The modern era of digital currency is here, but far from an oddity or bubble, digital money promises to revolutionize our monetary system--and presents a unique opportunity to change it for the better. The modern era of digital currency began in 2008, with the publication of Satoshi Nakamoto's famous whitepaper on Bitcoin. But despite early hacker enthusiasm, today Wall Street and Silicon Valley have staked claims over the future of digital currency. Both industries share a vision of a commercial product, driving profits from data-mining and predictive analytics--and they are positioning themselves to lay the groundwork for the future of money as it inevitably digitizes. Since the invention of coins, money has been an instrument of public governance and law, designed by democratic process. As the digital revolution threatens to change this premise, overcoming the combined interests of Wall Street and Silicon Valley will require a full-throated, unapologetic defense of the public nature of money. Law professor and digital currency expert, Rohan Grey, explores the history and theory of money to explain how digital currency departs from coin, credit, and cash, and how it changes--and does not change--the nature of money. In *Digitizing the Dollar*, he presents a clear vision for the future of a public digital currency that incorporates political, economic, and legal concerns to make sure that money, in its next stage, remains a tool by and for the people.

An American in Palestine details Ric d. Stark's memories of two trips to West Bank Palestine in 2013 and 2014. Divided into two sections, Part I follows Ric's spiritual journey in visiting the Holy Land, when he stayed in Bethlehem and Jerusalem. Part II portrays the personal friendships that the author nurtured during a three-month return visit to West Bank Palestine in 2014. In this section, Ric recalls touching and intimate stories of two Palestinian families. On MSNBC on May 17, 2021, Rashida Tlaib, the sole US Congressperson of Palestinian descent, bemoaned about the distorted view that Americans have of Palestinians. She lamented, "I wish that people would listen to the Palestinian voices on the ground, talk to the mothers who try to put their children next to them, because, if they die, they want to die together? These are the kinds of stories that need to be told behind the bombing [of Gaza by Israel in May 2021.]" Sitting in his rocking chair in Ewa Beach, Hawai'i, Ric cried, "Hey! I can tell those kinds of stories." In 2014, Ric had the rare and clandestine opportunity to visit West Bank Palestine. Renting a small apartment on the ground floor of the home of a four-generation Christian family, he observed daily family life up close. Through his sponsor, Farouk Al Jaabari, Ric joined Farouk's Muslim family each week on Holy Day (Friday) for an extended-family gathering of a shared meal and social time. The visits profoundly impacted Ric's worldview. When he returned to Hawai'i in late 2014, Ric was simmering with thoughts and emotions. These people and their plight needed advocates. But how could he speak? Ric had no platform and he lacked an audience. On that day of May 17, 2021, Ric had opened a Facebook page to promote his new venture as an author of literary non-fiction. On the day, Tlaib summoned an American voice. In the days following, one American answered the calling. Now Ric shares the stories of a people undeniably precious and deserving of freedom. This workbook has 112 investigations of female scientists, politicians and astronauts. Students search online for information about each woman: when and where she was born, details about her family, the college she attended, achievements and awards, her area of expertise, and other interesting things that demonstrate her commitment to success. Use these pages to teach students the history that books often forget (as textbooks are so focused on males and wars and destruction). Teach herstory during the month dedicated to women's history. Students explore the inventions and discoveries of scientists like: Marie Curie, Mae Jemison, Rosalind Franklin, Marie Maynard Daly, Lise Meitner, Katherine Johnson, Jocelyn Bell Burnell, Alice Ball, Roger Arliner Young, Dorothy Hodgkin, Margaret Collins, Chien-Shiung Wu, Patricia Bath, Ada Lovelace, Marguerite Williams, Barbara McClintock, Mary Anning, Rachel Carson, Rita Levi-Montalcini, Emmy Noether, Gertrude Elion, Vera Rubin, Grace Hopper, Gerty Cori, Sally Ride, Émilie du Châtelet, Hypatia, Hertha Ayrton, Caroline Herschel, Maria Mitchell, Mary Somerville, and Irène Curie-Joliot. Students explore the advances and achievements of politicians like: Ilhan Omar, Indira Gandhi, Alexandria Ocasio Cortez, Kamala Harris, Hillary Clinton, Nancy Pelosi, Shirley Chisholm, Angela Merkel, Stacey Abrams, Margaret Thatcher, Theresa May, Condoleezza Rice, Elizabeth Warren, Sarah Palin, Barbara Jordan, Rashida Tlaib, Mia Love, Kirsten Gillibrand, Maxine Waters, Jahana Hayes, Andrea Jenkins, Lucy McBath, Karen Bass, Loren Underwood, Carol Mosely Braun, Eleanor Holmes Norton, Donna Christian Christensen, Sheila Jackson Lee, Stacey Plaskett, Sheikh Hasini, Tsai Ing-wen, Nicola Sturgeon, Jeannette Rankin, Dalia Grybauskaitė, Erna Solberg, Nikki Haley, Aung San Suu Kyi, Susan Collins, Dianne Feinstein, Ayanna Pressley, Rebecca Latimer Felton, Patty Murray, Lisa Murkowski, Victoria Woodhull, Jill Stein, Geraldine Ferraro, Michele Bachmann, Elizabeth Dole, Gabby Giffords, and Golda Meir. "An intimately told story, with detailed and thought-provoking portraits." —The New York Times Book Review "The Firsts stands out as one of the most important and best reported books written during the extraordinary political chapter in which we are living." —Nicolle Wallace, author and anchor, Deadline: White House on MSNBC NOW WITH UPDATED EPILOGUE In the November 2018 midterms, the greatest number of women in history were elected to Congress. It was a group diverse in background, age, experience, and ideology. From Alexandria Ocasio-Cortez and "the Squad" to a group with national security backgrounds calling themselves "the Badasses," from the first two Native American women to the first two Muslim women, all were swept into office on a wave of grassroots support. Here, New York Times reporter Jennifer Steinhauer chronicles these women's first year in Congress, following

their shift from trailblazing campaigns to the daily work of governance. In committee rooms, offices, visits back home with their constituents, and conversations in the halls of the Capitol, she probes the question: Will Washington, with its hidebound traditions and overpriced housing and petty power struggles, change the changemakers? Or will this Congress, which looks a little more like today's America, truly be the start of something new? Vivid and smart, The Firsts delivers fresh details, inside access, historical perspective, and expert analysis as these women—inspiring, controversial, talented, and rebellious—do something surprising: make Congress essential again.

Puppets entertain us as comical figures manipulated by the hand or wires, or rods. Political puppets animate through the string-pulling of Deep States. Puppets do and say the things that their Masters want them to do. The Congresswomen Alexandria Ocasio-Cortez of Queens, Rashida Tlaib of Detroit, Ilhan Omar of Minneapolis, and Ayanna Pressley of Boston are, above all, a squad of Puppets. Unlike their plastic, wood, and polyester counterparts, the Squad puppets are not only manipulated by their Masters but serve to manipulate the public and fellow members of Congress. They are the manipulators' manipulators. The nickname "Squad" arose from a #squadgoals hashtag coined by AOC for a photoshoot of the four puppets together. Stage puppets bring entertainment and humor for their audience. The Squad brings hidden agendas, brain strain, and brain hemorrhages for victims of Antifa. They pack together lies and verbal abuse. They spew false accusations against the opposition. Sometimes they seek to stir up physical intimidation and violence-- then all it takes is a Deep State text message to Antifa and somebody's house gets vandalized or somebody gets hurt. Each has their history and personality, but they all have to comply with their Masters, or they will not be in office for long. Although they arose from different races and backgrounds and may have slightly different agendas or favorite issues, they all have the same common core of strings: Communism and membership in the Democratic party, the Democratic Socialists of America (DSA,) and the Congressional Democratic Caucus(CDC.) Two of them are hitched by the hip to the Muslim Brotherhood, and one to Communist China and one is still trying to figure out what the three branches of government are and where they are located. We see the squad every day in the news, but their puppeteers remain largely hidden. We are distracted by the puppets' antics, taken aback by their insults and attacks, as the puppet Masters use the distraction to plan their next moves. Only the patriotic brave address the elephants in the room standing behind the squad. The puppet Masters and their mainstream media will not let the general public approach them. Many fear for their safety and that of their family. The puppet Masters are well known for intimidation, censorship, and the use of violence. This book reveals both the history and nature of the puppets, their life history and how they entered into office. More importantly, it reveals their Masters as backbones of transnational Deep States. These Deep States constantly work to control the wealth and power of the world--and seek to destroy a populist America and turn it into a communist and sharia one. In this book, we not only learn who the Masters are, but we learn how the Masters work-- and it's not pretty. It's often sickening. Breitbart reported on July 1st, 2019, in an article entitled, "Andrew Yang first Democrat candidate to Speak Out Against Antifa Attack on Andy Ngo," about a journalist, Andy Ngo, who documented and wrote about Antifa's street violence. He suffered a planned ambush by Antifa, who represent the Democratic Socialists of America, in the form of 10 or so assailants and ended up with a black eye, multiple cuts, and bruises, and a brain hemorrhage. They threw a milkshake full of quick-dry cement at the back of his head. Violence against the opposition, in this case, a journalist, is standard

practice for Communist regimes. Communists invented terrorism on innocent people and journalists who opposed them during the Bolshevik Revolution and intentionally injected it into Islamic regimes. The attack on journalist Andy Ngo spurred Senators Ted Cruz and Bill Cassidy to introduce a resolution that would be label Antifa as a domestic terror organization.

Ilhan Omar's career is a collection of historic firsts: she is the first refugee, the first Somali-American and one of the first two Muslim women to serve in the United States Congress. Against a xenophobic and divisive administration, she has risen to global fame as a powerful voice in the Democratic Party's new progressive chorus of congresswomen of colour. 'This Is What America Looks Like' is a tale of the aspirations, disappointments, successes and surprises in the life of an immigrant and Muslim in the US today. This is Omar's story told on her own terms: from a childhood in Mogadishu and four long years at a Kenyan refugee camp, to her arrival in America--penniless and speaking only Somali--and her triumphant election to the US House of Representatives. In the face of merciless slander and constant attacks from opponents in both parties, Omar continues to speak up for her beliefs. Courageous, hopeful and defiant, her memoir is marked by her irrepressible spirit, even in the darkest of times. Trailblazing Candidates in Gubernatorial, Congressional, and Mayoral Campaigns We Are Awesome.

Historic Firsts in U.S. Elections: Trailblazing Candidates in Gubernatorial, Congressional, and Mayoral Campaigns examines barrier-breaking figures across various types of elective offices and constituent groups. The moment in which historic firsts enter the electoral arena, and the unique campaigns that ensue, are shown to be symbolically empowering. These change agents on the campaign trail become lightning rods for more liberal policies, and their candidacies are tied to questions of representation, electability, and performance. The distinctive combinations of race, ethnicity, and gender identities represented here translate into voter excitement to go to the polls and participate in other ways. Original chapters by respected scholars and practitioners consider how recent breakthrough elections are similar to yet different from past elections for gubernatorial, congressional, and mayoral offices. The shadow of Donald Trump ' s wildly unconventional U.S. presidency looms over this groundbreaking analysis, linking local to national level politics. For students of politics across the curriculum, this book expands the theoretical capacity of

intersectionality research and links it to voter mobilization and electoral success.

In a complicated political era when the United States feels divided, this book celebrates feminism and female contributions to politics, activism, and communities. Each of the forty-four women profiled in this illustrated book has demonstrated her capabilities and strengths in political and community leadership and activism, both in the United States and around the world. Written in an approachable, journalistic tone and rounded out by beautiful color portraits, history, key political processes, terminology, and thought-provoking quotes, this book will inspire and encourage women everywhere to enact change in their own communities and to

pursue opportunities in public affairs.

A bold and uncompromising feminist manifesto that shows women and girls how to defy, disrupt, and destroy the patriarchy by embracing the qualities they 've been trained to avoid. Seizing upon the energy of the #MeToo movement, feminist activist Mona Eltahawy advocates a muscular, out-loud approach to teaching women and girls to harness their power through what she calls the "seven necessary sins" that women and girls are not supposed to commit: to be angry, ambitious, profane, violent, attention-seeking, lustful, and powerful. All the necessary "sins" that women and girls require to erupt. Eltahawy knows that the patriarchy is alive and well, and she is fed the hell up: Sexually assaulted during hajj at the age of fifteen. Groped on the dance floor of a night club in Montreal at fifty. Countless other injustices in the years between. Illuminating her call to action are stories of activists and ordinary women around the world—from South Africa to China, Nigeria to India, Bosnia to Egypt—who are tapping into their inner fury and crossing the lines of race, class, faith, and gender that make it so hard for marginalized women to be heard. Rather than teaching women and girls to survive the poisonous system they have found themselves in, Eltahawy arms them to dismantle it. Brilliant, bold, and energetic, The Seven Necessary Sins for Women and Girls is a manifesto for all feminists in the fight against patriarchy.

Reveals the influence of Islam in the birth of American religious freedom, describing how Jefferson studied the Qur'an because he believed that Islam's Enlightenment ideals could inform the fledgling country's practical governance.

Why does a country with religious liberty enmeshed in its legal and social structures produce such overt prejudice and discrimination against Muslims? Sahar Aziz 's groundbreaking book demonstrates how race and religion intersect to create what she calls the Racial Muslim. Comparing discrimination against immigrant Muslims with the prejudicial treatment of Jews, Catholics, Mormons, and African American Muslims during the twentieth century, Aziz explores the gap between America 's aspiration for and fulfillment of religious freedom. With America 's demographics rapidly changing from a majority white Protestant nation to a multiracial, multireligious society, this book is an indispensable read for understanding how our past continues to shape our present—to the detriment of our nation 's future.

A bold call for the American Left to extend their politics to the issues of Israel-Palestine, from a New York Times bestselling author and an expert on U.S. policy in the region In this major work of daring criticism and analysis, scholar and political commentator Marc Lamont Hill and Israel-Palestine expert Mitchell Plitnick spotlight how holding fast to one-sided and unwaveringly pro-Israel policies reflects the truth-bending grip of authoritarianism on both Israel and the United States. Except for Palestine deftly argues that progressives and liberals who oppose regressive policies on immigration, racial justice, gender equality, LGBTQ rights, and other issues must extend these core principles to the oppression of Palestinians. In doing so, the authors take seriously the political concerns and well-being of both Israelis and Palestinians, demonstrating the extent to which U.S. policy has made peace harder to attain. They also unravel the conflation of advocacy for Palestinian rights with anti-Semitism and hatred of Israel. Hill and Plitnick provide a timely and essential intervention by examining multiple dimensions of the Israeli-Palestinian conversation, including Israel's growing disdain for democracy, the effects of occupation on Palestine, the siege of Gaza, diminishing American funding for Palestinian relief, and the campaign to stigmatize any critique of Israeli

occupation. Except for Palestine is a searing polemic and a cri de coeur for elected officials, activists, and everyday citizens alike to align their beliefs and politics with their values.

The Inside Story of the Women Reshaping Congress

This Is What America Looks Like

Notebook/Journal Gift For

An inspiring picture book that tells the story of Rashida Tlaib, one of the first Muslim women elected to Congress, and her family. Perfect for readers of books that celebrate trailblazing women and social activists as well as those looking for an introduction to civic engagement and how government works. "Hey Adam, is the president Mom's boss now?" When Yousif Tlaib asks about his mom's new job in Congress, his older brother, Adam, fills him in—with some help from Rashida Tlaib herself. As he tells his mom ' s story, Adam reveals information about how elections and our government work, what it means to break barriers, what motivates their mama to work for justice for all, and how love and family have guided them through this historic time in our country. From growing up in Detroit—the eldest of fourteen siblings and the first in her immigrant family to graduate from high school—through her journey into community activism and then local politics, to eventually becoming one of the first Muslim Congresswomen and an influential national figure, Rashida Tlaib's inspiring story shows kids that they, too, can do great things and make a difference.

AN INSTANT NEW YORK TIMES BESTSELLER! The definitive biography of Nancy Pelosi, the most powerful woman in American political history, written by New York Times bestselling author and USA Today Washington bureau chief Susan Page. Featuring more than 150 exclusive interviews with those who know her best—and a series of in-depth, news-making interviews with Pelosi herself—MADAM SPEAKER is unprecedented in the scope of its exploration of Nancy Pelosi's remarkable life and of her indelible impact on American politics. Before she was Nancy Pelosi, she was Nancy D'Allesandro. Her father was a big-city mayor and her mother his political organizer; when she encouraged her young daughter to become a nun, Nancy told her mother that being a priest sounded more appealing. She didn't begin running for office until she was forty-six years old, her five children mostly out of the nest. With that, she found her calling. Nancy Pelosi has lived on the cutting edge of the revolution in both women's roles and in the nation's movement to a fiercer and more polarized politics. She has established herself as a crucial friend or formidable foe to U.S. presidents, a master legislator, and an indefatigable political warrior. She took on the Democratic establishment to become the first female Speaker of the House, then battled rivals on the left and right to consolidate her power. She has soared in the sharp-edged inside game of politics, though she has struggled in the outside game—demonized by conservatives, second-guessed by progressives, and routinely underestimated by nearly everyone. All of this was preparation for the most historic challenge she would ever face, at a time she had been privately planning her retirement. When Donald Trump was elected to the White House, Nancy Pelosi became the Democratic counterpart best able to stand up to the disruptive president and to get under his skin. The battle between Trump and Pelosi, chronicled in this book with behind-the-scenes details and revelations, stands to be the titanic political struggle of our time.
