The former governor of Virginia tells the behind-the-scenes story of the violent “Unite the Right” rally in Charlottesville—and shows how we can prevent other Charlottesvillees from happening. When Governor Terry McAuliffe hung up the phone on the afternoon of the violent “Unite the Right” rally in Charlottesville, he was sure Donald Trump would do the right thing as president: condemn the white supremacists who’d descended on the college town and who’d caused McAuliffe to declare a state of emergency that morning. He didn’t. Instead Trump declared there was “hatred, bigotry and violence on many sides.” Trump was condemned from many sides himself, even by many Republicans, but the damage was done. He’d excused and thus egged on the terrorists at the moment when he could have stopped them in their tracks. In *Beyond Charlottesville*, McAuliffe LOOKS at the forces and events that led to the tragedy IN Charlottesville, including the vicious murder of Heather Heyer and the death of two state troopers in a helicopter accident. He doesn’t whitewash Virginia history and discusses a KKK protest over the removal of a statue of Robert E. Lee. He takes a hard real-time behind-the-scenes look at the actions of everyone on that fateful August 12, including himself, to see what could have been done. He lays out what was done afterwards to prevent future Charlottesvillees—and what still needs to be done as America in general and Virginia in particular continue to grapple with their history of racism. *Beyond Charlottesville* will be the definitive account of an infamous chapter in our history, seared indelibly into memory, sure to be cited for years as a crucial reference point in the long struggle to fight racism, extremism and hate.

“I wrote this book because I love my country and I’m concerned about our future,” writes Bill Clinton. “As I often said when I first ran for President in 1992, America at its core is an idea—the idea that no matter who you are or where you’re from, if you work hard and play by the rules, you’ll have the freedom and opportunity to pursue your own dreams and leave your kids a country where they can chase theirs.” In *Back to Work*, Clinton details how we can get out of the current economic crisis and lay a foundation for long-term prosperity. He offers specific recommendations on how we can put people back to work and create new businesses, increase bank lending and corporate investment, double our exports, and restore our manufacturing base. He supports President Obama’s emphasis on green technology, saying that change in the way we produce and consume energy is the strategy most likely to spark a fast-growing economy and enhance our national security. Clinton also says that we need both a strong economy and a smart

government working together to restore prosperity and progress. He demonstrates that whenever we’ve given in to the temptation to blame government for our problems, we’ve lost our commitment to shared prosperity, balanced growth, financial responsibility, and investment in the future. That has led our nation into trouble because there are some things we have to do together. For example, he says, “Our ability to compete in the twenty-first century is dependent on our willingness to invest in infrastructure: we need faster broadband, a state-of-the-art national electrical grid, modernized water and sewer systems, and the best airports, trains, roads, and bridges. “There is no evidence that we can succeed in the twenty-first century with an antigovernment strategy,” writes Clinton, “with a philosophy grounded in ‘You’re on your own’ rather than ‘We’re all in this together.’” Clinton believes that conflict between government and the private sector has proved to be remarkably good politics, but it has produced bad policies, giving us a weak economy with few jobs, growing income inequality and poverty, and a decline in our competitive position. In the real world, cooperation works much better than conflict, and “we need victories in the real world.”

Plame's relationship with the CIA was formerly classified information. Libby was indicted on five counts relating to the Plame affair: Two counts of perjury, two counts of making false statements to federal investigators, and one count of obstruction of justice. Libby resigned all three government positions immediately after the indictment was announced. In the subsequent federal trial, *United States v. Libby*, the jury convicted Libby on four of the five counts in the indictment (one count of obstruction of justice, two counts of perjury, and one of the counts of making false statements) and acquitted...

Two Parties and a Funeral--plus, Plenty of Valet Parking!--in America's Gilded Capital

The biography of Christa McAuliffe--the eldest child of a close Catholic Massachusetts family and a dedicated Girl Scout who came of age in the turbulent sixties and early seventies and became a schoolteacher and a mother. She was little known beyond her personal circle until selected by NASA to be the first civilian sent on a space mission as the "Teacher in Space."

Remarks delivered by Virginia Governor Terry McAuliffe at the 53rd annual Independence Day celebration and naturalization ceremony at Monticello, Virginia, on July 4, 2015. The speaker discusses wide range of interests and contributions to the development of the United States by Thomas Jefferson, the son of an immigrant, and the importance of immigrants to America.

Builds on the tradition of Kevin Phillips's *The Emerging Republican Majority*, forecasting a progressive era as indicated by a rise of a diverse post-industrial society and current opinions on such topics as health care and the environment. Reprint.

In this controversial and provocative book, Mary Anne Franks examines the thin line between constitutional fidelity and constitutional fundamentalism. *The Cult of the Constitution* reveals how deep fundamentalist strains in both conservative and liberal American thought keep the Constitution in the service of white male supremacy. Constitutional fundamentalists read the Constitution selectively and self-servingly. Fundamentalist interpretations of the Constitution elevate certain constitutional rights above all others, benefit the most powerful members of society, and undermine the integrity of the document as a whole. The conservative fetish for the Second Amendment (enforced by groups such as the NRA) provides an obvious example of constitutional fundamentalism; the liberal fetish for the First Amendment (enforced by groups such as the ACLU) is less obvious but no less influential. Economic and civil libertarianism have increasingly merged to produce a deregulatory, "free-market" approach to constitutional rights that achieves fullest expression in the idealization of the Internet. The worship of guns, speech, and the Internet in the name of the Constitution has blurred the boundaries between conduct and speech and between veneration and violence. But the Constitution itself contains the antidote to fundamentalism. *The Cult of the Constitution* lays bare the dark, antidemocratic consequences of constitutional fundamentalism and urges readers to take the Constitution seriously, not selectively.

June 2019: The minutes tick away toward six pm. As commuters stream out of central London a truck idles by the pavement in Whitehall, its cargo bay packed with powerful explosives. Chaos is about to begin. The face of Europe is about to change, moulded by a series of events that will have global repercussions far into the future. An irreverent look behind the scenes of American politics from one of the most sought-after operatives in the Democratic Party Lis Smith isn't your average political strategist and *Any Given Tuesday* isn't your typical political memoir. At once a revealing look at human nature at the highest levels of power and an intimate portrayal of a sometimes rocky personal journey, it breaks all the rules. Smith doesn't pretend to be perfect—she owns the controversial choices that landed her in the tabloids, as well as the unorthodox ones that have paid off and defined her successful career. *Any Given Tuesday* follows Smith from her earliest experiences as a college-aged intern to her days as a trusted adviser and confidante to some of the most high-profile politicians in the country—including her star turn as senior adviser on Pete Buttigieg's 2020 presidential campaign. Animated by Smith's love for the hand-to-hand combat of politics and sustained by her deeply-held belief that it's still possible to effect positive change, it's an odyssey full of highs and lows and larger-than-life characters. Throughout, Smith shows what it's really like behind the curtain: what happens when the lights go down and the cameras turn off, how it feels to be in the eye of the political media storm, and how the people responsible for heady, life and death decisions are as flawed as the rest of us. While the journey hasn't always been smooth, Lis Smith has seen and learned a lot—and she shares it all in this eye-opening, entertaining memoir.

As the national campaign manager for Ralph Nader's historic runs for president in 2000 and 2004, Theresa Amato had a rare ringside role in two of the most hotly contested presidential elections this country has seen. In *Grand Illusion*, she gives u...

A 2016 Michael L. Printz Honoree "This is East Texas, and there's lines. Lines you cross, lines you don't cross. That clear?" New London, Texas. 1937. Naomi Vargas and Wash Fuller know about the lines in East Texas as well as anyone. They know the signs that mark them. They know the people who enforce them. But sometimes the attraction between two people is so powerful it breaks through even the most entrenched color lines. And the consequences can be explosive. Ashley Hope Pérez takes the facts of the 1937 New London school explosion—the worst school disaster in American history—as a backdrop for a riveting novel about segregation, love, family, and the forces that destroy people.

A Campaign Novel

In August 2017, violence erupted in Charlottesville, Virginia, during two days of demonstrations by white supremacists, neo-Nazis, and counterprotesters, including members of antifa and Black Lives Matter. Ostensibly motivated by the city's plans to remove Confederate statues from two public parks, members of the alt-right descended first on the University of Virginia and then, disastrously, on the city's downtown. As these violent and ultimately deadly events gripped the attention of the nation, extensive coverage in both mainstream and fringe media promulgated competing narratives. *Summer of Hate* is the investigative journalist Hawes Spencer's unbiased, probing account of August 11 and 12. Telling the story from the perspectives of figures on all sides of the demonstrations, Spencer, who reported from Charlottesville for the New York Times, carefully recreates what happened and why. Focusing on individuals including activists, city councilors, faith leaders, and the police, Spencer creates an objective, panoramic narrative that renders these dramatic events, and the ongoing conflicts underlying them, in all their complexity.

The four most powerful African American women in politics share the story of their friendship and how it has changed politics in America. The lives of black women in American politics are remarkably absent from the shelves of bookstores and libraries. *For Colored Girls Who Have Considered Politics* is a sweeping view of American history from the vantage points of four women who have lived and worked behind the scenes in politics for over thirty years—Donna Brazile, Yolanda Caraway, Leah Daughtry, and Minyon Moore—a group of women who call themselves The Colored Girls. Like many people who have spent their careers in public service, they view their lives in four-year waves where presidential campaigns and elections have been common threads. For most of the Colored Girls, their story starts with Jesse Jackson's first campaign for president. From there, they went on to work on the presidential campaigns of Walter Mondale, Michael Dukakis, Bill Clinton, Al Gore, Barack Obama and Hillary Rodham Clinton. Over the years, they've filled many roles: in the corporate world, on campaigns, in unions, in churches, in their own businesses and in the White House. Through all of this, they've worked with those who have shaped our country's history—US Presidents such as Bill Clinton and Barack Obama, well-known political figures such as Terry McAuliffe and Howard Dean, and legendary activists and historical figures such as Jesse Jackson, Coretta Scott King, and Betty Shabazz. *For Colored Girls Who Have Considered Politics* is filled with personal stories that bring to life heroic figures we all know and introduce us to some of those who've worked behind the scenes but are still hidden. Whatever their perch, the Colored Girls are always focused on the larger goal of "hurrying history" so that every American — regardless of race, gender or religious background — can have a seat at the table. This is their story.

In 1981, the Commonwealth of Virginia, which had been dominated for decades by "the Organization," a political machine led by former Governor and U.S. Senator Harry Byrd Sr., took its first baby steps to becoming the vibrant state it is today. That year, Charles Robb rejected the machine and began a new Democratic Party in his campaign for governor. Instead of running against African Americans, Robb reached out to Douglas Wilder, the state's only African American State Senator and other leaders in the African American Community to rally voters of color to support the Democratic ticket. With the help of a heavy African American turnout, Robb won and the Byrd machine was crushed. In 1985, just four years later, Doug Wilder won the party's nomination for Lieutenant Governor against the cries of "Virginia isn't ready" and, later that year, defied the naysayers by being elected to that office. Within five years, he would be sworn in as the first elected African American governor in American history.

SON OF VIRGINIA by L. Douglas Wilder details the events of the author's life to paint a portrait of the changing face of America. It will be a story of constant struggle and conflict, not only Wilder's struggle, but also that of courageous people who stood up to decades of discrimination, corruption and greed. The book will stand as a road map for continued American progress in our elections and laws and a stark warning of what may happen if we relax our commitment to this program.

Nuts! The Life & Times of General Tony McAuliffe Award winning Author Tom McAuliffe, chronicles General "Nuts!" McAuliffe's, Siege at Bastogne during WW2's crucial Battle of the Bulge and his 35+ year career defending America. Early in December 1944, Nazi gunfire shattered the silence of the huge Ardennes forest of Belgium causing widespread panic and eventual devastation. In a last attempt to win the war Hitler gambled it all and ten armored German divisions sporting the newly improved 'Tiger' Panzer tank, as well as 25 infantry divisions launched towards the Allied line which stretched 800 to 1000 miles from Holland in the North across to France in the South. Their mission was to fight their way through the American and British defenses, reduce their will to fight and reach the city and supplies of Antwpt. Adolf Hitler wanted to replicate his stunning triumphs of 1940, when he swept over the exact same region. The surprise German offensive had created a huge 'bulge' in the front lines and had encircled the historic 16th-Century crossroad town of Bastogne leaving less than 500 men of the 101st Airborne and the 10th Armored Division stranded and alone in the dead of winter under the command of colorful US Army General Tony McAuliffe. In 'Nuts!', this true saga of courage and survival is pieced together from many first hand accounts focusing on the General and his men and featuring many rare photographs. But this is a book about not just the battle that defined him but about his 30 years of service in the United States Army. This is the second volume of the 5-book 'McAuliffe' series and is written by the General's distant relative Tom McAuliffe with able assistance from the General's Nephew Ken McAuliffe. The siege of Bastogne and the 'Battle of the Bulge' was Germany's last attempt to win the war and was thee pivotal event on the road to allied victory in WWII. McAuliffe was on the edge of history for pivotal events during his more than 35 years on Active Duty; from helping to create innovative war tools like the Duck Amphibous Vehical, to intergrating the Army to testing the Atomic Bomb. 'Nuts' is a special read for any student of courage and the second world war. 'Nuts! The Life & Times of General Tony McAuliffe' is available as an eBook, Paperback and Audiobook on Amazon, Kindle, Audible, Apple and at your favorite independent media store. Virginia played an important role during World War I, supplying the Allied forces with food, horses and steel in 1915 and 1916. After America entered the war in 1917, Virginians served in numerous military and civilian roles—Red Cross nurses, sailors, shipbuilders, pilots, stenographers and domestic gardeners. More than 100,000 were drafted—more than 3600 lost their lives. Almost every city and county lost men and women to the war. The author details the state's manifold contributions to the war effort and presents a study of monuments erected after the war.

Presents information about the state of Louisiana, its nickname, flag, motto, and emblems.

New York Times bestselling author and ambush journalist Jason Mattered sets his sights on his next big target: crony liberals, including Al Gore, Carlos Slim, Harry Reid, and Jay Z, whose riches come at taxpayer expense. From billionaire business tycoons like George Soros and Warren Buffett to movie industry moguls like Jeffrey Katzenberg and Stephen Spielberg, American liberals are using government breaks and shortcuts to pervert the free market. These "rich bastards" leverage crony connections to bag millions for phony "green companies" that go bust, vacuum public coffers to build glitzy stadiums, utilize little-known tax loopholes to loot \$1.5 billion for Hollywood movies, and more. They use government to rig the game in their favor and leave taxpayers holding the bill. And when government gets in the business of picking winners and losers through bailouts and tax breaks, free market competition begins to atrophy. That's what big government leftists—and corporate Republicans-in-name-only—want to happen. In this explosive, funny-as-hell investigative exposé, Mattered reveals the infuriating schemes that result when the filthy rich combine cronyism and capitalism. Crapitalism pulls back the curtain on a cast of cronyites who make millions taking advantage of taxpayers—and still brag about how they're looking out for the little guy.

Cooking with Grease is a powerful, behind-the-scenes memoir of the life and times of a tenacious political organizer and the first African-American woman to head a major presidential campaign. Donna Brazile fought her first political fight at age nine -- campaigning (successfully) for a city council candidate who promised a playground in her neighborhood. The day after Martin Luther King Jr. was assassinated, she committed her heart and her future to political and social activism. By the 2000 presidential election, Brazile had become a major player in American political history -- and she remains one of the most outspoken and forceful political activists of our day. Donna grew up one of nine children in a working-poor family in New Orleans, a place where talking politics comes as naturally as stirring a pot of seafood gumbo -- and where the two often go hand in hand. Growing up, Donna learned how to cook from watching her mother, Jean, stir the pots in their family kitchen. She inherited her love of reading and politics from her grandmother Frances. Her brothers Teddy Man and Chet worked as foot soldiers in her early business schemes and voter registration efforts. Cooking with Grease follows Donna's rise to greater and greater political and personal accomplishments: lobbying for student financial aide, organizing demonstrations to make Martin Luther King Jr.'s birthday a national holiday and working on the Jesse Jackson, Dick Gephardt, Michael Dukakis and Bill Clinton presidential campaigns. But each new career success came with its own kind of heartache, especially in her greatest challenge: leading Al Gore's 2000 campaign, making her the first African American to lead a major presidential campaign. Cooking with Grease is an intimate account of Donna's thirty years in politics. Her stories of the leaders and activists who have helped shape America's future are both inspiring and memorable. Donna's witty style and innovative political strategies have garnered her the respect and admiration of colleagues and

adversaries alike -- she is as comfortable trading quips with J. C. Watts as she is with her Democratic colleagues. Her story is as warm and nourishing as a bowl of Brazile family gumbo. For four hundred years, Virginia's politicians have preached a "Virginia Way" of honor, gentility and democracy. In reality, this ideology bred a corrupt political class, a runaway electricity company, a university that reflected the values of donors and a school system that suffered from cronyism. This Virginia Way prevented rather than promoted the success of its stated democratic ideals. Readers from the right, left and middle will learn much about how their government operates and understand Virginia in a whole new way. Author Jeff Thomas explodes the myth of the Virginia Way with an insightful portrait of the people, politics and power that run the Commonwealth.

When the networks called the 2020 presidential election for Joe Biden on Saturday, November 7, 2020, people from coast to coast exhaled--and danced in the streets. This quick-turnaround volume, a collection of 38 personal essays from writers all over the country--"many of America's most thoughtful voices," as Jon Meacham puts it--captures the week Trump was voted out, a unique juncture in American life, and helps point toward a way forward to a nation less divided. An eclectic lineup of contributors--from Rosanna Arquette, Susan Bro and General Wesley Clark to Keith Olbermann, Stewart O'Nan and Anthony Scaramucci--puts a year of transition into perspective, and summons the anxieties and hopes so many have for better times ahead. As award-winning columnist Mary C. Curtis writes in the lead essay, "Saying you're not interested in politics is dangerous because, like it or not, politics is interested in you." Novelist Christopher Buckley, a former speechwriter for Vice President George H.W. Bush, laments, "The Republican Senate, with one exception, has become a stay of ovine, lickspittle quislings, degenerate descendants of such giants as Everett Dirksen, Barry Goldwater, Howard Baker and John McCain." Nero Award-winning mystery novelist Stephen Mack Jones writes, to Donald Trump, "Remember: You live in my house. 1600 Pennsylvania Avenue is my house. My ancestors built it at a cost of blood, soul and labor. I pay my taxes every year to feed you, clothe you and your family and staff and fly you around the country and the world in my tricked-out private jet. If you violate any aspect of your four-year lease--any aspect--Lord Jesus so help me, I will do everything in my power to kick yo narrow ass to the curb." As Publisher Steve Kettmann writes in the Introduction: "The hope is that in putting out these glimpses so quickly, giving them an immediacy unusual in book publishing, we can help in the mourning for all that has been lost, help in the healing (of ourselves and of our country), and help in the pained effort, like moving limbs that have gone numb from inactivity, to give new life to our democracy. We stared into the abyss, tottered on the edge, and a record-setting surge of voting and activism delivered us from the very real threat of plunging into autocracy."
