Madison Cawthorn is a telegenic pro-Trump Republican running in a solidly GOP North Carolina district. And yet the youngest member of Congress is facing a fight to get re-elected. Cawthorn, 26, had been a rising star in the Republican Party. But since taking office in 2020, he's also been a magnet for scrutiny and criticism over his statements, social media posts and run-ins with authorities. North Carolina's senior senator, Richard Burr has called Cawthorn an "embarrassment at times." In rapid succession, Mr. Cawthorn, who entered Congress as a rising star of the party's far right, has been accused of falsely suggesting that his Republican colleagues routinely throw cocaine-fueled orgies, insider trading and an inappropriate relationship with a male aide. Cawthorn, who is partially paralyzed as the result of a car crash, several times has been cited for traffic violations since being elected and twice has been stopped for trying to bring a loaded handgun through airport security. At a town-hall event in March, he called Ukrainian President Volodymyr Zelenskiy a "thug" and said the country's government is "incredibly corrupt and it is incredibly evil." That angered many of his Republican colleagues in Congress and drew a rebuke from House GOP leader Kevin

McCarthy. Despite his obscured political stance, for US president Donald Trump still sees him as the best candidate. He said: "At 18 years of age, Madison Cawthorn, the now 26 year old Congressman from the Great State of North Carolina, went through a life changing event the likes of which, fortunately, few people will ever have to endure," Trump said in reference to the car crash Cawthorn was involved in when he was 18 which left him paralyzed. "In just seconds, he lost the use of the lower half of his body, a traumatic experience to say the least. When Madison was first elected to Congress, he did a great job. Recently, he made some foolish mistakes, which I don't believe he'll make again...let's give Madison a second chance!" However, the congressmen want a new political stance. They want someone who can push the political views of the people. Trump may have endorsed Cawthorn but his political stance is different from the public which makes things difficult for him.

Many Christians admit to feeling somewhat intimidated by the subject of holiness and Christlike living, but the expectation from Scripture is undeniably clear. Burr and Fleagle argue that the open secret to growing in the image of Christ lies in obedience to his commands. Using an encouraging, guilt-free approach that avoids any tendency toward legalism, the authors discuss eleven specific commands given by Jesus and show how believers can fulfill them in the power of the Holy Spirit."Both Richard Burr and Dr. Fleagle have had a keen interest and passion for studying and teaching on the commands of our Lord as steps toward holiness, or becoming more like Him. They write on the subject with insight, thoroughness and clarity. All who would follow Jesus and seek to please Him can profit from their teaching and guidance toward knowing and obeying our Lord's commands, and so toward personal holiness, which should be the passion of us all."Steve Westbrook President, Pray-Think-Act Ministries, Inc. The U.S. food safety system is in crisis. Approx. 76 million Americans -- one in four -- are sickened by foodborne disease each year. Of these, an estimated 325,000 are hospitalized, and 5,000 die. This report discusses the top concerns about food safety that experts have identified and addresses the food safety functions within the Dept. of Health and Human Services (HHS). Contents: (1) Food Safety Programs at HHS: The Current Structure; (2) Current HHS Food Safety Functions Do Not Meet Today's Threats; (3) The Benefits of Aligning Food Safety Functions at HHS; (4) Background on Reform Efforts; (5) Recommendations: Making Food Safety a Priority at HHS; (6) A Staged Pathway to Comprehensive Food Safety Reform. Illus. Based on the case of Alvin Ford, an American death row inmate, this thought-provoking book focuses on the issues raised when the criminal justice system attempts to apply the death penalty to the mentally impaired. Issues addressed include: the definition of mental illness for the purposes of exemption from execution; the evaluation of competence for execution by mental health professionals; the consequences of disagreements among health professionals about a defendant's mental status; and the fate of prisoners who are exempted. Ford's unique case leads the authors to examine more general issues such as the involvement of health

professionals in modern capital sentencing, as well as the administration of the death penalty i

The final meeting of Alexander Hamilton and Aaron Burr took place in 1804. It ended with Burr mortally wounding Hamilton in a duel. Hamilton and Burr first met in 1776, during the American Revolution. Their wartime experiences would shape their lives as Colonel Hamilton and Colonel Burr recounts. They were both young American officers at the time working to defend New York City against a British attack. Burr was a tough Revolutionary War combat veteran, having fought in the 1775 campaign to seize Canada from the British. In Canada, Burr battled alongside then Colonel Benedict Arnold and attacked the walled city of Quebec with General Richard Montgomery. Burr next accepted an invitation to join Washington ' s headquarters staff. This book includes an account of Captain Burr ' s brief tenure on the job that led to a lifelong animosity between him and Washington. In 1776, Hamilton was a captain and commander of a New York State artillery company. He leveled his cannons at the British at New York City, White Plains, Trenton, and Princeton before joining Washington ' s headquarters staff. Both Hamilton and Burr wintered at Valley Forge and fought in the day-long Battle of Monmouth. After recounting the Revolutionary War exploits of Hamilton and Burr, this book then describes their postwar lives and political rivalry and why Washington told then President John Adams in 1798 that Hamilton was his principal aide de camp. Colonel Hamilton and Colonel Burr is a fresh approach to the American Revolution from the standpoint of two of its most interesting participants.

At the start of the 20th century, Birmingham was one of the fastest growing cities in the South, sometimes referred to as the "Magic City." It began as a town located at the intersection of two railroads and then quickly expanded and took in neighboring communities. Around this time, photographers traveled around the United States taking photographs of towns and cities and turning the photographs into postcards. The postcards collected here show historic Birmingham's downtown, hospitals, parks, communities, schools, hotels, and industries. These images serve as a record of everyday life in this bustling Southern city.

The most important book in what is called *The Senate Torture Report*. This is the third book in what is commonly called the "Senate Torture Report." The full title is, the Senate Intelligence Committee's Study of the Central Intelligence Agency's Detention and Interrogation Program - *Minority Views*. It's the one where the minority, Republican members explain what was wrong with the first, main book, written exclusively by the majority, Democrat members. This is the book that tells you what the first book didn't tell you. I believe it may prove the most important book of the three. Know what all the arguments are. Whatever side you are on, if you're only going to read one report, make it this one. What they're saying: "I'm going to read the report, but I'm also going to read the minority report..." - David Ignatius, *Washington Post* columnist "I urge everyone to read the

Minority Views which document many falsehoods propagated by the Study." - U.S. Senator Richard Burr (R-NC) "There's a theory on the part of the Senate Democrats... that no significant information was obtained as a result of the use of those enhanced interrogation techniques. That is absolutely wrong, and you're going to be able to see from the report itself as well as from the minority views that we have put together... that information gleaned from these interrogations was in fact used to interrupt and disrupt terrorist plots, including some information that took down [Osama] bin Laden." - U.S. Senator Saxby Chambliss (R-GA), Senate Intelligence Committee

Take one tent. Fill with 12 amateur bakers. Garnish with one venerable cookery writer, one blue-eyed bread-maker, and two comedy queens with a love of innuendo. And there you have the recipe for the most popular show of our times. When *The Great British Bake Off* made its debut in August 2010, it had the makings of a modest hit. But nobody — not the programme-makers and certainly not those first contestants — could have predicted what was to come. Here was a show in which the biggest weekly drama was whether or not a sponge cake would sink in the middle. And oh, how we loved it. Here is the ultimate *Bake Off* fan book: from bread lion to bin-gate; heart throbs to Twitter trolls; soggy bottoms to sticky buns. This is the celebration of Britain's most popular cookery contest.

The Final Report of the Special Counsel on Russian Interference in the 2016 Presidential Election

This is the full Mueller Report, as released on April 18, 2019, by the U.S. Department of Justice. A reprint of the report exactly as it was issued by the government, it is without analysis or commentary from any other source and with nothing subtracted except for the material redacted by the Department of Justice. The mission of the Mueller investigation was to examine Russian interference in the 2016 Presidential election, consisting of possible links, or "collusion," between the Donald Trump campaign and the Russian government of Vladimir Putin as well as any allegations of obstruction of justice in this regard. It was also intended to detect and prosecute, where warranted, any other crimes that surfaced during the course of the investigation. The report consists of a detailed summary of the various investigations and inquiries that the Special Counsel and colleagues carried out in these areas. The investigation was initiated in the aftermath of the firing of FBI Director James Comey by Donald Trump on May 9, 2017. The FBI, under Director Comey, had already been investigating links between Russia and the Trump campaign. Mueller submitted his report to Attorney General William Barr on March 22, 2019, and the Department of Justice released the redacted report one month later.
