also attempt to answer the question everyone is asking: Can a faithful Mormon really win his party's nomination and then upset the popular if now struggling, incumbent President, Barack Obama? Drawing on extensive research amassed over more than two decades, including interviews with people who know him best—allies and adversaries alike—this book will paint a savvy, textured, and revealing portrait of the candidate, his history, family, religion, political beliefs, and strategy. It will put Mitt in context like no other book to date.

In what the Washington Post has called "the scoop of the century," the author and political operative John Sedgwick discovered Mitt Romney's secret tell-all memoir in the Romney family vault in the basement of the Mormon tabernacle built in 1867 by Mitt Romney's great grandfather. Never intended for publication, DREAMS FROM MY FATHER, OKAY? lays out, for the first time, aspects of the Romney psyche that have long been baffling mysteries. Among them: Romney's reservations about his Mormon faith, his troubled marriage, his tortured relationship with his father, his insatiable political ambitions, his sexual hang-ups, and his abiding hatred for his dog, Seamus. Fiercely controversial, this work has become the center of an intense legal dispute that is likely to take years to resolve. The book's many revelations have already been seized on by both presidential campaigns, and the memoir seems destined to be a pivotal issue in the fall election. "Amazing in its way, but nowhere near as good as mine." President Barack Obama, author of Dreams From My Father. "I always thought the guy was nuttier than a barrel full of pecans—but now I know I was wrong. It's two barrels." James Carville, political consultant, author of Had Enough? A Handbook for Fighting Back "If you believe his memoir, as I do, Mr. Romney is utterly preposterous. If I were to ask, which is the least ridiculous thing about him--his religion, his politics, his character, or his dog, no one would doubt the answer." Mark Twain, author of Huckleberry Finn.

It's liberals versus conservatives, Democrats versus Republicans, BLUE versus RED in this year's high stakes Rock 'Em Sock 'Em robots-style election. Who will get knocked off his block? Only time will tell, but until then, "Political Power: Romney Obama 2012" offers an extensive look at the backgrounds of both candidates.

American People of Scottish Descent

The Mormon Quest for the Presidency

Behind the Mask

Republican Billionaires attempted to buy the 2012 US Election for their GOP Presidential, Senate and House of Representative candidates. Committed to spending billions of dollars, they took lies and made them bigger by repeating them over and over and over again until they became truth. They outspent the President's campaign 4:1 in the hopes of delivering complete control of the US government to their party and the Supreme Court's Citizen's United decision equating money with corporate personal speech made it all possible. We knew this was coming and everyone braced for it. What no one expected was the Right Wing freak show the campaign would devolve into. There was a total ideological lunacy to this campaign. This book traces the election from the GOP primaries where 7 dwarfs kicked things off through the ongoing War on Women, contraception, abortion, Hispanics, Blacks, the elderly and indeed everyone in the 99%. The GOP stopped shading language, became blatantly racist and xenophobic and tried everything in its power to suppress the vote in 2012, including passing laws and rules designed to intimidate and confuse voters. It was a conservative ideological culture war broadcast live in:30 attack adverts. Money was speech and power... until the wheels fell off the train because no amount of money could make the Republicans fall in love with their nominee Mitt Romney and, just as Democrats learned

in 2004 with George W. Bush, their pure hatred (we call it Obama Derangement Syndrome) of the president, was not enough to convince voters. British/American journalist and author Denis G. Campbell takes you on a detailed ride of each step along the 2012 US Presidential Billionaire Boys Freak Show from frigid February primaries through the conventions. He wrote four e-books during the campaign and this is the compendium of them in print. Discusses eleven Mormons who ran for president--including Joseph Smith, George Romney, Morris "Mo" Udall, Orrin Hatch, and Mitt Romney, and Jon Huntsman Jr. There aren't too many people who have earned simultaneous Juris Doctor and MBA degrees from Harvard. Mitt Romney is one of them. But he has always liked the toughest challenges. He first made a name for himself as the brilliant turnaround miracle worker from Bain Capital. And he's the one who turned the debt-ridden, scandal-plagued 2002 Olympics into a marvelous success. Now he is campaigning to be our next president. He is a staunch advocate of free market economics and a devoted husband and father who believes in traditional values. Can he win? Will voters give him the chance to apply his management proficiency to our federal government? Authors Lisa Ray Turner and Kimberly Field examine Mitt Romney as a man of incredible ability and driving energy. They examine his history, his policies, his alleged flip-flopping, and particularly the controversy surrounding his religion. As a team, they offer a unique perspective on this last issue: Lisa is LDS (Mormon), and Kim is an evangelical Christian. You'll find their insights fascinating. This book seeks to address the question of

how we should understand the impact of Mitt Romney's faith in the 2012 election. As the first Mormon to earn a presidential nomination from a major party, the book provides a comprehensive study of Romney's historic candidacy.

An Inside Look at the Man and His Politics
Why Presidential Candidates Are Funny
Political Power: Mitt Romney

A Political Biography on Mitt Romney's Dad
The Case for American Greatness

Secrets of the Mormon Church

Recounts the life and career of the former governor of Massachusetts and presidential candidate.

The #1 New York Times bestseller about putting America back in the lead and building a better future from former US Presidential Candidate and 2018 Utah Senate Candidate. In *No Apology*, Mitt Romney asserts that American strength is essential—not just for our own well-being, but for the world's. Nations such as China and a resurgent Russia threaten to overtake us on many fronts, and violent Islamism continues its dangerous rise. In the face of such challenges, America need not apologize for its liberties, but must use them wisely. We need renewal: fresh ideas to cut through complicated problems and restore our strength. Creative and bold, Romney proposes solutions to restore economic vitality, create good jobs, reduce out-of-control spending on entitlements and health care, dramatically improve education, and rebuild a military battered by years of war. Most important, he calls for a new commitment to citizenship, a common cause we all share, rather than a laundry list of individual demands. Many of his solutions run counter to Republican thinking, but all have one strategic aim: to strengthen America and preserve our global leadership. Personal and dynamically argued, *No Apology* is a call to action by a man who cares deeply about America's history, its promise, and its future.

Turnaround

The Mormon Faith of Mitt Romney

Mitt Romney and the Gop War on Women, the 99%, Truth, Hispanics, Blacks, Elderly and Youth

If you've ever heard a Catholic, Blond, Italian, Irish, Blond, Libyan, Mexican, Polish, Australian, Norwegian, or an Essex Girl, Newfie, Mother-in-Law, or joke aimed at a minority, this book of Mitt Romney jokes is for you. In this not-so-original book, *The Best Ever Book of Mitt Romney Jokes; Lots and Lots of Jokes Specially Repurposed for You-Know-Who*, Mark Young takes a whole lot of tired, worn out jokes and makes them funny again. The book of Mitt Romney jokes is so unoriginal, it's original. And, if you don't burst out laughing from at least one Mitt Romney joke in this book, there's something wrong with you. This book has so many Mitt Romney jokes, you won't know where to start. For example: Why does Mitt Romney wear slip-on shoes? You need an IQ of at least 4 to tie a shoelace. ***How do you tell if it is really cold outside? Mitt Romney has his hands in his own pockets. ***Mitt Romney: "My dog fell down a hole and I had to shoot him." His cousin: "Did you shoot him in the hole?" Mitt Romney: "No, in the head." ***What do you have when Mitt Romney is buried up to his neck in sand? Not enough sand. ***What's a definition of disappointment? A bus with Mitt Romney and her relatives going off the edge of a cliff—with one empty seat. The information in this book goes much deeper than the unveiling of Mitt Romney's political record. For the first time in history, we could see a Mormon President at the helm. Do you have any idea what this possible next President believes? Why should his religious beliefs matter to you?

When you get through Part I of this book, these questions will be answered. This is NOT a Kennedy Catholic moment. Mitt Romney's beliefs and convictions are so uncanny that you will most assuredly question his judgment to be in charge of the highest office in the land. If Part I does not shake you, Part II will, by exposing the reality of what Romney has "done" in his political career, versus the conservative façade that we are led to believe. Will his rhetoric match his deeds as President? One look at his record herewith will cause great concern. Now that the 2012 election is over, this book is very important because there will be another Mormon running for the White House and Part I of this book applies to any person running for public office (or the Presidency) who is deceived through Mormonism, and what it can mean to the citizens of our great nation. THERE IS A MORMON PLAN FOR AMERICA and the Mormon Church will unceasingly and relentlessly fight to get as many Mormons placed into all Government offices, including, yet again, The Office Of The Presidency, to fulfill its mission to rule, hand and hand with Jesus Christ, as the Government of Mormonism throughout the entire world. In this timely book, the author uncovers the history, teachings and practices of the Latter-day Saints, compares them to evangelical Christian beliefs and challenges former Massachusetts governor and presidential candidate Mitt Romney to be open and transparent about his beliefs and its implications if he is elected president.

As Helen D. Newton will attest, most people know very little about the Mormon Church. From the misconception that the Church is

Christian to the widely publicized rumors of racism, the Latter Day Saints, one of the largest denominations is steeped with mystery. Now, for the first time ever, the teachings and practices of the Mormon Church are thoroughly investigated in, *Secrets of the Mormon Church: Are These Mitt Romney's Beliefs?* The book exposes the author's investigation into rumors surrounding race and racism within the Church. When the truth becomes apparent, both conflict and triumph ensue. Readers are taken on a journey into the author's own travels as she sojourns to find the truth in a spirit of resistance and resilience. Ultimately, she uncovers secrets that pale in comparison to the rumored racism. "I believe that it is important to know what you are actually joining when you become a member of this church" explains Newton, who admits that she too was misinformed before becoming acquainted with the denomination's true character. Continuing, "The American people need to know as much as possible about the Mormon Church." The Church has become the topic of much debate following Mitt Romney's successful nomination bid. Newton believes that, while the public is more aware of the Church's presence than ever before, Americans deserve an opportunity to discover the real facets of its teachings and culture. "From the beginning of this election cycle, even the Republicans have been slow to embrace Mitt Romney but most were not sure why. It was just a feeling. Perhaps this book will inspire some who are politically gifted to connect some of the dots in uncovering a longstanding plan on the part of the Mormon Church to control this country" she adds. Written for Mormons, theologians, politicians and those who

simply aspire to know the truth, Newton's work is poised to both inspire and inform those who boast an open mind. *Secrets of the Mormon Church: Are These Mitt Romney's Beliefs?* is a must read before the coming elections.

10 Things Every Conservative Should Know About Mitt Romney

Side-by-Side Issue Stances of Gov. Mitt Romney (R, MA) and Pres. Barack Obama (D, IL)

Mitt Romney for President

Presents a graphic biography of the businessman and former Massachusetts governor who campaigned for the Republican nomination for president in both 2008 and 2012.

Republican presidential candidate Mitt Romney has articulated his vision for America's future in an election-year tumult of campaign speeches and media interviews; now, this essential collection of Romney's direct quotes, past and present, is an invaluable primer that crystallizes his stance on domestic and social issues; national security; the economy; health care; and much more. Here, too, are his comments on his personal life, family, and faith—key insights into the man himself, in his own words. "I do not define my candidacy by my religion. A person should not be elected because of his faith nor should he be rejected because of his faith." ("Faith in America" speech, 2007) "We're the party of opportunity. We're the party of keeping taxes down. We're the

party that want people to have choice in their schools and choice in their health care." (This Week with George Stephanopoulos, 2009) "When I was a little kid, there used to be the ditty that went around: first comes love, then comes marriage, then comes the baby in the baby carriage. Today that idea is foreign to some kids." (The Charlie Rose Show, 2006) "The older I get, the smarter Dad is. I pattern myself like him—his character, his sense of vision, his sense of purpose." (Time, 2007) "America has been a force for good like no other in the world, and for that, we will make no apology." (Values Voter Summit, 2010)

The head of the 2002 Salt Lake City Winter Olympics organizing committee describes how he assumed the leadership of the troubled organization and turned it around to present one of the most successful Olympic Games ever.

Mitt Romney had an ideal role model mentor. His father George Romney was three-term Governor of Michigan, Secretary of HUD, during the Nixon administration and sought the Republican Nomination for President in 1968. This book was first published 45 years ago but it remains the best cogent compelling and most complete study of Governor George Romney. If you want to get to know and understand Mitt Romney, you can trace the straight lines from the father to son. Both men wanted to be President. This one, may be destined to reside in the Whitehouse.

Political Profiles

Scientific Essay from the year 2012 in the subject Politics - International Politics - Region: USA, grade: A+, Boise State University, course: Communication 466, language: English, abstract: The forces of technology are ever changing. In each of our own lives, we have seen the transition from using the fax machine, to e-mail, to texting, and now using Twitter and a variety of other social media outlets to give us voice and make our messages known. We may have let many of these transitions go unnoticed over the years, but as we stop and think about how they have affected us, or someone else, it is remarkable to see the stark contrasts that do exist. This paper will examine the lie and changing times of Mitt Romney, the current Front Runner in the Republican Party Presidential Nomination process. This paper will examine the days of Mitt's youth though adulthood and focus on not only how his environment influenced his rearing, but also how the use of technology changed the path of his life in Business as well as Politics. Many of the principals examined in this document will be easy to relate to, as many of us have experienced personally the technological changes that will be discussed. The fast pace of technological change has different impacts on each of us, but all of us will be able to take some kind of appreciation from this reading and have a better understanding of the role technology plays in our live. Both seen, as well as unseen.

Why did Romney lose? How can Republicans win? In A Bad Day on the Romney Campaign, Gabriel Schoenfeld, a senior adviser to presidential nominee Mitt Romney for nearly two years, is the first insider to speak out about the failures of the 2012 campaign. Why did Romney lose? The book illuminates the chain of errors that ultimately contributed to Romney's defeat. Schoenfeld's original concept--zeroing in on a single gaffe on a single day: Romney's comments in the wake of the Benghazi attack, and examining its genesis and its profound ripple effects--makes for a uniquely fascinating contribution to our understanding of American politics and the challenges facing a Republican party that has lost the popular vote in five of the last six presidential races. Schoenfeld doesn't shrink from pointing fingers and naming names. Unsparing in his criticism of

some of his former colleagues, and candid in appraising Romney's strengths and weaknesses, his objective is to launch a far-reaching debate about how we choose America's leader. With a revealing discussion of how Romney's team formulated domestic and foreign policy, the book is a powerful voice in the ongoing discussion of the Republican Party's future by a campaign insider who is also one of America's leading analysts of public affairs. Written for Republicans, Democrats, and all Americans, rich with detail and high drama, it will interest anyone who wants a behind-the-scenes look at how our political system actually operates, with all its charms and all its flaws. Praise for Gabriel Schoenfeld's Necessary Secrets: National Security, the Media, and the Rule of Law "Schoenfeld brilliantly illuminates [a] fundamental dilemma." --John McGinnis, Wall Street Journal "Essential reading for anyone seriously interested in national security and freedom of the press." --Leonard Downie, Jr., Washington Post "Subtle and instructive." --Alan Dershowitz, New York Times Book Review

According to author and radio personality Hewitt, Mitt Romney-billionaire venture capitalist, consummate family man, gifted and media-savvy politician-would be unstoppable in the coming presidential race were it not for one niggling line on his resumé: he's a Mormon. Hewitt attempts to refute the claim that no Mormon could get elected President (along with any other claim that might be made against Romney) while analyzing the former Massachusetts governor's biography and burnishing his conservative and leadership credentials. Hewitt is an agreeable writer, wise enough to take detours (such as an edifying primer on Mormon history and thought) that stave off tedium. He spends far more time extolling Romney than excoriating his Republican and Democratic opponents.
