

Stand Your Ground

As recognized, adventure as without difficulty as experience practically lesson, amusement, as skillfully as accord can be gotten by just checking out a ebook Stand Your Ground after that it is not directly done, you could admit even more with reference to this life, on the order of the world.

We find the money for you this proper as without difficulty as simple pretentiousness to acquire those all. We allow Stand Your Ground and numerous book collections from fictions to scientific research in any way. along with them is this Stand Your Ground that can be your partner.

Do you know your constitutional rights well enough to carry a concealed weapon (CCW)? Whether new to firearms, self-defense and home defense, or a seasoned veteran, if you're in the majority, and want to gain a better understanding of concealed carry, so that you are able to stand your ground if you are ever threatened or attacked, then you won't want to miss out on reading this. After all, it is our second amendment right to bear arms, so we owe it to ourselves and our Founding Fathers to understand our rights in full detail. Concealed Carry, Stand Your Ground Laws, and the Second Amendment Right to Bear Arms will teach you everything you need to know about your rights as a proud American citizen and how you can carry without concern. Many are not fully aware of the laws surrounding our rights. Don't worry. We are here to help. The goal of this reading is to arm you with the confidence and knowledge you need to keep you well within your rights to not only conceal carry but to be prepared for almost any situation and scenario when you do. Inside Concealed Carry, Stand Your Ground Laws, and the Second Amendment Right to Bear Arms, discover: A history into the Second amendment law A look into the history of concealed carry across America What to consider when comparing "concealed carry" and "open carry" The importance of standing your ground and better understanding of self-defense The legal considerations of concealed carry How to be a responsible gun owner How to handle a firearm Caring for your firearms properly And much, much more! Isn't it time you learn your second amendment rights to the letter and stop living in fear at home and beyond? I certainly think so! Educate yourself with Concealed Carry, Stand Your Ground Laws, and the Second Amendment Right to Bear Arms, and start living and carrying with confidence.

Finally get what you deserve and stop "letting it slide" - without guilt, fear, or awkward tension. Saying no - just thinking about it sounds awkward, right? But that's the barrier between you living your own life, and living for others. Get what you want, starting immediately. Stop sacrificing your own needs. Quit the agreeableness and accommodation habit. How to Say No examines the psychology of those unable to stand up for themselves. It's not as simple as wanting to avoid awkwardness, and it's not about the correct sequence of words. You'll dive deep and learn about your beliefs that are holding you back, as well as how to conquer them in short time. Saying no is the most liberating thing you can do for yourself, and this book tells you how to get there from inside to out. Swift tactics to gain respect, set boundaries, and ask for what you really want. Patrick King is an internationally bestselling author and social skills coach. His writing draws of a variety of sources, from scientific research, academic experience, coaching, and real life experience. How to decisively say NO and stop being taken advantage of. -The counter mindsets you must change, and the mindsets you must replace them with -A multitude of categories for how to asset yourself -The easiest and least tense ways to simply say NO -An examination of your beliefs surrounding acceptance, love, and self-worth -Boundaries and how to ruthlessly

enforce them Stop putting others first and start treating yourself better. Who are you living your life for? Do you feel like you are exhausted by the time you can finally pay attention to your own needs?

We commonly think of society as made of and by humans, but with the proliferation of machine learning and AI technologies, this is clearly no longer the case. Billions of automated systems tacitly contribute to the social construction of reality by drawing algorithmic distinctions between the visible and the invisible, the relevant and the irrelevant, the likely and the unlikely - on and beyond platforms. Drawing on the work of Pierre Bourdieu, this book develops an original sociology of algorithms as social agents, actively participating in social life. Through a wide range of examples, Massimo Airoidi shows how society shapes algorithmic code, and how this culture in the code guides the practical behaviour of the code in the culture, shaping society in turn. The 'machine habitus' is the generative mechanism at work throughout myriads of feedback loops linking humans with artificial social agents, in the context of digital infrastructures and pre-digital social structures. Machine Habitus will be of great interest to students and scholars in sociology, media and cultural studies, science and technology studies and information technology, and to anyone interested in the growing role of algorithms and AI in our social and cultural life.

Through an examination of 129 territorial disputes between 1950 and 1990, Paul Huth presents a new theoretical approach for analyzing the foreign policy behavior of states, one that integrates insights from traditional realist as well as domestic political approaches to the study of foreign policy. Huth's approach is premised on the belief that powerful explanations of security policy must be built on the recognition that foreign policy leaders are domestic politicians who are very attentive to the domestic implications of foreign policy actions. Hypotheses derived from this new modified realist mode are then empirically tested by a combination of statistical and case study analysis. ". . . a welcome contribution to our understanding of how and why some territorial disputes escalate to war."--American Political Science Review Paul Huth is Associate Professor of Political Science and Associate Research Scientist, Center for Political Studies, Institute for Social Research, University of Michigan.

When Deadly Force Is Involved

A GOOD MORNING AMERICA BOOK CLUB PICK Named a Best Book Pick of 2021 by Harper's Bazaar and Real Simple Named a Most Anticipated Book of Fall by People, Essence, New York Post, PopSugar, New York Newsday, Entertainment Weekly, Town & Country, Bustle, Fortune, and Book Riot Told from alternating perspectives, this "propulsive, deeply felt tale of race and friendship" (People) follows two women, one Black and one white, whose friendship is indelibly altered by a tragic event. Jen and Riley have been best friends since kindergarten. As adults, they remain as close as sisters, though their lives have taken different directions. Jen married young, and after years of trying, is finally pregnant. Riley pursued her childhood dream of becoming a television journalist and is poised to become one of the first Black female anchors of the top news channel in their hometown of Philadelphia. But the deep bond they share is severely tested when Jen's husband, a city police officer, is involved in the shooting of an unarmed Black teenager. Six months pregnant, Jen is in freefall as her future, her husband's freedom, and her friendship with Riley are thrown into uncertainty. Covering this career-making story, Riley wrestles with the implications of this tragic incident for

her Black community, her ambitions, and her relationship with her lifelong friend. Like Tayari Jones's An American Marriage and Jodi Picoult's Small Great Things, We Are Not Like Them takes "us to uncomfortable places—in the best possible way—while capturing so much of what we are all thinking and feeling about race. A sharp, timely, and soul-satisfying novel" (Emily Giffin, New York Times bestselling author) that is both a powerful conversation starter and a celebration of the enduring power of friendship. A history of America's Stand Your Ground gun laws, from Reconstruction to Trayvon Martin After a young, white gunman killed twenty-six people at Sandy Hook Elementary School in Newtown, Connecticut, in December 2012, conservative legislators lamented that the tragedy could have been avoided if the schoolteachers had been armed and the classrooms equipped with guns. Similar claims were repeated in the aftermath of other recent shootings—after nine were killed in a church in Charleston, South Carolina, and in the aftermath of the massacre in the Pulse nightclub in Orlando, Florida. Despite inevitable questions about gun control, there is a sharp increase in firearm sales in the wake of every mass shooting. Yet, this kind of DIY-security activism predates the contemporary gun rights movement—and even the stand-your-ground self-defense laws adopted in thirty-three states, or the thirteen million civilians currently licensed to carry concealed firearms. As scholar Caroline Light proves, support for "good guys with guns" relies on the entrenched belief that certain "bad guys with guns" threaten us all. Stand Your Ground explores the development of the American right to self-defense and reveals how the original "duty to retreat" from threat was transformed into a selective right to kill. In her rigorous genealogy, Light traces white America's attachment to racialized, lethal self-defense by unearthing its complex legal and social histories—from the original "castle laws" of the 1600s, which gave white men the right to protect their homes, to the brutal lynching of "criminal" Black bodies during the Jim Crow era and the radicalization of the NRA as it transitioned from a sporting organization to one of our country's most powerful lobbying forces. In this convincing treatise on the United States' unprecedented ascension as the world's foremost stand-your-ground nation, Light exposes a history hidden in plain sight, showing how violent self-defense has been legalized for the most privileged and used as a weapon against the most vulnerable.

This inspirational notebook comes with motivational and empowering quotes for women and girls. Every other page has a beautifully designed quote to inspire and lift your day. Get inspired every time you open up this notebook with over 50 beautiful and empowering quotes in 108 lined pages Convenient size at 6 x 9 inches, bring it everywhere you go Great for notetaking, journaling, or writing anything Perfect as an uplifting gift for yourself or any woman or girl in your life

Management professor and West Point graduate Evan Offstein approached leaders at the U.S. Military Academy and the Department of the Army with two primary questions: (1) How does West Point develop its leaders?; (2) Can other individuals and organizations apply these principles effectively? Two years and dozens of interviews later, he offers unprecedented access to the process of leadership development at West Point. With an explicit mission to produce "honorable" leaders, West Point invests heavily in mentoring, training, and evaluation to ensure the character development of its 4,000 cadets. From Robert E. Lee to Edwin E. "Buzz" Aldrin to basketball coach Mike Krzyzewski, West Point has groomed leaders whose contributions far exceed the successful management of their immediate charges. By illuminating the principles by which West Point teaches leadership, Stand Your Ground not only provides a unique tour behind the scenes at this revered institution, but, more generally, imparts lessons of honor and character-building that can be adopted by any aspiring leader.

The Law of Self Defense, 2nd Edition

Guns Across America

Civil Rights and Public Safety Implications of the Expanded Use of Deadly Force Concealed Carry, Stand Your Ground Laws, and the 2nd Amendment Right to Bear Arms Standing Ground

Little Things That Can Change Your Life...And Maybe the World

The unapologetic, laugh-your-ass-off military memoir both vets and civilians have been waiting for, from a five-tour Army Ranger turned YouTube phenomenon and zealous advocate for veterans--this is Deadpool meets Captain America, except one went to business school and one went to therapy, and it's anyone's guess which is which.hich.

Highly readable and accessible book that deals with an incendiary topic in a non-polemical way Brings together previously unpublished data on historical gun laws in America Addresses such timely issues as the 'stand your ground' controversy, the 'right of rebellion,' the debate over the regulation of assault weapons, and the fundamental question of whether the government does or should possess a monopoly over the use of force

The controversies surrounding gun control policies have recently moved to the forefront of public's attention in the United States and elsewhere. Since 2005, eighteen states in the United States have passed laws extending the right to self-defense with no duty to retreat to any place a person has a legal right to be, and several additional states are debating the adoption of similar legislation. Despite the implications that these laws may have for public safety, there has been little empirical investigation of their impact on crime and victimization. In this paper, we use monthly data from the U.S. Vital Statistics to examine how Stand Your Ground laws affect homicides and firearm injuries. We identify the impact of these laws by exploiting variation in the effective date of these laws across states over time. Our results indicate that Stand Your Ground laws are associated with a significant increase in the number of homicides among whites, especially white males. According to our estimates, between 28 and 33 additional white males are killed each month as a result of these laws. We find no consistent evidence to suggest that these laws increase homicides among blacks.

Auxiliary analysis using data from the Supplemental Homicide Reports indicates that our results are not driven by the killings of assailants. We also find that the stand your ground laws are not related to non-homicide deaths, which should not respond to gun laws. Finally, we analyze data from the Health Care Utilization Project to show that these laws are also associated with a significant increase in emergency room visits and hospital discharges related to firearm inflicted injuries. Taken together, these findings raise serious doubts against the argument that Stand Your Ground laws make public safer.

My freshman year of college was a battle, writes Katie, a college student and a strong Christian. The transition from high school to college is one of the most pivotal times in a young person's life. After departing from under the protective wings of their parents, young adults often have trouble holding firm to the Christian faith. 'Stand Your Ground' is an introduction to apologetics for young adults in high school or college. The book includes thirteen chapters that confront the overwhelming intellectual attacks Christian college students face on university campuses. Dean Hardy takes readers on a spiritual and intellectual journey, addressing such issues as the nature of truth and reality, the investigation of other worldviews, the evidence for Christianity, critics' arguments against Christianity, and the relationship between apologetics and evangelism.

The Ethics of Self-Defense

Janice Johnson's 16-year-old son was murdered and the shooter hasn't been arrested. Shelly Vance's husband is facing murder charges for shooting a teenager who he says attacked him in a parking lot. This tragedy is magnified by the racial divide it has created. She wants to stand by her man, but she's keeping a secret that could blow the case wide open. Alax Wilson is the jury foreman. Faced with a dramatic trial that has turned into a media frenzy, Janice, Shelly and Alax are forced to face their own prejudices.

Turn any presentation into a landmark occasion “I love this book. I've followed Humes's lessons for years, and he combines them all into one compact, hard-hitting resource. Get this book on your desk now.”—Chris Matthews, Hardball Ever wish you could captivate your boardroom with the opening line of your presentation, like Winston Churchill in his most memorable speeches? Or want to command attention by looming larger than life before your audience, much like Abraham Lincoln when, standing erect and wearing a top hat, he towered over seven feet? Now, you can master presentation skills, wow your audience, and shoot up the corporate ladder by unlocking the secrets of history's greatest speakers. Author, historian, and world-renowned speaker James C.

Humes—who wrote speeches for five American presidents—shows you how great leaders through the ages used simple yet incredibly effective tricks to speak, persuade, and win throngs of fans and followers. Inside, you'll discover how Napoleon Bonaparte mastered the use of the pregnant pause to grab attention, how Lady Margaret Thatcher punctuated her most serious speeches with the use of subtle props, how Ronald Reagan could win even the most hostile crowd with carefully timed wit, and much, much more. Whether you're addressing a small nation or a large staff meeting, you'll want to master the tips and tricks in Speak Like Churchill, Stand Like Lincoln.

This book analyzes North Carolina's criminal law on self-defense and other defenses involving defensive force, such as defense of others and defense of habitation. It explains the rules governing the use of defensive force and includes extensive citations to relevant North Carolina case law. The book also discusses issues that commonly arise in the trial of self-defense cases, including evidentiary issues, burdens of proof, and jury instructions.

When the path ahead is dark, how can we keep from stumbling? How do we make our way with courage and dignity? “Inside each of us is an eternal light that I call ‘the One Who Knows,’ writes Jack Kornfeld. “Awakening to this wisdom can help us fin dour way through pain and suffering with grace and tenderness.” For anyone seeking answer during a trying time, he offers A Lamp in the Darkness, a program filled with spiritual and psychological insights, hope-giving stories, and advice for skillfully navigating life's inevitable storms. Standing Our Ground

This colorful, richly textured account of spiritual training and practice within an American Indian social network emphasizes narrative over analysis. Thomas Buckley's foregrounding of Yurok narratives creates one major level of dialogue in an innovative ethnography that features dialogue as its central theoretical trope. Buckley places himself in conversation with contemporary Yurok friends and elders, with written texts, and with twentieth-century anthropology as well. He describes Yurok Indian spirituality as "a significant field in which individual and society meet in dialogue—cooperating, resisting, negotiating, changing each other in manifold ways. 'Culture,' here, is not a thing but a process, an emergence through time."

In high school your friends are everything. You go to the football games together. Listen to music together. Deal with life, love and cafeteria food together. You're like family. But what happens when the people who used to have your back suddenly turn their backs on you? What happens when your best friends, the ones you can't live without, turn the entire school against you? What happens when it seems like you're the only one left who is trying to do what's right? Joel Penton lived this nightmare. But he also lived the dream that followed - a college football scholarship, a National Championship, the girl of his dreams, and oh, by the way, a new group of friends who really have his back. Is there something special about Joel? Not really. He is just an ordinary guy from a small town in Ohio. So how did he do it? That's what this book is about. The secret to Joel's success. And get this - it's something you can do, too. Like Joel, you can succeed. You can be different. You can do something significant in life. You can truly set yourself apart from the rest if you learn to do one simple thing: Stand Your Ground.

In the steamy jungles of West Africa, a Marine Reconnaissance platoon races against time to save the lives of American citizens caught in a bloody civil war. One recon team arrives at a mission only to find they are too late. The missionaries had been burned to death while strung up crucifix style. Realizing that the rebels intend to kill all of the missionaries in the region, the Marines race through the jungle in an attempt to beat the rebels to another nearby mission before they can kill the missionaries there. The Marines arrive just in time to see the guerrillas enter the mission compound and begin killing mission workers. The recon team opens fire and the situation escalates. They successfully push the rebels back into the jungle. Gathering the mission workers, including the mission's doctor, Ellen McKenzie, they flee into the jungle. While on the run, the hospital corpsman, Sean Austin, finds himself struggling with his feelings for the young missionary doctor. Traveling day and night they arrive at the platoon's harbor site. While waiting for helicopters to evacuate the Americans to a waiting ship, the group stumbles onto a large underground crypt left by an ancient civilization. A tropical hurricane forces the Americans to take shelter within the crypt; they discover it is actually a portal to another world. Transported to the middle of a lopsided battle, the group is forced to choose sides and fight against a huge medieval army. Once the great battle is over, the reality of this new world leaves the sojourners from earth conflicted and searching for answers about reality, God, and eternity. Sean is particularly conflicted about his life as a prodigal and his attraction to Dr. McKenzie. Into the Breach is a war of ideals, a war between living a good life and living an obedient life. Liam Morgan takes the reader through adventure after adventure while unraveling our calling, not to be right, but to be obedient.

Misinformation about self-defense rights and laws is what has sparked major debate over the misapplication of lethal force in civilian communities. Bruce Lawlor identifies the major issues in self-defense cases and the legal approaches used to resolve them, resulting in less confusion and greater understanding of what self-defense is.

Award-winning professor and author Matthew Lippman enhances teaching and learning with his newest text, Striking the Balance: Debating Criminal Justice and Law. Organizing the book around clashing points of view on contemporary issues in criminal justice and criminal law, Lippman puts each debate into context for students to help them develop a better understanding of the issue. Designed to develop the reader ' s critical thinking skills, the text offers students summaries of contrasting views from original sources, questions for classroom discussion, and engaging “ You Decide ” activities. Additionally, chapter topics are independent of one another, giving instructors the flexibility to customize the material to their individual course organization. Edited to minimize technical legal terms, the text is the perfect companion to any criminal law or introductory criminal justice textbook.

From Colleen Hoover, the #1 New York Times bestselling author of It Ends With Us, a heart-wrenching love story that proves attraction at first sight can be messy. When Tate Collins meets airline pilot Miles Archer, she doesn't think it's love at first sight. They wouldn ' t even go so far

mutual attraction. Once their desires are out in the open, they realize they have the perfect set-up. He doesn ' t want love, she doesn ' t have time for love, so that just leaves the sex. Their arrangement could be surprisingly seamless, as long as Tate can stick to the only two rules Miles has for her. Never ask about the past. Don ' t expect a future. They think they can handle it, but realize almost immediately they can ' t handle it at all. Hearts get infiltrated. Promises get broken. Rules get shattered. Love gets ugly.

From the national spokesperson for Everytown for Gun Safety and a mother who “ turned her sorrow into a strategy and her mourning into a movement ” (Hillary Clinton) comes the riveting memoir of a mother ' s loss and call to action for common-sense gun laws. Lucia Kay McBath knew deep down that a bullet could one day take her son. After all, she had watched the news of countless unarmed black men unjustly gunned down. Standing Our Ground is McBath ' s moving memoir of raising, loving, and losing her son to gun violence, and the story of how she transformed her pain into activism. After seventeen-year-old Jordan Davis was shot by a man who thought the music playing on his car stereo was too loud, the nation grieved yet again for the unnecessary loss of life. Here, McBath goes beyond the timeline and the assailant ' s defense—Stand Your Ground—to present an emotional account of her fervent fight for justice, and her awakening to a cause that will drive the rest of her days. But more than McBath ' s story or that of her son, Standing Our Ground keenly observes the social and political evolution of America ' s gun culture. A must-read for anyone concerned with gun safety in America, it is a powerful and heartfelt call to action for common-sense gun legislation.

The fifteen new essays collected in this volume address questions concerning the ethics of self-defense, most centrally when and to what extent the use of defensive force, especially lethal force, can be justified. Scholarly interest in this topic reflects public concern stemming from controversial cases of the use of force by police, and military force exercised in the name of defending against transnational terrorism. The contributors pay special attention to determining when a threat is liable to defensive harm, though doubts about this emphasis are also raised. The legitimacy of so-called "stand your ground" policies and laws is also addressed. This volume will be of great interest to readers in moral, political, and legal philosophy.

Based on the true World War II story of the American Library in Paris, an unforgettable novel about the power of books and the bonds of friendship—and the ordinary heroes who can be found in the most perilous times and the quietest places. Paris, 1939. Young, ambitious, and tempestuous, Odile Souchet has it all: Paul, her handsome police officer beau; Margaret, her best friend from England; Remy, her twin brother who she adores; and a dream job at the American Library in Paris, working alongside the library ' s legendary director, Dorothy Reeder. When World War II breaks out, Odile stands to lose everything she holds dear—including her beloved library. After the Nazi army marches into the City of Light and declares a war on words, Odile and her fellow librarians join the Resistance with the best weapons they have: books. Again and again, they risk their lives to help their fellow Jewish readers, but by war ' s end, Odile tastes the bitter sting of unspeakable betrayal. Montana, 1983. Odile ' s solitary existence in gossipy small-town Montana is unexpectedly interrupted by her neighbor Lily, a lonely teenager craving adventure. As Lily uncovers more about Odile ' s mysterious past, they find they share not only a love of language but also the same lethal jealousy. Odile helps Lily navigate the troubled waters of adolescence by always recommending the right book at the right time, never suspecting that Lily will be the one to help her reckon with her own terrible secret. Based on the true story of the American Library in Paris, The Paris Library is a mesmerizing and captivating novel about the people and the books that make us who we are, for good and for bad, and the courage it takes to forgive.

What does the Bible say about the right to self-defense? While the 2nd amendment to the U.S. Constitution protects the right of individuals to keep and bear arms, Christians are guided by a higher law - the law of God. The Bible is certainly not silent on this subject. "Stand Your Ground" lays out the foundation for self-defense found in the Old Testament, the New Testament and the example of Jesus in a concise, yet thorough manner. At the same time, common objections to Christian self-defense are considered and overcome.

Sergeant Sebastian Gray is trying to acclimate himself to the ordinary routine of life on base in Corpus Christi, Texas, after being wounded in battle during a terrorist surge in Syria. When terrorists commence a series of high profile lone-wolf attacks within the United States, his hatred for them is heightened by his inability to take the fight to them. On the anniversary of the deaths of his team, Sebastian finds himself

surrounded by terrorists in a well-planned attack on his base. This time, the terrorists are American soldiers. Or are they? With the help of DEA Agent Sean Ray, Sebastian attempts to distinguish friend from foe in a deadly race against time to stop the deadly attack.

Stand Your Ground, Assert Yourself, and Make Yourself Be Seen

When a group of terrorists, in an attempt to "liberate" their jailed comrades in Hell's Gate Prison, take the town's high school team hostage, Army Ranger Lucas Kincaid and his men—out-numbered, out-gunned and on their own—refuse to back down. Original.

Have you struggled with sins and addictions as far back as you can remember? Does it seem like an invisible curse follows members of your family? Do you wonder why bad things happen to good people? These questions and more are tackled in this engaging and easy-to-follow spiritual guide. That Christians are in a fierce battle cannot be overemphasized, and it is with an enemy we cannot see with our physical eyes. Many Christians live a life of defeat, harassed and bombarded by their arch enemy, Satan. They have not yet fully grasped that when Jesus Christ died on the cross, he completely and utterly defeated Satan! He took back the authority Satan used to deceive Adam and Eve, handing it to the Church. However, our strength is of no use if we don't know we possess it! This is the tragedy of our Lack of Knowledge. God is communicating the wonderful message that we are conquerors through Jesus Christ, and that He who is in us is greater than he who is in the world. God wants His children to live in freedom from the illegal bondage to Satan. You must Stand Your Ground. Jesus has passed the victory banner on to us like a relay runner passing on the baton to the one who will finish the race. Those who perish are those who lack knowledge. Author Nellie Odhuno-Shani was born in Kenya. She has since lived in Zambia, Mauritania, Senegal and the United States. She is a conference speaker and workshop leader. Publisher's website: <http://www.strategicpublishinggroup.com/title/StandYourGround.html>

"Stand your ground" laws : civil rights and public safety implications of the expanded use of deadly force : hearing before the Subcommittee on Constitution, Civil Rights and Human Rights, Committee on the Judiciary, United States Senate, One Hundred Thirteenth Congress, first session, Tuesday, October 29, 2013.

This handbook consists of essays on contemporary issues in criminal law and their theoretical underpinnings.

Some of the essays deal with the relationship between morality and criminalization. Others deal with criminalization in the context of specific crimes such as fraud, blackmail, and revenge pornography. The contributors also address questions of responsible agency such as the effects of addiction or insanity, and some deal with punishment, its mode and severity, and the justness of the state's imposition of it. These chapters are authored by some of the most distinguished scholars in the fields of applied ethics, criminal law, and jurisprudence.

To Stand in the Breach

Based on a Navy SEAL's inspiring graduation speech, this #1 New York Times bestseller of powerful life lessons

"should be read by every leader in America" (Wall Street Journal). If you want to change the world, start off by

making your bed. On May 17, 2014, Admiral William H. McRaven addressed the graduating class of the

University of Texas at Austin on their Commencement day. Taking inspiration from the university's slogan,

"What starts here changes the world," he shared the ten principles he learned during Navy Seal training that helped

him overcome challenges not only in his training and long Naval career, but also throughout his life; and he

explained how anyone can use these basic lessons to change themselves-and the world-for the better. Admiral

McRaven's original speech went viral with over 10 million views. Building on the core tenets laid out in his speech,

McRaven now recounts tales from his own life and from those of people he encountered during his military service who dealt with hardship and made tough decisions with determination, compassion, honor, and courage. Told with great humility and optimism, this timeless book provides simple wisdom, practical advice, and words of encouragement that will inspire readers to achieve more, even in life's darkest moments. "Powerful." --USA Today "Full of captivating personal anecdotes from inside the national security vault." --Washington Post "Superb, smart, and succinct." --Forbes

Did the ground just shake? You're not just imagining it, it's probably an earthquake! An earthquake is a natural phenomenon that cannot be predicted. No instrument can tell when and where an earthquake will happen. So instead of trying to guess, it's better to be prepared. This book will detail what will happen when an Earthquake happens. You arm yourself so you're hard to kill. Know the law so you're hard to convict. Let's face it, the world isn't always nice. That's why you take steps to protect yourself and your family. Whether it be that shotgun in the corner, the sidearm on your hip, or the pepper spray you gave your daughter, you meet that fundamental responsibility. But if you're like most people, your preparations still lack a critical element. You still need to know how to survive the critical fight that looms after any defensive encounter: the legal battle. The Law of Self Defense provides precisely that critical, missing knowledge. This book includes not just the laws of all fifty states, but how the courts apply those laws. It's a plain-talk analysis that makes the law easy to understand for anyone, not just lawyers. Bestselling author, Andrew F. Branca, is not only a lawyer and internationally recognized legal consultant, but also a life-long member of the gun community--more than 20 years as an NRA Life Member and Instructor, an IDPA Master-class competitor, and a 2nd Amendment absolutist. Learn how to make fast, effective decisions and confidently handle life-and-death situations both tactically and legally. Read This Book And Learn the Powerful Legal Truth That Can Save Your Life, Wealth And Personal Freedom

Living with his grandparents while his con-artist father hides from angry customers, Jonathan struggles with

making friends and gaining the trust of his grandparents.
