From a Pulitzer Prize finalist and New York Times bestselling author and poet comes a galvanizing meditation on the power of art and culture to illuminate America's unresolved problem with race. *Named a Most Anticipated Title of 2022 by TIME magazine, New York Times, Bustle, and more* In the midst of civil unrest in the summer of 2020 and following the murders of George Floyd, Breonna Taylor, and Ahmaud Arbery, Elizabeth Alexander—one of the great literary voices of our time—turned a mother's eye to her sons' and students' generation and wrote a celebrated and moving reflection on the challenges facing young Black America. Originally published in the New Yorker, the essay incisively and lovingly observed the experiences, attitudes, and cultural expressions of what she referred to as the Trayvon Generation, who even as children could not be shielded from the brutality that has affected the lives of so many Black people. The Trayvon Generation expands the viral essay that spoke so resonantly to the persistence of race as an ongoing issue at the center of the American experience. Alexander looks both to our past and our future with profound insight, brilliant analysis, and mighty heart, interweaving her voice with groundbreaking works of art by some of our most extraordinary artists. At this crucial time in American history when we reckon with who we are as a nation and how we move forward, Alexander's lyrical prose gives us perspective informed by historical understanding, her lifelong devotion to education, and an intimate grasp of the visioning power of art. This breathtaking book is essential reading and an expression of both the tragedies and hopes for the young people of this era that is sure to be embraced by those who are leading the movement for change and anyone rising to meet the moment.

The murder of unarmed teenager Trayvon Martin and the subsequent trial and acquittal of his assailant, George Zimmerman, sparked a passionate national debate about race and criminal justice in America that involved everyone from bloggers to mayoral candidates to President Obama himself. With increased attention to these causes, from St. Louis to Los Angeles, intense outrage at New York City's Stop and Frisk program and escalating anger over the effect of mass incarceration on the nation's African American community, the Trayvon Martin case brought the racialized nature of the American justice system to the forefront of our national consciousness. *Deadly Injustice* uses the Martin/Zimmerman case as a springboard to examine race, crime, and justice in our current criminal justice system. Contributors explore how race and racism informs how Americans think about criminality, how crimes are investigated and prosecuted, and how the media interprets and reports on crime. At the center of their analysis sit examples of the Zimmerman trial and Florida's controversial Stand Your Ground law, providing current and resonant examples for readers as they work through the bigger-picture problems plaguing the American justice system. This important volume demonstrates how highly publicized criminal cases go on to shape public views about offenders, the criminal process, and justice more generally, perpetuating the same unjust cycle for future generations. A timely, well-argued collection, *Deadly Injustice* is an illuminating, headline-driven text perfect for students and scholars of criminology and an important contribution to the discussion of race and crime in America.

Trayvon Martin was racially profiled and murdered, a law enforcer was involved in his murder, and institutional racism from cops and prosecutors prevented justice for this murdered child. Trayvon Martin was a young, African-American male who had just turned 17 when a non-black male neighborhood watchman, George Zimmerman, killed him with a law enforcer as his accomplice. However, this has been kept secret. Zimmerman claimed self-defense, the police supported him, and the prosecutor lost the case. Did Zimmerman's description of events take place? Why did the police protect him and his accomplices? Why and how did the prosecution lose the case? This book answers these questions in fact based detail, provides a fact based scenario of the events, shows exactly how the prosecution threw the case, and reveals the unimaginable trickery used to distort events. The facts and evidence point to racial profiling, institutional racism, a murder cover-up by law enforcers, and the "good old boy" system.

Trayvon Martin 's parents take readers beyond the news cycle with an account only they could give: the intimate story of a tragically foreshortened life and the rise of a movement. " A reminder—not only of Trayvon 's life and death but of the vulnerability of black lives in a country that still needs to be reminded they matter. " —USA Today Now a docuseries on the Paramount Network produced by Shawn Carter Years after his tragic death, Trayvon Martin 's name is still evoked every day. He has become a symbol of social justice activism, as has his hauntingly familiar image: the photo of a child still in the process of becoming a young man, wearing a hoodie and gazing silently at the camera. But who was Trayvon Martin, before he became, in death, an icon? And how did one black child 's death on a dark, rainy street in a small Florida town become the match that lit a civil rights crusade? *Rest in Power*, told through the compelling alternating narratives of his parents, Sybrina Fulton and Tracy Martin, answers those questions from the most intimate of sources. The book takes us beyond the news cycle and familiar images to give the account that only his parents can offer: the story of the beautiful and complex child they lost, the cruel unresponsiveness of the police and the hostility of the legal system, and an inspiring journey from grief and pain to power, and from tragedy and senselessness to purpose.

In "The Lion and The Lamb: The Trayvon Martin Tragedy," Dr. Eric Gerard Pearman uses metaphors to depict George Michael Zimmerman and Trayvon Benjamin Martin. Zimmerman is portrayed as a lion because he decided to stalk his prey rather than stay in his vehicle. Trayvon, on the other hand, is represented as a lamb because of a nonaggressive persona while fleeing from an overpowering predator. "The Lion and The Lamb" is written as a tribute to Trayvon Martin. This book seeks to highlight those positive attributes that the electronic media continues to negate in its coverage of his life. Furthermore, it is

my sincere hope that this book contributes to a much needed discussion that is open and honest on race relations and the negative perception that the media continues to play in the overall destruction of the African American male.

Factual account and reference of one of our nation's most controversial verdicts. The George Zimmerman Murder Trial and The Killing of Trayvon Martin will force us to re-examine our opinions of racial equality and the right to self-defense in our legal system. This book addresses the unanswered questions about the trial, verdict and jury. It includes the actual law and actual jury instructions that the Judge used at trial.

This book is dedicated to Trayvon Martin and all African Americans who died by police brutality.

Attorney Rothschild's book "A Million Prosecutor Mistakes" tells what went wrong during neighborhood watchman George Zimmerman's trial for shooting Trayvon Martin through the heart with a semi-automatic weapon and is the only book about the killing that was written by a criminal prosecutor. With 30 years experience prosecuting violent offenders Attorney Rothschild watched the 2013 trial and then for 7 years she reviewed all the evidence including the testimony of 38 prosecution witnesses and 19 defense witnesses. Finally, "A Million Prosecutor Mistakes" exposes in detail how the team of Florida prosecutors dropped the ball and failed to convict the confessed killer of an unarmed 17-year old African-American boy. Unfortunately, almost a decade later, the killing of unarmed blacks is still a hot topic in the news and the fact that they face danger both inside and outside the justice system.

In Feb, 2012, Trayvon was visiting his father, Tracy Martin, who lives in Sanford, Florida. The reason for his visit during this time of year is not in question. However let's say he had some time on - hand after he had received a 10-day suspension from his Senior High School. Regardless of the reason for the suspension, he was in Sanford to spend time with his dad.

Wrong is the first comprehensive text to analyze not only the killing of Trayvon Martin, but the implications of this event for the state of race in the United States. Bringing together contributions from a variety of disciplines and approaches, this text pushes readers to answer the question: " In the wake of the killing of Trayvon Martin, and the acquittal of his killer, how post-racial can we claim to be? " This collection of short and powerful chapters is at times angering and at times hopeful, but always thought provoking, critical, and poignant. This interdisciplinary volume is well suited for undergraduate and graduate students as well as faculty in sociology, social work, law, communication, and education. This book can also be read by anyone interested in social justice and equity through the lens of race in the 21st century. " This text is an invitation to a rebellion—the inevitable insurgency of Black youth brewing right now across the land as the descendants of enslaved workers step up to exercise their agency, and at that moment become agents of liberty and actors in history. " – William Ayers, Distinguished Professor from the University of Illinois – Chicago " ... the authors [...] offer incisive and vivid examinations of the contours of white supremacy today, inviting readers into a much-needed discussion of moral questions surrounding the very foundation life in the U.S. " – Christine Sleeter, Professor Emerita, California State University Monterey " Trayvon Martin, Race, and American Justice: Writing Wrong is a powerful assemblage of voices that speak to the salience of race, gender, and their intersection. Collectively, the authors provide us with poignant reminders of the multiple forces that rail against Black males in our society. Each chapter grabs our attention, ignites our activism, and encourages us to remain steadfast in the struggle toward a true democracy for all Americans – a society where Black males ' lives are valued and they no longer face daily threats to their humanity. " – Yolanda Sealey-Ruiz, Assistant Professor, Teachers College, Columbia University " While motivated by Trayvon Martin ' s unfortunate and tragic death, this impressive collection serves as a one-of-a-kind tribute to Martin and will help to keep his legacy alive. The contributions are evocative and accessible, and while the focus is on Martin, the contributions also call attention to mundane, severe, and systemic racial wrongdoings, biases in existing research, colorblindness and white privilege, and erasures of history and failures of memory. " – Tony E. Adams, Professor at Northeastern Illinois University and NCA book award winner " The editors and contributors have taken a tragic topic and presented it in a way that is engaging, effective, and surprisingly optimistic. There is a style for everyone here, making it a great text for multiple audiences and classrooms. A truly superb addition to any classroom and a great read for those interested in social justice in today ' s world. " – U. Melissa Anyiwo, Professor and Coordinator of African American Studies, Curry College " Trayvon Martin, Race, and American Justice: Writing Wrong is true to its title; it focuses attention—through critical writing—on the pernicious, pervasive, and persistent violence waged against black men, especially black male youth, in American society. Using the still unpunished pre-meditated murder of Trayvon Martin as a highly emblematic example of this violence, the editors and authors use carefully crafted and sequenced poetry and prose to write truth to power about the economic, political, social, and cultural factors that produce and reproduce systemic aggression toward especially men and boys of African descent, but also toward members of other societally minoritized groups. The breadth and depth of the contributions included in Trayvon Martin, Race, and American Justice: Writing Wrong makes it a particularly valuable resource

for faculty and students engaged in teaching, learning, research, service, and activism related to issues of race, racism, blackness, whiteness, class, caste, classism, language, dialect, literacy, linguistic, geographic and national origin, immigration status, sex, gender, gender identity and expression, masculinity, sexual orientation, size, appearance, and, more broadly, equity, equality, and social justice. Chapters reflect the thoughtful insight and advanced expertise of their authors, who bring increased levels of complexity to historical and contemporary dialogue, discussion, and debate about especially race and racism in the United States. The editors' selection of contributors and organization of contributions balances pain truth-telling with hope and possibility for a more just future. In sum, *Trayvon Martin, Race, and American Justice: Writing Wrong* reciprocally links theory and practice relating to issues of power, privilege, oppression, discrimination—and liberation. ” – Christine Clark, Professor & Senior Scholar in Multicultural Education, and Founding Vice President for Diversity and Inclusion, University of Nevada, Las Vegas “ Chapters in this timely and probing book stare straight at a difficult incident, refuse to ignore injustice, but call on a higher purpose of great academic criticism in “ writing the wrong. ” Here the wrong is the corrosive and sometimes lethal bias by many in power toward black males, who are too often seen as dangerous and disposable in American society. The killing of Trayvon Martin and the subsequent acquittal of his killer George Zimmerman are examined by minds informed by reflection on theory and history. We hear of conversations that black parents, particularly mothers who often felt on trial themselves, had with their teenage sons. Some of these endangered sons were outraged by the act and verdict, while some others were indifferent. Chapters are devoted to the incident, the trial and aftermath, and to the future of the struggle against racial injustice. Through what T. J. Yosso calls “ resistant capital ” we are urged to continue to interrogate a judicial system that prosecutes not only black males but their parents and families. There is much to learn here about the current state of social justice and the way we live with and among each other. In both prose and poetry these impassioned authors strive to write the wrong of Trayvon Martin and many others like him. I recommend this volume highly and will use it in my graduate classes. ” – AG Rud, Distinguished Professor, College of Education, Washington State University Kenneth J. The authors bring you in this edited volume a collection of essays that address the relationship between racial violence, media, the criminal justice system, and education. This book is unique in that it brings together the perspectives of university professors, artists, poets, community activists, classroom teachers, and legal experts. With the Trayvon Martin murder and legal proceedings at the center of reflection and analysis, authors poignantly provide insight into how racial violence is institutionalized and consumed by the mass public. Authors borrow from educational theory, history, gender studies, sociology, cultural studies, the arts, legal

scholarship, and personal reflection to begin the dialogue on how to move toward education for racial and social justice. The book is recommended for secondary educators, community organizers, undergraduate and graduate social science and education courses. In this stunning work of investigative journalism, filmmaker Joel Gilbert uncovers the true story of the shooting death of 17-year-old Trayvon Martin, a tragedy that divided America. By examining Trayvon's 750-page cell phone records, Gilbert discovers that the key witness for the prosecution of George Zimmerman, the plus-sized 18-year-old Rachel Jeantel, was a fraud. It was in fact a different girl who was on the phone with Trayvon just before he was shot. She was the 16-year-old named "Diamond" whose recorded conversation with attorney Benjamin Crump ignited the public, swayed President Obama, and provoked the nation's media to demand Zimmerman's arrest. Gilbert's painstaking research takes him through the high schools of Miami, into the back alleys of Little Haiti, and to finally to Florida State University where he finds Trayvon's real girlfriend, the real phone witness, Diamond Eugene. Gilbert confirms his revelations with forensic handwriting analysis and DNA testing. After obtaining unredacted court documents and reading Diamond's vast social media archives, Gilbert then reconstructs the true story of Trayvon Martin's troubled teenage life and tragic death. In the process, he exposes in detail the most consequential hoax in recent American judicial history, The Trayvon Hoax, that was ground zero for the downward spiral of race relations in America. This incredible book has the potential to correct American history and bring America back together again. These words were penned by then, 19-year-old Terrence McCrea, who, unlike many young African Americans, didn't just take to the street in protest over the "Not Guilty" verdict in the Trayvon Martin case, but decided to challenge it in writing. Follow his journey as his words channel the shock, the dismay, and the anger felt by both young and old Blacks over the injustice of this court verdict. McCrea's essays are even more penetrating two years later because, today, as a college student living in Long Beach, California, he is as equally vulnerable as the late Trayvon Martin was. This book, written by a young man with insights beyond his years, calls into question a legal ruling, which has become the status quo. This book is a must read for both young and old. *A Gathering of Words: Poetry and Commentary for Trayvon Martin*

Trayvon Martin, the Whole Story

Trayvon B. Martin

An American Tragedy

A Black and White Decision

Trayvon Martin was an African American from Miami Gardens, Florida, who, at 17 years old, was fatally shot by George Zimmerman, a neighborhood watch volunteer, in Sanford, Florida. Martin, who was serving a school suspension, had gone with his father on a visit to his father's fiancée at her townhouse at The Retreat at Twin Lakes in Sanford. On the evening of February 26, Martin went to a convenience store and purchased candy and a canned drink. As Martin returned from the store, he walked through a neighborhood that had been victimized by robberies several times that year. Zimmerman, a member of the community watch, spotted him and called the Sanford Police to report him for suspicious behavior. Moments later, there was an altercation between the two individuals in which Zimmerman shot Martin in the chest. Zimmerman, who was injured in the altercation, was not charged at the time of the shooting by the Sanford Police, who said that there was no evidence to refute his claim of self-defense and that Florida's stand your ground law prohibited law-enforcement officials from arresting or charging him. After national media focused on the tragedy, Zimmerman was eventually charged and tried in Martin's death. A jury acquitted Zimmerman

of second-degree murder and manslaughter in July 2013. Martin was born in Miami, Florida, and attended both Norland Middle School and Highland Oaks Middle School, in north Miami-Dade County, Florida. He attended Miami Carol City High School in Miami Gardens for his freshman and sophomore years, and at the time of the shooting was a junior at Dr. Michael M. Krop High School in north Miami-Dade. Following Martin's death, rallies, marches and protests were held across the nation. In March 2012, hundreds of students at his high school held a walkout in support of him. An online petition calling for a full investigation and prosecution of Zimmerman garnered 2.2 million signatures. Also in March, the media coverage surrounding Martin's death became the first story of 2012 to be featured more than the presidential race, which was underway at the time. A national debate about racial profiling and stand your ground laws ensued, and the governor of Florida appointed a task force to examine the state's self-defense laws. Martin's life was scrutinized by the media and bloggers who examined the digital footprint he had left behind. On social media, the name "Trayvon" was tweeted (mentioned in posts to Twitter web feeds by users of the service) more than two million times in the 30 days following the shooting. More than 1,000 people attended the viewing of his remains the day before his funeral, which was held on March 3, 2012 in Miami, Florida. He was buried in Dade-Memorial Park (North), in Miami. A memorial was dedicated to Martin at the Goldsboro Westside Historical Museum, a black history museum in Sanford in July 2013.

For my honors thesis, I will be analyzing the 2013 State of Florida v. Zimmerman case in order to gain a better understanding of the communication patterns surrounding this racially charged case and how coverage differed across various media. In order to execute this project, I will divide my thesis chapters by media type: print media (newspapers/news articles), television media, the National Public Radio and social media. Using a critical approach through Kenneth Burke's concept of the representative anecdote, I hope to uncover the narratives used to describe Trayvon Martin and to elucidate the way the media framed the case for their listeners. How did these narratives overlap? How did they differ? How did the narratives told in black press relate to mainstream coverage? How did the media make sense of the incident and what are the implications of these narratives from a rhetorical standpoint? Using this background, I will offer my interpretation of the case as it unfolded over time, taking into consideration the coverage presented by the media and the representative anecdote theory by Burke. By exploring these research questions, I hope to provide an in depth media analysis of one of the most controversial cases of this decade.

(Re)Teaching Trayvon: Education for Racial Justice and Human Freedom

"The killing of Trayvon Martin has become a national tragedy. In addition to the unnecessary and tragic death of a young black teenager, nearly half of our country and most African Americans believe a grave injustice has occurred. While most of the minority community are resolute in their dislike of the verdict, a majority in the legal community and most white Americans believe George Zimmerman was innocent. All Americans should be concerned that so many people of color believe this case represents injustice and is another example of how little we value the lives of African American men and boys. America is a better place when her citizens recognize when people hurt and have suffered injustice. Trayvon Martin will remain a symbol and the question for history is this: "What lessons will be learned and what will his death inspire?"--Back cover.

On the rainy Sunday evening of February 26, 2012, the lives of two

individuals collided at the Retreat at Twin Lakes, a gated townhouse community in the Orlando suburb known as Sanford, Florida. George Zimmerman, a 28-year-old insurance underwriter and neighborhood watch volunteer, grew suspicious of Trayvon Martin, a 17-year-old high schooler who was temporarily staying at the home of his father's fiancée who lived in the small gated subdivision. Martin, unarmed and dressed in a dark-colored hooded sweatshirt, was walking home after going to a nearby 7-11 store to buy a can of Arizona Iced Tea and a bag of Skittles. Martin had committed no crime, but Zimmerman, concerned about recent burglaries and thefts in the neighborhood, called police to report "a real suspicious guy" who Zimmerman said was "up to no good . . . or [was] on drugs or something." Minutes later, Trayvon Martin lay dead from a single gunshot wound to the chest. After Sanford police and prosecutors, unable to refute Zimmerman's claim of self defense, declined to charge him with the killing, Florida's governor appointed a special prosecutor, Jacksonville State Attorney Angela Corey, to investigate the case in the wake of protests and racially-charged anger that spread from coast to coast. Bypassing a grand jury, Corey filed second-degree murder charges against the neighborhood watch volunteer in a case that had become arguably the most controversial event of the decade. Now, forensic expert and crime scene reconstructionist Michael A. Knox tells the story of the forensic evidence in the killing and explains what that evidence really says about the fateful events that February evening in Sanford, Florida. Can the prosecution truly prove beyond a reasonable doubt that George Zimmerman murdered Trayvon Martin? Intermediate Range is a riveting account of the forensic evidence in the killing, much of which has been overlooked, misunderstood, or ignored by the public and the news media.

Many thought the election of our first African American president put an end to the conversation about race in this country, and that America had moved into a post – racial era of equality and opportunity. Then, on the night of February 26, 2012, a black seventeen – year – old boy walking to a friend's home carrying only his cell phone, candy, and a fruit drink, was shot and killed by a neighborhood watch coordinator. And in July 2013, the trial of Zimmerman for murder captivated the public, as did his eventual acquittal. In her provocative and landmark book, *Suspicion Nation*, Lisa Bloom, who covered the trial from gavel to gavel, posits that none of this was a surprise: Our laws, culture, and blind spots created the conditions that led to Trayvon Martin's death, and made George Zimmerman's acquittal by far the most likely outcome. America today holds an unhealthy preoccupation with firearms that has led to the expansion of gun rights to surreal extremes. America now has not only the highest per capita gun ownership rate in the world (almost one gun per American), but the highest rate of gun deaths. Despite the strides America has made, fighting a bloody Civil War to end slavery, eradicating Jim Crow laws, teaching tolerance, and electing an African American president, racial inequality persists throughout our country, in employment, housing, education, the media, and most institutions. And perhaps most destructively of all, racial biases run deep in every level of our criminal justice system. *Suspicion Nation* captures a court system and a country conflicted and divided over issues of race, violence, and gun legislation.

This stunning work illuminates today 's black experience through the voices of our most transformative and powerful African American poets. Included in this extraordinary volume are the poems of 43 of America 's most talented African American wordsmiths, including Pulitzer Prize – winning poets Rita Dove, Natasha Trethewey, Yusef Komunyakaa, and Tracy K. Smith, as well as the work of other luminaries such as Elizabeth Alexander, Ishmael Reed, and Sonia Sanchez. Included are poems such as " No Wound of Exit " by Patricia Smith, " We Are Not Responsible " by Harryette Mullen, and " Poem for My Father " by Quincy Troupe. Each is accompanied by a photograph of the poet along with a first-person biography. The anthology also contains personal essays on race such as " The Talk " by Jeannine Amber and works by Harry Belafonte, Amiri Baraka, and The Reverend Dr. William Barber II, architect of the Moral Mondays

movement, as well as images and iconic political posters of the Black Lives Matter movement, Malcolm X, and the Black Panther Party. Taken together, *Of Poetry and Protest* gives voice to the current conversation about race in America while also providing historical and cultural context. It serves as an excellent introduction to African American poetry and is a must-have for every reader committed to social justice and racial harmony.

Are Sharpton and Jackson pure examples of weak leaders? What was the connection between MLK and Sun Tzu? Did MLK implement Robert Greene's 48 Laws of Power? And why did Oprah Winfrey's movie, *Selma*, really flop at the box office? This book answers these questions and more. For the first time in American history, although most of MLK's records are sealed until 2027, in this book, deduced truths about MLK and strategy that would otherwise never be released are revealed. This book rewrites history and places King where he should have been a long time ago--alongside Sun Tzu and the rest of the world's greatest strategists. The truths here are explosive--like the shells made for the gun that Trayvon Martin was trying to sell. One thing is certain: after reading this book, you will never view Martin Luther King the same. Trayvon Martin, Michael Brown and Eric Garner, either. And Al Sharpton and Jesse Jackson would probably want to slap themselves. But you be the judge--read this book!

The events surrounding the Trayvon Martin murder, trial and acquittal bring to public and private discourse the violent, brutal murders of Emmett Till, Medgar Evers, Malcolm X, and Dr. King, while bringing back to memory the racially provoked murders of Black American and Black immigrant men such as Amadou Diallo, Oscar Grant and more recently, Michael Brown in Ferguson and Eric Garner in New York. The name of Trayvon Martin has become trope in the 21st century, which crystallizes US racial politics regarding Blackness, specifically the Black male: a metaphoric symbol of this history of America's regard for Black bodies, as well as a metonym, a name that has become a contemporary substitute for terrorist attacks targeting Black bodies. The works included here imply that Trayvon Martin, as trope, reverberates in the most conscientious of 'US'; and, this epic tragedy is one that has plagued 'US' since Africans and people of African descent first arrived to the Americas. The essays range from the profoundly personal to the thoroughly investigated, and conclude with the statement from President Barack H. Obama in the epilogue. <The Trayvon Martin in US is essential reading for anyone who is involved in race relations or teaches the topic.

"In this stunning work of investigative journalism, filmmaker Joel Gilbert uncovers the true story of the shooting death of 17-year-old Trayvon Martin, a tragedy that divided America. By examining Trayvon 's 750-page cell phone records, Gilbert discovers that the key witness for the prosecution of George Zimmerman, the plus-sized 18-year-old Rachel Jeantel, was a fraud. It was in fact a different girl who was on the phone with Trayvon just before he was shot. She was the 16-year-old named "Diamond" whose recorded conversation with attorney Benjamin Crump ignited the public, swayed President Obama, and provoked the nation's media to demand Zimmerman's arrest. Gilbert's painstaking research takes him through the high

schools of Miami, into the back alleys of Little Haiti, and to finally to Florida State University where he finds Trayvon's real girlfriend, the real phone witness, Diamond Eugene. Gilbert confirms his revelations with forensic handwriting analysis and DNA testing. After obtaining unredacted court documents and reading Diamond's vast social media archives, Gilbert then reconstructs the true story of Trayvon Martin's troubled teenage life and tragic death. In the process, he exposes in detail the most consequential hoax in recent American judicial history, The Trayvon Hoax, that was ground zero for the downward spiral of race relations in America." -- Amazon.
