Parenti illuminates the catastrophic convergence that is resulting from climate change and violence in failed and fragile states in the so-called “ Tropic of Chaos ” – the countries of Africa, Asia and Latin America geographically located between the Tropic of Capricorn and the Tropic of Cancer.

In Tropic of Chaos: Climate Change and the New Geography of Violence (2011), Parenti links the implications of climate change with social and political unrest in mid-latitude regions of the world. Explores the combined social impacts of cold or militarism, neoliberal economic restructuring, and the onset of anthropogenic climate change.

‘ Tropic of Chaos ’ Change, according to Christian Parenti. Catastrophic convergence of poverty, violence, and climate change. Climate change – already happening, and most pronounced in the tropics and subtropics (in terms of the human costs) Violence – competition for increasingly scarce livelihoods;

Tropic Of Chaos Climate Change

Last week I bought a new book before my flight to San Francisco, " Tropic of Chaos: Climate Change and the New Geography of Violence.", by Christian Parenti. Indeed, this book is well written, well researched and is deserving of the 5-stars by two reviewers on Amazon.

Tropic of Chaos: Climate Change and the New Geography of ...

Extreme weather is breeding banditry, humanitarian crisis, and state failure. In Tropic of Chaos, investigative journalist Christian Parenti travels along the front lines of this gathering catastrophe--the belt of economically and politically battered postcolonial nations and war zones girding the planet's midlatitudes.

Tropic of Chaos: Climate Change and the New Geography of ...

“ Tropic of Chaos: Climate Change and the New Geography of Violence, by Christian Parenti, is a rarity among nominally popular books, in that it seeks to describe what the world will look like if climate change is left unchecked. Exceedingly well-researched...it nevertheless lays out a narrative all the more frightening for those living in a world whose leaders seem increasingly resistant to doing anything about climate change. ” —
